## AUDITORS' REPORT.

We have examined the foregoing accounts and find them well vouched and correctly cast.

ABBOTT NORRIS }  
HORACE M. LANE } Auditors.

Hampton, Feb. 18, 1905.

Your committee congratulate the town on the highly prosperous condition of the Academy. The attendance is larger than ever before. We have outgrown our recent quarters, and have been compelled to use the upper story of the building. We regret being obliged to take the upper rooms from the G. A. R., but it was a matter of necessity. The classes could no longer be crowded into the recitation room that they were using. This also gives us a laboratory for chemical work, which was greatly needed. A

general recitation room is not a safe place for chemicals. The recitations are excellent, and the order all that can be desired. The school was never in better condition. The principal is a fine scholar, a successful teacher, and does not spare himself in labor for the good of the school. And he has a valuable assistant in Miss Cole, who fully keeps up her department to its well-earned efficiency. Extra expense has been incurred in making the requisite changes in the building. We shall have to ask for the usual appropriation, and doubt not it will be cheerfully granted. Our citizens know the value to the town of the High School, and will, we feel sure, do nothing to close or cripple it.

For the committee,

J. A. Ross, chairman.

ROLL OF HONOR.—Major D. S. Gilman.

The winter term of the Grammar School was taught by Miss M. E. Bemis. The School Board were not satisfied with the general management and decided to make a change at the end of the term.

We were fortunate in securing the services of Miss Elisabeth Norris, an efficient teacher well known to all of us, and by her earnest and untiring efforts the school soon regained its usual standard of success under her training.

The fall term was taught by Miss Pollard, a teacher who understands her work, and we are satisfied with the progress made during the term.

The Primary schools have retained the same teachers as last year. We are pleased with the discipline, and the recitations

show the thorough work done by teachers and scholars.

If the parents and friends of our scholars would make an effort to visit the schools at least once each month, we think we would see a marked improvement in our school work and general deportment. Children like to be noticed, and we know by experience that the pupils take pride in having perfect lessons for the home friends. Then, too, the teacher needs your help. She will do better work if you make her your friend and show your approval of what she is doing for your children, and the only way to do this is by being in the schoolroom. Won't you come and help make our schools the best in the state?

The following is the list of books used.

Baldwin's Reader.
