## REPORT OF THE ANNUAL TOWN MEETING HELD MARCH 9TH, 1915.

---

In accordance with a notice, duly signed and legally posted the legal voters of the town of Hampton assembled at the place therein mentioned and were called to order by the moderator of the town at twenty-four minutes past ten o'clock in the forenoon of said day; the presiding officer read the warrant, after which prayer was offered by Rev. J. A. Ross.

Chose—Horace M. Lane town clerk for the ensuing year, who was sworn.

After a motion to elect all three of the selectmen on one ballot had been defeated it was:

Voted—That the selectmen be chosen one at a time.

Owing to a pardonable misunderstanding the first ballot for selectmen was declared void by the moderator; the result of the following ballots was that Joseph B. Brown, Elroy G. Shaw and Byron E. Redman were elected as a Board of Selectmen and were sworn by the clerk.

Chose—Herbert Perkins Treasurer for the ensuing year.

Voted—That the clerk cast one ballot for John W. Mason as Collector of Taxes and John W. Mason was declared elected to the office of Collector of Taxes for ensuing year.

Chose—Charles F. Adams, Albert K. Church and Simeon A. Shaw as Auditors.

A motion was made that we proceed to ballot for three Police, the first elected to be Chief; an amendment was offered to the effect that all of the remaining officers be appointed by the selectmen; the amendment was defeated by a vote of 53 to 78; the original motion also failed to pass when it was

Voted—That the appointment of the Police be left with the selectmen, with the understanding that none but residents be appointed.

A motion to reduce the number of highway districts from twelve to one failed of passage, when it was

Voted—That all remaining officers be appointed by the selectmen.

Voted—That we raise for highway purposes the sum that the law requires.

Voted—That the sum the law requires be set aside out of the appropriation for highway purposes for permanent improvements.

Voted—That the sum of three hundred dollars be raised and appropriated for cemeteries.

Voted—That seventy-five dollars be raised for Memorial Day.

Voted—That the sum of five hundred dollars be raised and appropriated toward the extermination of the Brown Tail and Gypsy Moths and that one hundred dollars of the same be used as a bounty on the nests moths.

And that Fred E. Perkins be chosen to oversee the work.

It was voted that the following sums of money be raised and appropriated.

For Breakwater, two thousand dollars.

Concrete Walk, to be built from the south end of the present walk to the Public Library five hundred dollars.

Electric Lights, twenty-eight hundred dollars.

Police, five hundred dollars.

Board of Health, three hundred and fifty dollars.

Salaries, one thousand dollars.

Library, five hundred and fifty dollars.

Salaries of Fireman, four hundred dollars.

Oil and Tarvia, two thousand dollars.

Voted—That the selectmen be instructed to procure plans and estimates for both concrete and iron bridge across the river at the Turnpike and report at an adjourned meeting.

Voted—That the selectmen be given power to hire money for town purposes in anticipation of taxes and to renew or refund the town notes.

Voted—That the leases of lots made by the selectmen at the Pines and White Island be ratified, and that they survey out two more blocks and lease the lots.

Voted—To pass over Article 8th.

Article 9th in relation to protection against fire was taken up and the meeting was addressed by Mr. Scammon of Exeter and others and the proposition was made that the town lease fifty hydrants at forty dollars each; a motion making the length of the lease five years, as also a motion to make the term of the lease five years at thirty-five dollars each for hydrants were defeated when it was

Voted—That the selectmen be authorized and instructed to make a contract with the Hampton Water Works Co., for hydrant service for a term not exceeding ten years; providing the amount paid for such service shall not exceed forty dollars a year for each hydrant and that such contract shall not be for not more than fifty hydrants; provided also for such additional hydrants as may be found necessary during the life of said contract, a sum not to exceed twenty dollars a year be paid for each hydrant so added, and that the sum of two thousand dollars be raised and appro-

priated for the same.

Voted—That the selectmen be instructed to install electric streets lights on the following highways; From Mace's Corner to Guinea school house, on Nook Lane Road and the Landing Road if it can be done at a figure so that the entire cost of lighting the streets shall not exceed the appropriation, viz., \$2,800.

Voted—That Article 11th be indefinitely postponed.

The following preamble and resolution was received, read and adopted.

Whereas, Agreeably to Chapter 84, Sec. 1, of the session laws of the State of New Hampshire, A. D., 1907, a town may at any annual or special meeting by major vote, regulate the digging of clams within its limits.

Therefore, Resolved, That if any person not a bona fide resident of the town of Hampton and actually domiciled within said town during the entire year, shall dig, take or carry away from the flats, creeks, rivers or their tributaries within the limits of said town of Hampton more than one-half bushel of clams on any one calendar day.

Nothing in these rules and regulations shall prevent persons not resident in said town of said town buying and carrying away clams in any quantity when bought from said residents of said town of Hampton. Any person violating the conditions or provisions of these rules or regulations shall for each offence be fined not more than ten dollars or imprisoned more than thirty days.

All rules, regulations and by-laws passed previous to these rules and regulations are hereby repealed and rescinded and these rules and regulations shall take effect on their adoption.

Voted—That where concrete sidewalks are built the abutters keep said sidewalks clear of ice and snow.

Voted—That the sum of three hundred dollars be set

aside for the purpose of stopping the sale of intoxicating liquor on the town land.

Voted—That the sum of one thousand dollars be set aside out of the contingent fund for the purpose of buying hose and other necessities for the fire department.

Voted—To establish a Police Court in accordance with the new law passed by the present Legislature.

Voted—That when we adjourn it be to March 30th next at seven o'clock in the afternoon.

Voted—That the selectmen be instructed to build a sewer from a point near Leavitt's Corner to a point near the Ashworth.

Voted—To adjourn.

**REPORT OF THE ADJOURNED TOWN MEETING  
HELD MARCH 30TH, 1915.**

---

In conformity to a vote passed at the annual town meeting held on the 9th inst. the legal voters of the town of Hampton assembled at the Town House in said town on Tuesday, the thirtieth day of March, 1915, and were called to order by the moderator of the town at twenty minutes past seven o'clock in the afternoon.

The matter of strengthening or rebuilding the bridge at the Turnpike was taken up and the report of the

selectmen as to the cost of a new bridge and of repairing the present one was called for. J. B. Brown, Chairman of the Selectmen reported that a new concrete bridge would cost about four thousand dollars, while it was estimated that the cost of repairing the present bridge would not exceed eight hundred and seventy-five dollars.

Some discussions ensued, when it was

Voted—That the bridge at the Turnpike be repaired and that the sum of five hundred dollars be raised and appropriated therefor.

Voted—That the matter of repairing the Turnpike bridge be left with the selectmen with power to appoint an agent to oversee the work if they think it best.

Voted—That the meeting adjourn without date.

A true record,

HORACE M. LANE,

Town Clerk.

# Warrant for Annual Town Meeting

## State of New Hampshire

TO THE INHABITANTS OF THE TOWN OF HAMPTON IN THE COUNTY OF ROCKINGHAM IN SAID STATE QUALIFIED TO VOTE IN TOWN AFFAIRS;

You are hereby notified to meet at the town hall in said Hampton on Tuesday, the fourteenth day of March next at ten o'clock in the forenoon to act upon the following subjects:

Article 1. To choose a clerk for the ensuing year.

Article 2. To choose three selectmen for the ensuing year.

Article 3. To choose treasurer, collector of taxes, auditors and all other necessary officers for the ensuing year.

Article 4. To choose by ballot trustees of trust funds one for one year, one for two years, and one for three years.

Article 5. To elect one or more not exceeding three highway agents for the ensuing year.

Article 6. To raise or appropriate such sums of money as may be necessary for Highways, Cemetery, Memorial Day, Brown Tail and Gypsy Moths, Tarvia and Oil Breakwater, Concrete Walks, Electric Lights, Police, Board of Health, Salaries of Town Officers, Library, Fire Department, Hydrant Service, and all other necessary charges arising within the town.

Article 7. To see if the town will vote to give the selectmen power to raise money in anticipation of taxes and to renew or refund the town notes.

Article 8. To see if the town will vote to stop the dumping of rubbish along our public highways and provide a public dumping place.

Article 9. To see if the town will vote to buy more fire apparatus and appropriate money therefor.

Article 10. To see if the town will vote to extend the Electric Lights from Guinea Schoolhouse to Coffin Corner.

Article 11. To see if the town will appropriate a sum not to exceed one thousand dollars to grade the Island Path road.

Article 12. To see if the town will take action to widen the main road near the depot and make the square more safe.

Article 13. To see if the town will vote to apply for State aid for highways.

Article 14. To hear report of agents on committee heretofore chosen.

Article 15. To pass any vote or votes that may be legal before said meeting.

Given under our hands and seal this twenty-sixth day of February, 1916.

| CHARLES FRANCIS ADAMS | } Auditor |
| ALBERT K. CHURCH      |           |
| S. ALBERT SHAW        |           |

Hampton, N. H., February 20, 1916.

We have to report the loss by resignation of two of our former teachers—**Mr. Elwell and Miss Blake.** We desire to put on record a word of commendation for both as faithful and successful teachers, and to wish them the largest success in their new fields.

We congratulate ourselves on the present organization of the school and its rising standards. Mr. Bernheisel, our new principal, has proved to be a man of sterling character with high ideals, meeting the requirements of the State Board of Education, fully qualified to inaugurate the course in Agriculture and to instruct in all the necessary branches, and further, capable of supervising successfully all the various activities of the school.

Miss Jenne continues to fulfill every requirement in an eminently satisfactory manner. Miss Aseltine, our new assistant, has proven a most acceptable addition to our corps of teachers; the school was fortunate in securing her services.

The hope expressed in our last report has been realized. At the beginning of this school year, your Committee, with the cooperation of the Board of Trustees, was enabled to add an Agricultural course to the curriculum. The school now offers the following courses—Academic, Domestic Arts, and Agriculture. This is a great step in advance. It brings the school in closer touch with the everyday interests of the community, filling a long felt need. It gives all our boys and girls, who are willing to work for it, an opportunity to obtain an education that will be of practical use to them in after life. That this opportunity is appreciated is evidenced by the record attendance and by the number of pupils already taking the new courses. More than half of the boys have elected Agriculture and almost half of the girls are studying Domestic Arts. A school of this kind is a real asset to any town, not only directly helping our own young people to future success, but advancing the interests of the community as a whole by attracting to it, as permanent residents, families who are looking about for a desirable place, with first class educational facilities, in which to bring up their children.

Hampton is a progressive town, ready and willing to support its schools. In times past our fathers were proud of the Academy. With its new and practical courses of instruction, large attendance, splendid organization, and higher standards we, and our children, are going to point with ever increasing pride to the reorganized Hampton Academy and High School.

For the Committee,

J. A. ROSS, Chairman.

Printer's Note—The original copy for the Roll of Honor and Book of Achievements, which was sent out of town for machine type, was not received back and new copy could not be obtained in time. It will be printed later.

**REPORT OF THE SUPERINTENDENT OF SCHOOLS.**

TO THE SCHOOL BOARD AND THE CITIZENS OF HAMPTON,  
N. H.:

I have the honor to present herewith my fifth annual report and the fifth in the series of the district superintendents' reports.

During the year past some perceptible gains in school efficiency have been made and improvement due to a constructive policy of gradual broadening, intensification and enrichment of the subject-matter in the elementary grades has been manifest.

The schools are now better organized and better equipped for work, the teachers have grown in power and efficiency, and generally speaking the pupils are achieving better results than heretofore, in some directions considerably in excess of the results of previous years.

On the other hand the superintendent with regret notes the prospect of an increase of non-promotions this June and the cases where better co-operation and a more thorough understanding of the purpose of the school work on the part of the parent would make retardation unnecessary and he must make his annual protest against infraction of the attendance laws and particularly the increase of tardiness.

Several changes in the teaching staff have occurred since last February. Miss Williams who had charge of the fifth and sixth grades resigned in the middle of the spring term and Miss Dorothy Thompson of Needham, Mass., a member of the junior class of Massachusetts School of Normal Arts, completed the year successfully. Since September the same position has been filled by Miss Dorothy Bamforth of Blackstone, Mass. Miss Bamforth is a graduate of Lowell Normal School, class of 1915.

We have been fortunate enough to retain the services of all the other teachers.

The record of attendance for the school year ending July 15, 1915, has shown some improvement over that of the year previous. The averages for the fall term, 1915, are considerably higher than for the fall term, 1914. The unenviable record of 238 cases of tardiness for the year 1913-1914 has been increased to 317 cases for the years 1914-1915. Since last September a marked increase in this respect has been shown. In most cases these tardinesses are inexcusable, and parents display an amazing disregard for the plainly stated laws of our state.

The transfer of the third grade from the Center to the East building mentioned in last year's report has worked very successfully. The arrangement of school sessions giving but three-quarters of an hour for noon intermission apparently works hardship to some parents and pupils. Since the conditions which made necessary this arrangement have for the most part disappeared, during the spring and fall terms the noon intermission might profitably be extended until one o'clock and the closing hour be made half past three o'clock.

The following table plainly shows that the percentage of eighth grade promotions entering high schools has been steadily rising and last June reached the highest point attainable.

| YEAR.       | HAMPTON. | STATE AV. |
|-------------|----------|-----------|
| 1910, ..... | 64       | 83        |
| 1912, ..... | 86       | 87.4      |
| 1913, ..... | 95       | 83        |
| 1914, ..... | 95       |           |
| 1915, ..... | 100      |           |

Naturally we cannot hope to attain every year as high a percentage as in 1915, but we should strive to maintain such an efficiency that we seldom would have classes with eighth grade pupils who could not graduate in June.

and enter some high school the following September. Two years ago efforts were made by the superintendent and the teachers to improve the quality of the oral reading, the handwriting and the spelling in the schools. That reasonable progress has been made is certain. The plan to form a speller from the misspelled words in the English papers of the pupils and from other lists of words such as the Cleveland list and the business correspondence list compiled by the Russell Sage Foundation was carried out and as a result we now have "The Hampton Speller" in actual use. Each year the lists will be revised and the vocabularies of the individual pupils drawn upon for additional words.

Letter writing has been taken up by the pupils of the third grade at the commencement of the winter term. To add interest the third and fourth grade pupils make exchanges with those who are in the same grades in the other towns of the supervisory union. Here stress has been laid upon language work so that the pupils may early obtain practice in punctuation, sentence structure, correct usage of words, correspondence, social and business force.

Last year the home garden work in connection with the Nature Study course was extended, about one hundred gardens were planted and cultivated. Reports from the pupils were made, in some grades plans of gardens were drawn and in the fall term some of the products were brought to the school-rooms for the inspection of the superintendent. Almost every garden vegetable was grown in these gardens. A plan for the proper supervision of this work is now being devised. If a fair could be held early in the fall term of each year and prizes awarded for excellence of products displayed, interest would be stimulated in this most important phase of school work.

The sewing of the grammar grades, mentioned in last year's report, has become well established and the sewing machine presented by Mrs. Cutler has made pos-

sible much work that otherwise could not have been attempted.

To affect a proper balance to the course in sewing the grammar school should also offer manual training and woodworking, now recognized as essential to the training of pre-adolescent boys and girls and included in the school work of a large number of neighboring New Hampshire towns.

Now that we have added agriculture to the courses offered in the high school, such a preparation as a good manual training course would be especially valuable.

The increased cost of living is reflected in the higher cost of necessities of schools. To meet this the appropriation by the citizens at the disposal of the school board should be increased.

Once more the superintendent respectfully calls the attention of the citizens to needs that have been more fully discussed in previous reports; viz, medical inspection, a central building to accommodate all the elementary pupils of the town, and the gradual extension of industrial arts courses. Much has already been done relative to the last of these three needs, and the realization of the second it is hoped will not long be delayed.

The schools constitute one of the large investments of this as of every town. It is a paying investment. The returns in tangible form could easily be made very great. Effective co-operation of the citizens would treble the value of the schools to the taxpayer. The schools should be regarded not as places where preparation for living is made but rather as places where actual, real living is carried out.

There are many excellent benevolent and fraternal organizations in this community; their principles are the subject of much of the school work; their help in developing special phases of school work would be invaluable to the superintendent. More of the citizens and taxpayers should visit the school-rooms, should feel it their

duty, their privilege to offer suggestion, to "lend a hand" in making Hampton schools not merely effective but superior. Correlation of the activities of the community with the school work is necessary if we are to train our boys and our girls to assume responsibilities and to contribute to the welfare and to the wealth of Hampton.

With appreciation and gratitude for the loyal attitude and the cordial support of the members of the school board, this report is respectfully submitted.

ALBERT T. LANE,  
*Superintendent.*

Treasurer :

John T. Marsten was declared elected treasurer for the ensuing year by the clerk casting one vote for him.

Voted. That the town auditor be the school auditor.

Voted. That we raise fifteen hundred dollars for the high school.

Voted. That we raise the sum of two hundred dollars for high school supplies.

Voted. That we raise the sum of two hundred dollars for school supplies and two hundred and fifty dollars for repairs.

Voted. That we raise the sum of two hundred dollars for transportation of school children.

Voted. That article 10 be passed on.

ART. 1. Report of the committee on Central schoolhouse made by Ernest G. Cole for committee.

Voted. That the report of committee be received.

Voted. That the committee be discharged.

Voted. That the report of committee on Central schoolhouse be printed in the town report.

Voted. That article 12 be indefinitely postponed.

Voted. That the thanks of the meeting be extended to the committee on Central schoolhouse.

Voted. That article 13 be indefinitely postponed.

Voted. That the meeting be adjourned.

A true copy of record.

JOSEPH B. BROWN,

*Clerk.*

## REPORT OF THE COMMITTEE ON A CENTRAL SCHOOLHOUSE FOR HAMPTON.

HAMPTON, N. H., March, 1915.

Our annual report for the year ending Feb. 15, 1915, shows that our elementary schools make use of three buildings containing five school-rooms and one recitation room, and that we employ six teachers. The maximum enrollment for the year was 173, and this is close to what it has been for some years back.

It would therefore appear that a six room schoolhouse, with basement and assembly hall, would meet our requirements as far as we can look ahead. Such a school would comfortably accommodate forty pupils in each of the six rooms, a total of 240 pupils. There would be space in the basement for manual training and domestic arts if wanted. The assembly hall would serve the pupils and the public as a place where the school could hold its public exercises or give entertainments. Should necessity therefore arise in the future, the assembly hall could be made into additional school-rooms.

To schools of about the above-mentioned size we directed our attention, visiting Rochester at the suggestion of Mr. Morrison, state superintendent of public instruction, and Portsmouth at the suggestion of our chairman. And in this connection we wish to thank Mr. Morrison for his interest and advice ; Mr. Pugsley, superintendent of the Rochester schools, for his kindness in giving us all possible information and many valuable suggestions; and Mayor Yeaton of Portsmouth for the very special courtesy shown in conducting us to, and through, the Lafayette school, just nearing completion, and furnishing us with the exact contract price and other important details.

The buildings about which information was gathered were as follows :

## SCHOOL STREET, ROCHESTER.

Two story and basement, wooden building, six school-rooms and four small rooms, the small rooms with perhaps total area to make a small assembly hall. Contract price, \$17,000, two or three years ago. Supt. Pugsley states that it could not be duplicated for this price now. Contractors, Lord and Perkins. Coal used per year, 40 tons. Janitor per year, \$400.00.

## GONIC SCHOOL, ROCHESTER.

Two story and basement, brick, six school-rooms and eight small rooms. The small rooms have sufficient total area to make an assembly hall. Estimate of cost, by Mr. Pugsley, of duplicating building today, \$25,000. Ground area of building about 4,700 square feet. Coal used per year, 35 tons. Janitor per year, \$400.00.

## LAFAYETTE SCHOOL, PORTSMOUTH.

Two story and basement, brick with slate roof, eight school-rooms and a number of small offices and store-rooms. Two of the school-rooms could be made into an assembly hall, making a building of six rooms and an assembly hall. Architect, Clarence P. Hoyt. Contractors, Lord and Perkins. Ground area of building about 4,400 square feet. Cube of building about 193,200.

General contract for building, including plumb-

|                                                   |             |
|---------------------------------------------------|-------------|
| ing, electric wiring, and painting, . . . . .     | \$23,898 00 |
| Heating and ventilating contract, . . . . .       | 2,360 00    |
| Architect's fee, 6% of cost, . . . . .            | 1,575 00    |
| Curtains and electric fixtures, estimate, . . . . | 250 00      |
| Furnishings, estimate, . . . . .                  | 1,500 00    |

Total cost of building and equipment, . . . . \$29,583 00

These Portsmouth figures show the actual cost, today, of a model school building of first-class construction, and having the latest, and presumably the best system of lighting, heating and ventilating, and sanitary arrangement, and this building is about the size Hampton requires.

ESTIMATE OF COST OF CENTRAL SCHOOLHOUSE FOR  
HAMPTON.

|                                                                                                                                                                                                                                                           |             |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| Six school-rooms, assembly hall, office and store-room, basement with space for manual training and domestic arts. Building to be of brick with slate roof. General contract for a building, including plumbing, electric wiring, and painting, . . . . . | \$24,000 00 |
| Heating and ventilating contract, . . . . .                                                                                                                                                                                                               | 2,300 00    |
| Architect's fee, 6% of cost, . . . . .                                                                                                                                                                                                                    | 1,580 00    |
|                                                                                                                                                                                                                                                           | \$27,880 00 |
| Building only, . . . . .                                                                                                                                                                                                                                  | \$27,880 00 |
| Curtains and electric fixtures, . . . . \$ 250 00                                                                                                                                                                                                         | \$ 250 00   |
| Desks, chairs, etc., . . . . .                                                                                                                                                                                                                            | 1,500 00    |
|                                                                                                                                                                                                                                                           | \$ 1,750 00 |
| Total for building and equipment, . . . . .                                                                                                                                                                                                               | \$29,630 00 |
| Land for site and playgrounds, . . . . .                                                                                                                                                                                                                  | 1,000 00    |
| Grading, . . . . .                                                                                                                                                                                                                                        | 2,000 00    |
|                                                                                                                                                                                                                                                           | \$32,630 00 |

Grand total for building, equipment and grounds, . . . . . \$32,630 00

In round numbers then a Central schoolhouse will cost, it is estimated, between thirty-two and thirty-three thousand dollars. In addition a Central schoolhouse will entail a permanent increase in running expenses amounting, it is estimated, to \$1,100.00 yearly, made up as follows :

Janitor service : Cost last year \$87.95 ; for Central school would cost \$400.00 per year — an increase of \$312.00.

Fuel : Cost last year \$128.20 ; would require 35 to 40 tons of coal, which at \$7.00 amounts to \$245.00 to \$280.00 — an increase of about \$117.00.

Transportation : Cost last year, by wagon \$220.00, and by street car, \$624.00 less \$77.89 for tickets sold, making the total net cost \$766.11. There are thirty-six weeks of school of five days each, amounting to 180 school

days in the year. The school tickets cost three and one-half cents each or seven cents per day for one pupil over one fare limit. As stated, we spent \$547.11 for street car transportation last year, or \$3.04 each school day. This daily average, divided by seven cents, shows that we transport by street car each school day the equivalent of 43 to 44 children over one fare limit. With a Central school we would have to take care also of the East end pupils and the North end pupils. Seventy-one pupils attend the East end school ; subtract from this number 28 who now ride from the center of the town to the East end and 4 who now ride from the beach to the East end and could ride to the center without extra cost, and there are left 39 pupils to be transported from the East end to the Center. At seven cents each this amounts to \$2.73 per school day, or an increase of \$491.40 per year for street car transportation. Then the North end pupils must be taken care of by wagon. At \$1.25 per day, the present rate, this amounts to \$220.00 per year to be added for wagon transportation, making a total yearly increase of \$711.00 for transportation. Recapitulating, we have :

|                                |           |
|--------------------------------|-----------|
| Janitor increase, .....        | \$ 312 00 |
| Fuel increase, .....           | 117 00    |
| Transportation increase, ..... | 711 00    |

---

Total increase over present running expenses, ..... \$ 1,140 00

Other annual expenses are — cleaning, which should remain about the same. Repairs, which were \$237.00 last year and should be at least \$100.00 less with the new school ; but the water rent will probably offset this saving. Insurance, which will have to be taken out on a larger valuation, but this increase in the amount will perhaps be offset by the lower rate obtainable on a brick building of as near fire-proof construction as possible.

The money needed for building, land and equipment can be raised in two ways, namely, by notes or bond issue. If by a bond issue, one-twentieth of the total amount must

be retired each year. A bond issue is generally considered the cheapest and best method of raising money for permanent improvements. Should it be decided to issue \$32,000.00 of four and one-half per cent school district bonds for a Central schoolhouse, the cost would be as follows, using our present valuation of two million dollars :

|                                             |             |
|---------------------------------------------|-------------|
| Retirement fund each year for twenty years, | \$ 1,600 00 |
| Interest first year, .....                  | 1,440 00    |
|                                             | <hr/>       |

Total to be raised by taxation first year, . . \$ 3,040 00

The above amounts to an increase in the tax rate of \$1.50 per thousand. After the first year the interest payments decrease \$72.00 annually. At the end of twenty years the debt is wiped out.

After the school is built and in running order it will be necessary to raise yearly by taxation the sum of \$1,100.00 to cover the permanent increase in running expenses due to the new school. This amounts to an increase in the tax rate of fifty-five cents per thousand.

It is therefore evident that the total cost of a Central schoolhouse to the taxpayers of Hampton will amount to an increase in the tax rate of about two dollars per thousand on the present valuation of two million dollars.

It has been suggested that our large yearly increase in valuation, and in the rents received from the town lands, due to the building up of the beach, should tend to reduce our tax rate and thus partially offset, if not entirely take care of, the cost of the new school. This important factor in town finances has been given due consideration, but our past financial policy furnishes no hope for the future in this direction. Each year, for some years back, the town has spent a little more than it has taken in, notwithstanding our remarkable increase in valuation ; and the voters have approved. It is therefore apparent that an increase in the tax rate is inevitable in the near future even though the Central schoolhouse is not built.

There seems to be a widespread sentiment through the district favorable to the new Central schoolhouse ; if not this year then as soon as the town can afford it. And this desire to give our children the greatest possible advantages is not hard to understand. In many of our manufacturing towns and cities are observed modern school buildings, with all the latest improvements, filled with the children of foreign parents ; are the children of this strictly American community any the less worthy of the best educational facilities ?

But bear in mind that we pay the price, namely, an increase in the tax rate of about two dollars. On the other hand, do not be deceived should the tax rate be raised three or four dollars. Remember, that however much the rate goes up in the future, a Central schoolhouse would be responsible for only two dollars of the increase.

The following recommendations are made :

1. That a piece of ground be acquired immediately for a public playground for the enjoyment of all the school children of the town, including the pupils of Hampton Academy and high school, and suitable for use as the site of a Central schoolhouse should such a structure ever be erected.

2. That, should the district decide to go ahead with the Central schoolhouse project, a Central schoolhouse building committee be elected by ballot to have full charge and control of all matters, both financial and otherwise, pertaining to the said project until such time as the building is erected and the building and grounds are equipped and turned over to the district.

Respectfully submitted,

ERNEST G. COLE,  
 HOWARD G. LANE,  
 MARTHA P. LOCKE,  
 W. M. BATCHELDER,  
 ALBERT K. CHURCH.
