REPORTS

OF THE

SELECTMEN

AND

Superintending School Committee,

FOR THE

YEAR ENDING MARCH 1, 1870:

HAMPTON.

BOSTON:

PRINTED BY HENRY W. DUTTON & SON, 90 AND 92 WASHINGTON STREET. 1870.

SELECTMEN'S OFFICE,

HAMPTON, March 1, 1870.

Agreeably to a vote of the town, we respectfully submit the annual report of the financial operations of the town for the fiscal year, embracing Receipts, Disbursements, Assets, and Debts; also, the state of the Treasury.

SELECTMEN'S REPORT.

REPORT

OF THE

SUPERINTENDING SCHOOL COMMITTEE.

The following Annual Report is respectfully submitted:

District No. 1. PRIMARY SCHOOL.

Miss Mary A. Perkins was teacher of the first term. If she failed fully to meet the expectations of your Committee, it was doubtless owing to her youth and inexperience.

The second term was taught by Miss Mary H. Godfrey, who devoted herself to her work, and the school made fair progress in their little studies, but "lacked one thing," good order, without which no school is "perfect."

GRAMMAR SCHOOL.

This school "left off as it began" without the knowledge of the Superintendent. Neither did the teacher, Miss Mitchell, return the register of her school. Hence no statistical report. At the time of my first visit the deportment of the school was good. We regret it was not main-

tained through the term.

The winter school was kept by Mr. Charles M. Lamprey, who "followed in the steps of his illustrious predecessor," the school having been in session several weeks before the Committee had knowledge thereof, or who had charge of the school except by "hearsay." The office of Superintendent thus ignored, I decided to be a "know nothing" in regard to this school, and submit without argument to the district's censure or approval of my course.

District No 2.

The first term of this school was under the efficient instruction of Miss Sarah M. Lamprey. The second, of Mr. Lewis Perkins, both of whom sustained their previously acquired reputation.

District No. 3.

Miss Carrie E. Seavey was teacher of the summer term, and Mr. Horace M. Lane of the winter term. This school through the year was characterized by good order, and a degree of thoroughness in study creditable to teachers and scholars.

District No. 4.

The school in this district was under the tuition of Miss Maria F. Mason during the year. She is a diligent and faithful teacher.

District No. 5.

The summer school was undertaken by Miss Fogg, who labored earnestly, but failed to maintain good order, or to secure thoroughness in study.

Miss Sarah E. Forsaith, teacher of the winter term, succeeded in a great measure, in reclaiming the school to habits of order and attention to study.

District No. 6.

Miss Alice W. Batchelder commenced the first term of this school "under difficulties," but persevered to success. Had she received the sympathy and co-operation of parents the school would have been more profitable.

Miss Carrie E. Seavey taught the second term, and sustained her well earned reputation in District No 3.

GENERAL REMARKS.

Were your Committee competent to offer suggestions and recommendations commensurate with the importance of the school interest, and would the public accept the advice, we might expect a decided improvement in the character of our schools. But unfortunately your Committee is not "sufficient for these things," and moreover a school report is regarded as a "tale that is told," and the community already know the "hows" to elevate the standard of Schools, much better than is practiced. The idea that a School Committee can make a good school is a mistaken one. The first requisite to a good school is a good Teacher. A good teacher being secured the greatest hindrance to a good school is a disease—a sort of hybrid combining the malignity of the epidemic and contagion-pestiferous, and which "runs in the blood" of some of our schools, viz., irregularity of attendance. "Quack Medicines," "extracts," and "compounds" fail to reach the seat of this disease. The only physicians that can eradicate it are parents, and those having the care of children. Towns, it is true, are authorized to enact by-laws compelling children regularly to attend school, but such laws are of little force unless backed by public sentiment.

The lack of sympathy and co-operation with the teacher by the district is another great obstacle in the way of a good school, and when parents manifest their *interest* in the school by criticising the teacher's method of instruction, and by listening to groundless complaints of scholars, and "wink at" their *misconduct*, it is evidence that they do not "see clearly" how to correct the evil of which they complain.

And their influence is against a profitable school.

My limit forbids me to speak of schoolhouses, and all the appurtenances and fixtures thereto belonging. For comments on which you are referred to school reports of past years, which, like the weather notes of a last year's almanac, are transferable to the present issue, and "though calculated for a particular meridian, will, with a little variation, answer in any other longitude."

> JACOB T. BROWN, Superintending School Committee.
