SELECTMEN'S REPORT

1974 Board of Selectmen (left to right) Robert V. Lessard; Ashton J. Norton, Vice Chairman; Mrs. Helen W. Hayden, Chairwoman; Peter G. Lombardi, Town Manager; Clifford H. Eastman, Sr.; James F. Fallon.

To the Citizens of Hampton:

Your Board of Selectmen is pleased to present the following report of the operation of government in Hampton for the year 1974.

During the past year it has been our objective to strive to stabilize the tax-rate, and to give our citizens the best possible services at a reasonable cost which they can pay. The result has been a slight lowering of the tax burden, while still maintaining the former excellent standards of service.

The decision of Wheelabrator-Frye, Inc. to locate their Corporate Headquarters in Hampton, was a happy one, and we welcome them to our community. Their construction of a two and one-half million dollar facility upon nearly 200 acres of land adjacent to I-95 has resulted in the broadening of our tax base, without materially in-

creasing school population, or other costs. Because Wheelabrator-Frye, Inc. has borne the cost of providing both water and sewer facilities for their own premises, the \$40,000 Industrial Water Fund voted five years ago, will be turned back to the General Fund to reduce taxes April 1, 1975.

One major policy change inaugurated this year was the decision to allow town leases to be written for a term of twenty-five years . . . if desired by lessees. This will allow for improvement of many properties on leased land.

This year the Board voted to have "North Shore Lots" surveyed, and boundaries set. Previous to this year, no definite boundaries have been established for the over 400 leased lots. It is hoped that this policy will be continued, with a specific area being surveyed each year until all leased land is done.

Because of final government approval of funds for the long awaited Landing Road Interceptor, the Board was happy to be able to lift the moratorium voted in 1972, and allow construction in the central business section of the town.

At the Town Meeting of 1974 it was voted that all present and future Boards be allowed to enter into collective bargaining contracts with employees. After lengthy negotiations with the Hampton Police Relief Association, a contract was signed by the Selectmen and Representatives of the Association on January 17, 1975.

In November 1974 the Hampton Permanent Firefighters Association requested negotiations with the Town, which will soon begin.

In recent years mosquitoes have become a serious problem to this recreational area. This Board has recommended one of the three proposals made after careful study by the Ad Hoc Mosquito Control Committee. We feel that this is a step forward in contributing to the health and comfort of both residents, and our summer guests.

In submitting a Plan for an addition to the present Town Office building which will consolidate the

departments presently housed in the Main Office, the Martel Building, and the Mason House, we feel that we are improving service for our citizens, efficiency of operation, and are reducing costs to the taxpayers. Maintenance of three buildings, two of which need major repair, is expensive, and has been proven impractical. The proposed plan is both economical and functional. We hope that it will meet with your approval at the Annual Town Meeting.

On January 27, 1975 the Board received notification that Hampton had been designated a National Bicentennial Community by the American Revolution Bicentennial Commission.

Our Legislative Delegation has met with the Board twice during 1974, and has been most helpful. We wish to thank them for their time, and interest in promoting the best interests of our town.

All meetings of the Board, at which business was done, have been open to the public and attended by many interested individuals.

To our Town Manager, All Elected and Appointed Officials, The Budget Committee, our dedicated Department Heads and personnel, we wish to express our sincere appreciation for their cooperation. It is their work in the performance of day to day duties WELL DONE, that makes Hampton a GOOD TOWN IN WHICH TO LIVE.

HELEN W. HAYDEN, Chairman
Board of Selectmen

TOWN OFFICES

HAMPTON, NEW HAMPSHIRE

HONORABLE BOARD OF SELECTMEN AND CITIZENS OF HAMPTON:

The Year, 1974, was an extremely eventful one for the Town.

The Annual Town Meeting, in March, voted to allow the Board of Selectmen to recognize labor unions and enter into collective bargaining contracts. I was pleased to represent the Board at the many formal negotiating sessions which ultimately culminated in a working agreement satisfactory to the Hampton Police Relief Association and the Board of Selectmen. The signed agreement adequately assures the rights of management to operate and manage the Town's affairs in all respects in accordance with existing and future laws and regulations. Such assurances, I believe, are of paramount importance now and in the future for the sound efficient administration of the Town.

Following nearly four years of engineering and planning, the Town's Sewer Interceptor Project was approved for federal funding by the U. S. Environmental Protection Agency, and it is expected that construction will commence in the Spring of 1975.

After nearly as many years, the addition of administrative offices to the Police Station has become a reality. The project was approximately 90% complete at the end of the fiscal year.

As of this writing, it appears the Environmental Protection Agency will approve the Town's application for federal funds towards the construction of our Secondary Treatment facility, construction of which would begin in late summer.

The changes made to the bookkeeping machine have enabled me to maintain better control of the fiscal affairs of the Town and furnish more timely and accurate financial data to the Board of Selectmen and Municipal Budget Committee.

The Lafayette Road North sewer project was substantially completed with the only exception being the road resurfacing which is scheduled to be completed in the Spring, prior to any major Bi-Centennial celebration.

The Town portion of the tax rate was reduced by \$1.40 during 1974. There was an operating budget surplus of approximately \$88,000.00 at years end. This surplus is quite noteworthy in light of the fact that the inflation ridden economy has resulted in higher costs for many of the items which the town purchases annually.

Hampton continues to prosper despite this period of economic uncertainty and should remain prosperous with the continued cooperation of all segments of the community. The 1975 Town Budget, as recommended by the Board of Selectmen, represents an increase of only 6.4% over the 1974 appropriations. This rather small increase is quite remarkable when one considers the cost of living has increased more than 12% during the past year.

I appreciate the support and cooperation from the Board of Selectmen, news media, and the citizens of Hampton. I especially want to thank the members of my staff and all the Town employees for their continued dedication in providing excellent services for the citizens of Hampton.

Yours truly,

Peter G. Lombardi,
Town Manager.

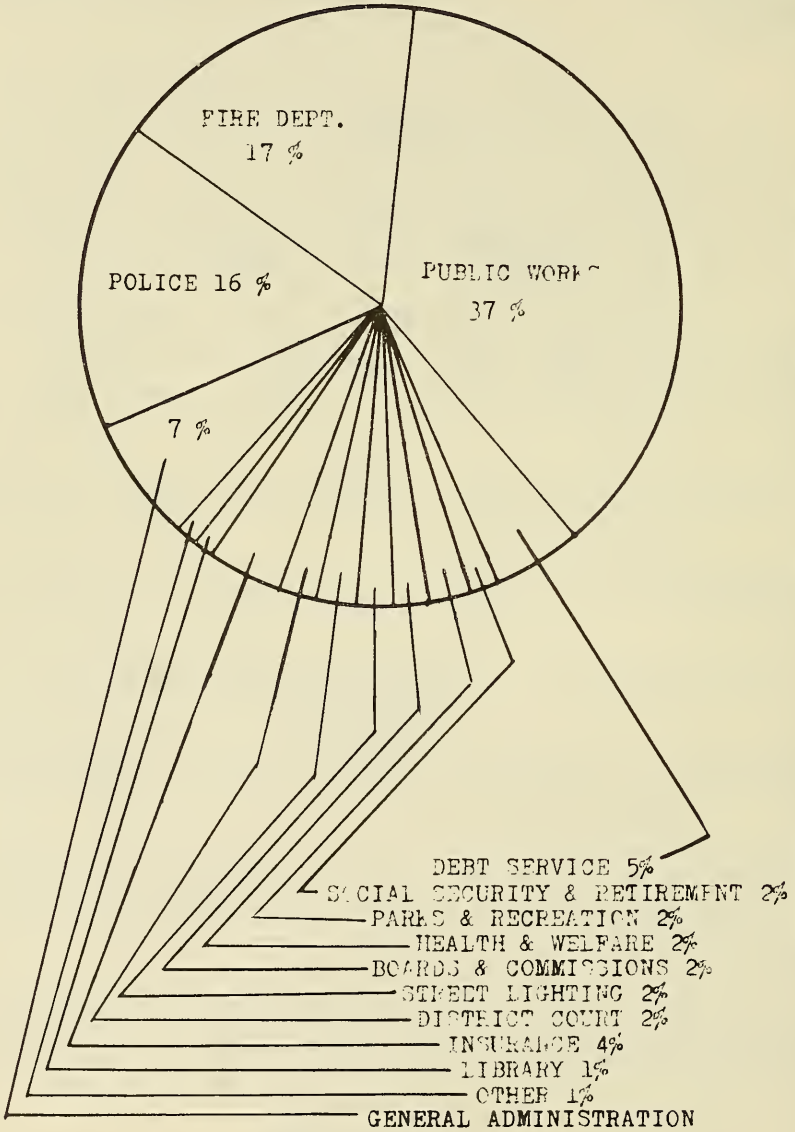

BREAKDOWN OF TAX RATE 1974

1974 RATE \$41.30

SCHOOLS	61.5%
HIGH SCHOOL	21.5%
DISTRICT	40%
MUNICIPAL	32.2%
COUNTY	6.3%

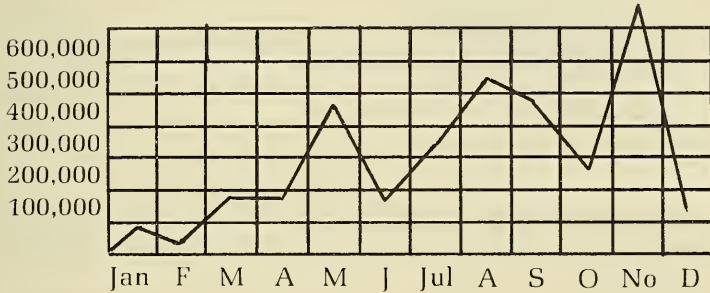

BREAKDOWN OF MUNICIPAL BUDGET 1974

BUILDING INSPECTOR REPORT

The Building Inspection Department consists of 2 full-time personnel, the Building Inspector and the Assistant Building Inspector.

The total cost of construction for the year 1974 was \$5,240,542 an increase of \$1,924,656 from 1973. There were 499 building permits issued. The chart below shows a breakdown by months.

Jan	88,289	Jul	316,740
Feb	47,500	Aug	552,760
Mar	174,329	Sep	476,665
Apr	175,788	Oct	238,798
May	453,120	Nov	2,426,092
Jun	162,797	Dec	127,664

Permits issued by classification:

HOUSEKEEPING RESIDENTIAL BUILDINGS	
One-family houses	20
Two-family houses	1
Three-family houses	1
MOVED OR RELOCATED BUILDINGS	
	1
MOBILE HOMES	
	7

ALL OTHER NEW BUILDINGS AND STRUCTURES	
Industrial Buildings	1
Transit Hotels	1
Residential garages and carports	10
Professional Buildings	1
Stores and other mercantile buildings	1
Other non-residential buildings	2
Structures other than buildings	1
Swimming Pools	14
DEMOLITION AND RAZING OF BUILDINGS	
Residential	2
Other	9
ADDITIONS, ALTERATIONS AND CONVERSIONS	- 297
INDIVIDUAL PERMITS \$100,000 OR MORE	6
MISCELLANEOUS	124
TOTAL	<u>449</u>

Total number of new housing units for the year 1974 were 51. Single family house construction down 49% from 1973.

Twelve (12) building violations were discovered during the year 1974.

Building permit fees collected for the year 1974 were \$17,398.50 as compared to \$10,422.50 for the year 1973.

ALFRED L. JAQUES
Building Inspector

ASSESSOR'S REPORT

The 1974 assessed valuation of Hampton continued the pattern established in 1972 and 1973 with an increase over the previous tax base in excess of four and a quarter million dollars for the third consecutive year. A comparison between this year's and last year's totals is indicated below.

TOWN AND PRECINCT TAXABLE VALUATION		
	1973	1974
Land	\$19,941,245	\$20,310,510
Buildings	64,885,380	68,441,640
Factories	502,350	502,350
Utilities	4,793,310	5,099,310
Mobile Homes	645,200	706,600
Boats	84,000	99,400
	<hr/>	<hr/>
Gross Valuation	\$90,851,485	\$95,159,810
Elderly Exemptions	-199,500	-217,000
	<hr/>	<hr/>
Net Valuation	\$90,651,985	\$94,942,810

1974 PRECINCT VALUATION	
Land	\$7,181,200
Buildings	24,172,880
Factories	-
Utilities	1,678,500
Mobile Homes	481,700
Boats	53,000
	<hr/>
Gross Valuation	\$33,567,280
Elderly Exemption	- 45,500
	<hr/>
Net Valuation	\$33,521,780

An additional valuation amount of \$107,340 in the 1974 land category, representing approximately \$4,500 in revenue, was lost to taxation as a result of the so-called "open space" law. Inasmuch as such preferential treatment is mandated but not funded by the State, this loss was shifted to all the taxpayers and is reflected in the tax rate. Though it amounts to only about five cents on the rate, it is significant that the eleven landowners who benefitted from this legislation accounted for almost fifty percent as much in exempt valuation as the amount necessary to provide tax relief for sixty-two elderly taxpayers.

The composite tax rate is formulated by the State from the funds which the total assessed valuation less other revenue sources, such as local shares of sweepstakes and rooms and meals tax income, will generate to produce the appropriations approved at town, school and county meetings. The following table is a comparative breakdown of the tax rates for this year and last year showing what percentage of the total rate was required for each of the governmental units specified.

	<u>1973 Percent</u>		<u>1974 Percent</u>	
Municipal	\$14.70	35%	\$13.30	32%
County	1.90	5%	2.60	6%
Winn Co-op	9.30	22%	8.90	22%
Elementary	15.90	38%	16.50	40%
Town Rate	<hr/>		<hr/>	
	\$41.80		\$41.30	
Precinct	3.10		3.40	
Precinct Rate	<hr/>		<hr/>	
	\$44.90		\$44.70	

The assessing office is charged with the responsibility of committing warrants to the Tax Collector for property taxes and resident taxes, effective as of April first of each year. Those amounts are shown below.

1974 Commitments to Tax Collector	
Property taxes	\$3,926,120.55
Additional Precinct taxes	108,974.21
	<hr/>
Gross Property taxes	\$4,035,094.76
Veterans' Exemptions	- 49,497.11
	<hr/>
Net Property taxes	\$3,985,597.65
Resident taxes	\$ 52,250.00

In 1974, the resident tax was changed by act of the Legislature to include persons between the ages of 18 to 65. Previously, the age limitation was 21 to 65. The resident tax, in the amount of ten dollars, replaced what was formerly known as the head and poll tax. Persons liable are those who maintain Hampton as their legal residence on April first of the tax year. It is incumbent upon all residents who reach the age of 18 and all persons newly residing in Hampton to register at the Assessor's office. Additionally, persons who marry and those who change their address, either within the town or by leaving the community, should notify this office so that the records may be kept current. Persons on active military duty, widows of war veterans who were residents of New Hampshire at the time of their death, paupers and insane persons are exempt from resident tax.

Other legislative changes which affected the 1974 tax year pertained to current use valuation and the Homeowner's exemption. Current use, or the open space law as it is commonly known, was expanded from its original categories of farm and forest lands to include wild land, recreation land, wetland and flood plains.

As a result of referendum voting on Town Meeting day, and contrary to the recommendation of the Assessor, Hampton was one of the few communities within the State to adopt the provisions of enabling legislation which created a Homeowner's exemption.

Provisions of the law would have granted an unfunded \$5,000 exemption based on equalized assessed valuation to resident homeowners under age 65 and a \$10,000 equalized exemption to those over 65. Approximately 2,000 such applications were submitted to this office. When the exemption was declared unconstitutional by the State Supreme Court, a delay in setting the 1974 tax rate was encountered because of the need to have persons over 70 reapply for exemption under the State's elderly law.

A total of 459 transfers of real estate ownership was processed by this office, representing a decrease of 132 from the 591 handled in 1973. Though the current economic conditions and mortgage money situations may account for the decline in volume, the ever increasing gap in the ratio of inflationary prices compared to assessed valuation, coupled with obvious inequities cited by taxpayers in appeal, compels this office to issue its annual plea for a complete revaluation.

The Hampton Assessor again this year served on the Education Committee which conducted the second annual school for assessing personnel at the University of New Hampshire. Additional honors included chairmanship of the annual conference of the New Hampshire Association of Assessing Officials; and re-appointment to the Board of Directors of the Northeast Regional Association of Assessing Officers, an affiliation of eleven northeastern states, the District of Columbia and six Canadian provinces.

Respectfully submitted,
Howard Promer, Assessor
Mrs. Dorsey Baron, Secretary

POLICE DEPARTMENT

Personnel: Regular 21
Special 50

ADMINISTRATIVE

Three new patrolmen were added as replacements during 1974. Patrolman Edward Olson came to us from the Rye Police Department. Patrolmen George Bateman and William Wrenn were promoted from the ranks of Special Officers with this Department to Regular Officers.

BUREAU OF CRIMINAL INVESTIGATIONS

A personnel change occurred in this Division during 1974 resulting in the promotion of Detective Sargeant Norman Brown and Detective James Tuttle.

The following figures show a comparison of the listed activities over a four year period:

	1971	1972	1973	1974
Criminal Arrests	1,328	1,045	986	840
Motor Vehicle Arrests	1,146	1,273	891	717
Accident Investigations	353	340	335	400
Log Entries	10,477	10,555	9,405	8,796
Juvenile Arrests	518	444	388	336

In 1974 we saw an increase of drug arrests over 1973. In 1974 we prosecuted 330 persons for various drug offenses compared to 297 in 1973.

We have experienced an increase in burglaries,

thefts and other larceny type crimes and through our investigations we feel that the major reason for this increase is the high unemployment rate and the status of the economy.

BUILDING CONSTRUCTION

After waiting and planning for approximately four years construction was started and is about complete on a much needed addition to the Police Station.

When this addition is completed it will greatly effect the efficiency of this Department.

The addition includes new offices for the Chief of Police, the Detective Division, the Youth Services Officer and our full-time prosecutor. A new Officers Locker Room, and interrogation room and much needed storage rooms were also added.

TRAINING

Sgt. Robert Mark and Det. James Tuttle attended a week long seminar in Medico-Legal Forensic matters at the University of New Hampshire.

Det. Sgt. Norman Brown attended a week long course in Advance Fingerprint Techniques conducted by the F.B.I. in Concord, N.H.

Chief Clayton Bousquin, Det. Sgt. Brown and Det. Tuttle attended a two day school on the use of the Department's new Identi-kit.

Lt. Charles Garland and Det. Tuttle attended a two day conference for Evidence Technicians. This conference covered the collection of certain evidence using photography.

Chief Bousquin, Det. Sgt. Brown and Sgt. John Nickerson attended a Criminal Law Course held for seven nights and conducted by the University of New Hampshire..

Chief Bousquin and Det. Sgt. Brown attended a one day seminar on Bank Security and Crime Techniques conducted by the F.B.I.

Chief Bosquin and Det. Tuttle attended a one day conference on hostage and hostage related incidents conducted by the F. B. I.

Every officer of this Department, during 1974, completed a very extensive firearms training program. This course was not only for firing the service revolver but instilled self-confidence under combat conditions. Instructors were Lt. Garland, Patrolmen James Kennedy and Robert McLaughlin.

As in the past years many of the officers are attending college on their off-duty time taking law enforcement courses.

COURT PROSECUTOR

In January of 1974 Sgt. John Nickerson was appointed full time prosecutor for this Department. The growth of the Department and the increase of the number of court days necessitated this change.

This change has resulted in a better working arrangement with the Court, follow-up on arrests prior to Court, the necessary paperwork and the preliminary work prior to Grand Jury and Superior Court Hearings.

Sgt. Nickerson has done an outstanding job in this capacity.

YOUTH SERVICES DIVISION

On September 30, 1974 the Board of Selectmen approved the changing of the name of our Juvenile Section to Youth Services Division. Sgt. Joseph MacDonald is in charge of this and his new title is Youth Services Officer.

Throughout 1974, through the work of Sgt. MacDonald, we were able to obtain restitution to crime victims in the amount of \$895.12. Approximately \$326.00 more is forthcoming.

As a result of one burglary we were able to work

with the parents and have obtained over \$3,000.00 in restitution and this investigation is still under way with more money expected.

The majority of this restitution to the victims was the direct result of Sgt. MacDonald's efforts and the cooperation that he received from the parents of the juveniles.

Again in 1974, through the efforts of Sgt. MacDonald, fewer juveniles had to appear in Juvenile Court. Sgt. MacDonald's program of working with the parents and the juveniles is having very good results.

DOG CONTROL OFFICER

During 1974 our Dog Control Officer answered 953 complaints. He apprehended 189 dogs that were at large. He issued 212 warnings and 202 summons for various offenses.

SAFETY

In 1974 we had a decrease in the number of persons arrested for drunken driving. It is hoped that our preventive measures and our strict enforcement can be credited with this decrease.

New safety warning signs were installed on certain streets and hopefully this will reduce the number of accidents.

SUMMARY

I would like to take this opportunity to thank the residents of the Town of Hampton and all other persons connected with this Department for a successful year.

A lot of hard work goes on, out of the public's eye, to make the Town of Hampton a Town to be proud of.

Respectfully Submitted,
Clayton E. Bousquin
Chief of Police

FIRE DEPARTMENT

Permanent Personnel - 25

Call Personnel - 20

I am pleased to submit the following report of the activities of the Hampton Fire Department for 1974.

1969	370	\$94,000.00
1970	371	45,000.00
1971	418	18,898.00
1972	415	138,133.00
1973	482	45,501.00
1974	490	348,147.85

FIRE PREVENTION

The Fire Prevention activities for 1974 have suffered from the problems encountered by the delay in the appointment of a full-time Fire Prevention Officer. Barry Norris was appointed full-time Fire Prevention Officer in June and left the Department 3 months later to take the position of Deputy Fire Chief at the Laconia Fire Department. The position was filled in December by the appointment of David F. Collins, a professional Fire Inspector.

A minimum number of inspections were conducted on schools, places of public assembly, and other mercantile occupancies. The week-end night foot patrol was

continued during the summer season in the resort area. Continued cooperation and coordination between the Fire Department and the Building Inspector's Office resulted in site plans and new construction specifications being reviewed for compliance with the State Laws and Local Ordinances.

A liaison was maintained between the Hampton Police Department and the State Fire Marshall's Office in the investigation of the rash of suspicious fires which has plagued the Town during the past year. This effort cumulated in the arrest and indictment of a suspect.

APPARATUS MAINTENANCE

Personnel of the Fire Department are presently maintaining apparatus and equipment valued in excess of \$180,000, which is owned by the Town of Hampton and the Hampton Beach Village District. Responsibility of maintaining and repairing our heavy equipment is under the direction of Captain Howard Stickney. A total of 1200 hours has been recorded this year for labor required for State Inspection, oil and fuel filter replacement, oil changes, tune-ups, minor and major repairs.

REPORT OF AMBULANCE SERVICE

The end of 1974 marks the closing of the second full year of the Emergency Medical Services within the Fire Department. During the year the Department's two emergency ambulances logged a total of 554 calls. Calls are summarized as follows:

In-Town Calls	532
Out-of-Town Calls	13
Calls to I-95	9
Highway Accident	80
Residential Calls	270
Other	194

False Calls	1
Walk-in Transported	9
Exeter Hospital	388
Portsmouth	17
Naval Hospital	5
Anna Jacques	4
No Transport	126
Taken to Fire Station First-Aid Room	7

Also not included in the above narrative, were 104 Walk-ins treated at the First Aid Center at Fire Headquarters.

The highlight of the ambulance service for 1974, was the approval by the voters of the purchase of a second emergency ambulance vehicle to provide a second unit for the busy summer season and a backup vehicle, should the primary ambulance require maintenance or repair. This second vehicle is fully equipped and licensed by the State of New Hampshire Emergency Medical Services as a Class One Emergency ambulance, as is our primary vehicle.

An 81-hour Emergency Medical Technician course was taught by the Fire Department Training Officer, Lt. William Sullivan, in the Spring of 1974, at Fire Headquarters. Five members of the Hampton Fire Department, along with 28 other ambulance attendants from Rye, Seabrook, Portsmouth, Newmarket, and Kingston, were graduated from this course, giving the Fire Department a total of 15 EMTs out of a total of 30 licensed attendants. Also this past summer saw an ambulance stationed at the Academy Avenue Fire Station during certain days of the week and heavy case-load periods. We were able to initiate this program only on certain days when the number of men of duty allowed us to do so.

Also during the summer months, on-duty personnel rebuilt an old storage room at the Beach Station into a full-equipped emergency First Aid center for the treatment of minor injuries incurred by the influx of tourists

on the Beach. This room was utilized time after time to treat walk-in victims.

Members of the Fire Department volunteered many hours working with the Staff of the Exeter Hospital Emergency room to become more proficient in their duties. This program has been very successful and we would like to thank the Staff at the Exeter Hospital for their time and patience, which they willingly gave to improve the level of medical service rendered in the field.

As a matter of interest, a study was made of a number of emergency calls answered by the Hampton Fire Department Ambulance during the year 1974. This study showed that on an average, an ambulance with a crew of at least two men was responding within 20 seconds from the receipt of the call, was at the scene of the emergency within 4 minutes and delivery of the patient at an area hospital, within 21 minutes.

TRAINING OFFICER

During the year 1974, the permanent firefighters received some 1800 manhours of inservice training.

In addition to the company training program, the following schools or noteworthy items were part of the yearly training activities:

Procedures adopted on 'Large Diameter Hose' and 'Breathing Apparatus' as published by the State Fire Service Training Division, Voc-Tech Education.

A procedure on the operation of the Fire-Police Rescue boat was promulgated and disbursed to the members of the Department.

A Fire investigation program was purchased from the National Fire Protection Association and all permanent members of the Department and several call firefighters were instructed in this phase of their responsibilities.

A leadership school was held in the Spring, attended

by all company Officers and given by Barry Bush, Supervisor of State Fire Service Training.

A written and oral examination was composed and given to eligible members of the call force for the position of "Call Fire Lieutenant". Upon successful completion of the examination process, Bernard Robertson was promoted to that position.

A two-day "Fire Command" seminar was held in June at the Southern Maine Voc-Tech School in South Portland and was attended by Captain Stickney and Lieutenant Sullivan.

A Red Cross refresher course was given during the year for 9 men whose Red Cross card expired in the Fall of this year.

Two new power saws were purchased by the Department during the year and all the men received training on these two power tools before they were put into service.

Several procedures were updated during the year as building modifications were made, sprinkler systems changed, new construction was completed that might require special consideration regarding firefighting or responses to alarms were changed.

The training division continued work on their 35mm slide program, which they hope to have completed during 1975. This involves placing many of our tactical operations on colored slides for drill schools.

Several men were guests of the Seabrook Fire Department on the 16th of December for a school on handling of Liquified Propane Gas during an emergency situation. This class was held at the Seabrook Fire Station and was worthwhile.

FIRE ALARM

The Fire Alarm system continues to be maintained in good condition by the members of the Fire Department.

The major accomplishments in 1974 were as follows:

10 Obsolete boxes replaced

12 Boxes rebuilt
2 New Master boxes located on private property,
connected to the system
A new box installed at the corner of Bon Air Avenue
and Shirley Terrace. This box was donated by a
citizen
6 New Box lights were intalled
18 Pole changes were made
All boxes were tested twice during the year and
there were four trouble situations caused by open or
grounded wires

CHIEF'S REPORT

Chief Paul G. Long resigned from the Hampton Fire Department to accept a position as Chief of the Durham-UNH Fire Department. This resignation became effective June 1, 1974.

Fire Prevention Officer Barry Norris and Firefighter James Oliver left the Department in September to seek positions with other Fire Departments.

Mrs. Sylvia Moulton was appointed to the position as Dispatcher-Clerk Typist in May. This appointment fulfills a valuable position in the Fire Department and will result in the increased administrative efficiency with-in the Department

Call Firefighters Robert Regan and William Welsh were appointed as Permanent Firefighters to fill two of the existing vacancies.

The Department has been plagued by a rash of fires of suspicious origin in the Surfside Park area. As a result of an investigation by the Hampton Police Department and State Fire Marshall's Office, assisted by the Fire Prevention Officer, a suspect was arrested and indicted.

A series of serious structural fires, including a 3-alarm fire at the Tides Hotel on Ocean Blvd., and a 2-alarm fire in an apartment on Highland Avenue, has resulted in the highest recorded fire loss in many years.

I would like to extend my sincere appreciation to the neighboring towns, who are a part of our Mutual Aid system, who responded into the Town of Hampton to assist us at our more serious fires.

The most rewarding occurrence of the year was the reclassification of the Fire Insurance rates in the Town of Hampton from Class 6 to Class 5. This is the cumulation of many years effort to improve the fire protection facilities in the Town of Hampton.

I wish to express my thanks to the members of the Hampton Police Dept. and the Public Works Division for their valuable assistance rendered to us throughout the year.

Respectfully submitted,

Robert W. Fitz,
Acting Chief

PUBLIC WORKS

Expenditure: \$717,382.66

Personnel: Regular 29
Part Time 24

Your Public Works Department consists of four (4) major sections: Waste Water Treatment Plant; Solid Waste Disposal; Maintenance Inspection - Quality Control and Highway Maintenance and Construction

WASTE WATER TREATMENT PLANT

In 1974 we processed 417,732,000 million gallons of wastewater of which 559.4 Tons was solid waste (sludge). Our average daily flow was 1,144,000 million gallons. Included in this flow is 772,800 thousand gallons of septic tank system sludge.

Regular and preventative maintenance was performed on all plant equipment and our eight (8) pump and lift stations.

SOLID WASTE DISPOSAL

Solid waste disposal (rubbish collection) is one of the most demanding jobs of the Public Works Department, and presents substantial difficulties in keeping men willing to undertake this type of work. Although the statement may seem to be repetitious in that I include it in my report each year, I will continue to do so as long as it is a fact.

Solid waste is continuing to increase, below is a seven (7) year comparison of compacted cubic yards of rubbish collected:

1968 - 33,124	1972 - 45,854
1969 - 35,246	1973 - 47,428
1970 - 37,180	1974 - 49,716
1971 - 42,171	

Your Town Dump is continuing to be operated in a manner that has been a credit to our community, reducing the nuisance factor almost completely. We will strive

to continue in this manner. This year we purchased \$14,-926.63 of gravel to cover the dump.

MAINTENANCE INSPECTION AND QUALITY CONTROL

As most of you are well aware from driving on Lafayette Road last year, we have completed the construction of our sanitary sewer and plan to resurface the road in the spring of 1975.

There were sixty-five (65) sewer entrances into the Town sewerage system this year requiring one or more inspections. In addition 107 sewer mains or laterals were located for contractors, water, gas or telephone companies.

There were three (3) new manholes built and seventeen (17) repaired during the year. We also installed ten (10) new house laterals and relaid nine (9) others.

In 1974 we flushed 40,292 feet of sewer mains both at the beach and uptown, we also cleaned 3,502 feet of main with our seweroder. This seweroder was purchased late in 1974. We are starting a regular program of cleaning our sewers in 1975.

This section is responsible for the inspection of all sewerage lines in the town. They are responsible to respond on a 24-hour basis to all unusual conditions surrounding sewer problems.

HIGHWAY MAINTENANCE & CONSTRUCTION

Road Maintenance routine every day work accounts for 80% of our working time, i.e. beach cleaning, road maintenance, care of 7 parks, 5 intersections, including Tuck Field, sidewalk maintenance, guard rail and fence repair, line painting, operating the Town dump, street sweeping, hand sweeping of intersections, trimming of roadside brush and bushes, cleaning and repair of catchbasins and drains, maintenance of Town equipment, snowplowing and removal, trim and cutting back on Town lines, maintenance of Town buildings, septic systems, driveways, utility trench excavation, inspections, etc.

This year the sidewalk from the Hampton Cooperative Bank to Dearborn Avenue was reconstructed. The 24" drain in Tuck Field from the Little League Field to the Center School was completed. We also constructed six (6) french drains on the south side of the river (Seabrook Beach, Hampton). In addition we constructed one (1) french drain on Concord Avenue and one (1) on Epping Avenue.

The following roads were reconstructed this year, 550 feet section of Drakeside Road, 2300 feet of Little River Road, 1600 feet of Brown Avenue, 235 feet of Gill Street, 890 feet of Auburn Avenue and extension, 3500 feet of Winnacunnet Road, and 680 feet Gentian Road.

The following roads were resurfaced in 1974:

Locke Road	1,650 feet
Exeter Road	13,000 feet
Portsmouth Avenue	245 feet
Thornton Avenue	480 feet
Campton Avenue	1,190 feet
Ocean Drive	705 feet
Woodstock Street	780 feet

Again, as always, street signs and traffic control signs have been a large problem, over two hundred (200) were replaced in 1974, all mostly due to malicious vandalism.

Public Works Department records show that the town received 38 inches of snow last winter requiring removal effort by the town. The Department supplements their five pieces of snow removal equipment with an average of 12 contracted or hired pieces. The total cost of hired equipment last winter was \$7,092.50. The remaining monies from our hired equipment account (\$10,110.20) was returned to the General Fund as surplus.

This department will continue to the best of our ability to accomplish that which is requested of us, always keeping in mind that which is in the best interests of our Town.

Respectfully submitted,
George F. Hardardt, Director
Public Works

**1974 Annual Town Meeting
Hampton, New Hampshire
Winnacunnet High School Auditorium
Saturday, March 9, 1974
10:05 a.m.**

Moderator: H. Alfred Casassa

Moderator Casassa declared a quorum being present and declared the second session of the 1974 Annual Town Meeting open. Action on Tuesday March 5, 1974 Articles #1 and #20 through #37 were voted by ballot.

George F. Hardardt, Chaplain, Hampton American Legion Post #35 led the Meeting in prayer and Pledge of Allegiance to the Flag.

Article #2 — Moderator: This will be voted with a YES/NO Ballot and the polls will be kept open for two hours. POLLS OPENED at 10:20 a.m. for two hours. Article voted: YES - 231 NO - 45; total cast - 276.

Article #3 — Question moved by Fred White; seconded by Robert Bridle, voted by hand vote, Article passed.

Article #4 — Question moved by Fred White. Seconded by Frank Fitzgerald. Peter Randall; I would like to amend after the words . . . with reserve "with the exception that all tidal and fresh water acquired through Tax Deeds be kept by the Town and placed under the jurisdiction of the Conservation Commission." Amendment seconded by Ednapearl Parr. Amendment voted and passed. Article voted as amended, and Article passed.

Article #5 — Robert Lemire; I hereby move that the Town accept the budget as submitted by the Municipal Budget Committee and further raise and appropriate the sum of \$2,182,059.

Mr. Wilson: The secretary in the Town Office is the only one that does not receive a raise. I would like to make an amendment to enable the secretary to receive a

Public Works Dept. from \$75,000 to \$40,000. Amendment moved by Mr. R. Bridle, seconded by Mr. P. Nersesian, voted by hand. AMENDMENT PASSED. Article #6 Moved by Mr. F. White, seconded by Mrs. Fitzgerald, voted by hand. ARTICLE #6, AS AMENDED, PASSED.

Article #7 — Mr. Peter Randall: I move and amend Article #7 to read, \$26,250. This will be matched with a like amount of BOR funds to make the total cost of this package to be \$52,500. Amendments seconded by Mrs. Palmer. (Discussion) Amendment moved by Mr. Stebbins, seconded by Mrs. Palmer. Voted by hand; Amendment failed. Article #7 moved by Mr. Randall, seconded by Mrs. Palmer. Voted by hand; Article #7 failed.

Article #8 — The article was moved by Mr. Laurence Cullen, Seconded by A. Stephen Peiker, Voted by hand. Article #8 passed.

Article #9 — Discussion by Messers. Norton, White, Fallon, Atty. Donovan and Mrs. Hayden. Mr. White made amendment to reduce the number five (5) in this article to four (4) because #5 has not been ratified and confirmed. Amendment failed. Article #9 moved by Mr. White, seconded by Mrs. Hayden, voted by hand; Article #9 passed as presented.

Article #10 — Discussion by Messers. Fallon, Fitzgerald, White, R. Lessard, Peiker, Stoney, Stebbins, Atty. Donovan and Mrs. Hayden. Article #10 moved by R. Lessard, seconded by P. Nersessian. Voted by hand; Article #10 failed.

Article #11 — Discussion by Messers. Nersessian, R. Lessard, Cunningham and Lombardi. Article moved by R. Lessard, seconded by K. Malcolm. Voted by hand; Article #11 passed.

Article #12 — Discussion by P. Lombardi. Amendment by Mr. Salvatore. "If this land is to be abandoned to the abutting property owners that the abutters assume all legal costs that may be involved." Amendment seconded, voted by hand; Amendment passed. Article #12 moved by C. Bragg, seconded by P. Long. Voted by hand; Article #12 passed as amended.

Article #13 — Discussion by Messers. Norton, R.

cost of living increase; to increase the operating budget by \$576 to allow for this. Amendment seconded by Mr. Berrett, question moved by Mr. Maloney, Voted by hand vote, AMENDMENT FAILED.

Mr. G. Pickering: I would like to make a motion to amend Article #5, substituting for the present total the figure of \$2,182,529. . This increase would be to put a 12% raise in the Recreation salaries. Question moved by Mr. P. Nersesian; seconded by Mr. Smith, Voted by hand. AMENDMENT FAILED.

Mrs. K. Melody Dahl: I move that account #400 Public Assist., be increased by \$1,000. for the purpose of appropriating \$4,000 for the Seacoast Regional Counseling Center. Question moved by Mr. P. Nersesian, seconded by Mr. Wilson, Voted by hand, AMENDMENT FAILED.

Mrs. Louisa Woodman: I would like to make an amendment to Article #5 to increase the budget by \$1,500, to return to Hampton Falls a portion of the funds paid by that Town for Emergency Ambulance service in the past year. Question moved by Mr. Wilson, seconded by Mr. Moody, voted by hand. AMENDMENT FAILED. .

Mr. Robert Wilson: I would like to amend Article #5, the Canine Control account, to read \$6,002, effecting a decrease of \$325, the sum of which has been allocated for Town support of a privately owned police dog. Amendment seconded by Mrs. Olney, voted by hand. AMENDMENT FAILED.

Mrs. Dahl: I would like to request a hand count on my previous amendment. Recount by hand, Voted YES - 99 NO - 106. recount showed amendment failed.

Mr. Robert Lemire, I move the Town accept the Budget as presented by the Budget Committee. Seconded by Mr. R. Bridle, voted by hand, Article #5 PASSED AS RECOMMENDED.

Article #6 — Mr. Glen Eastman: I would like to amend Article #6 and that would be to reduce this from \$290,000 to \$185,000, by reducing the amounts put into the operating budgets of the Police Dept. from \$75,000 to \$40,000; the Fire Dept. from \$75,000 to \$40,000 and

Lessard, P. Nersession, K. Malcolm, McEachern and Miss Stimson. Amendment by Mr. McEachern "that the Town Manager be empowered to do something about the mosquito situation this year." Seconded by Mr. Labonte. Amendment not allowed by the Moderator. Further discussion by Messers. Hardardt, White, Smith, Peiker, Buffam, Mrs. Hayden, Stimson, Dahl, Fitzgerald & Russell. Article #13 moved by P. Randall seconded by K. Malcolm. Meeting adjourned for casting of ballot. Article #13 passed. Vote: Yes - 156 No - 37.

Article #14 — Discussion by Mr. F. White. Article moved by Mr. White, seconded by A. Norton. Voted by hand. Article #14 PASSED BY MAJORITY VOTE.

Article #15 — Discussion by Mr. F. White. Article moved by Mr. White, seconded by C. Bragg. Voted by hand. Article #15 PASSED BY MAJORITY VOTE.

Article #16 — Discussion by Mrs. Hayden, Philbrook, Messers. Paige, Lombardi, White, Hardardt. Article moved by Mr. Paige, seconded by Mrs. Philbrook. Voted by hand; Article #16 PASSED BY MAJORITY VOTE.

Article #17 — Mr. Hardardt made a motion to waive reading of the Article, seconded by Mrs. Lawrence, so voted. Discussion by Mrs. Hayden, Dahl, Russell, Stimson, Batchelder and Stiles, Messers. R. Lessard, Chief Bousquin, and others. Question moved by Mr. Lombardi, seconded by F. White, so voted. Article #17 VOTED TO POSTPONE INDEFINITELY.

Article #18 — Mr. R. Paige moved dispensing of reading the article. So voted. Article moved by Mr. Fred White, seconded by R. Lessard. Voted by hand: Article #18 PASSED BY MAJORITY VOTE.

Article #19 — Mr. R. Lessard moved that the article be indefinitely postponed. So voted. Article #19 INDEFINITELY POSTPONED.

Article #38 — OTHER BUSINESS.

#1.Mr. Lombardi: I move that the Board of Selectmen be authorized to appoint a citizen's advisory committee

to work with the Chief of Police on a bicycle ordinance and report back to this meeting next year.

Motion seconded and so voted by majority vote.

#2.Mrs. H. Hayden: As Vice Chairman of the Board of Selectmen I have the pleasant assignment of conveying our thanks to Mr. Fred White for his dedicated service during the many years he has served the Town of Hampton and in recognition of this service we wish to present him with this plaque.

Mr. F. White: Thank you very much. It has been a pleasure for me.

#3.Mr. Call: I would like to note here that the School Board has reorganized and as outgoing Chairman I would like to thank the Town of Hampton for voting as it did on the Revenue Sharing article. The cooperation of the Board of Selectmen is very much appreciated.

#4.Moderator Casassa: Forty years ago the late John Perkins came to the Town of Hampton. He was a Judge for over thirty-five years and he served the Town in many capacities. In recognition of his passing I would like to call for a moment of silence. I would like also to make the motion that we prepare a resolution to be made a part of the permanent record and to be presented to his widow.

#5.Moderator Casassa: I received a letter from Governor Thomson dated February 28, 1974 requesting that an opinion poll on the oil refinery issue be taken at our Annual Town Meeting. In view of the overwhelming votes this week against the oil refinery, I feel this isn't really necessary.

Mr. Loughlin: I need a little instruction on this. I think for the matter of the record that the Governor's request should be voted on. I intend to make a motion to find out the feelings towards a refinery in New Hampshire and the feelings towards a refinery in

Hampton. I think the Town of Hampton should go on record to see if they would be in favor of an oil refinery in Hampton providing it meets all of the safety requirements.

Mr. Pickering: With the few people left here, this would not be a fair sampling of the people.

Mrs. Parr: Nothing we vote here tonight would have anything to do with being final or binding.

Mr. Dineen: We could go on percentages and I believe we should have our say. I would like to have a vote.

Mr. Peiker: 1300 people came out in Durham to vote on this and 90% of the votes cast were against the refinery. Only 10% were in favor and he wasn't at all impressed by that vote. I object to seeing this Town used by the Governor.

Vote taken: How many people would be in favor of an oil refinery in the Town of Hampton?

Voted: Opposed - 89/ In Favor - 2

Vote taken: How many people would be in favor of an off-shore loading area?

Voted: Opposed - 85 / In Favor - 9

#6.Mr. V. Lessard: I would like to look into the possibility to see if Batchelder Park could be turned over to the Town of Hampton.

Mr. P. Nersessian: There is a stipulation in the deed that states that if the school district does not use this property then it must be turned back to the Kiwanis.

#7.Mrs. H. Hayden: I think we would be remiss if we did not express our thanks to the Budget Committee for all the time and hard work they gave in preparing the 1974 budget for presentation to the people. Thank you.

#8.Mrs. R. Stimson: I would like to make the following resolution to be included in next year's town report: Be it resolved that the 1974 Town Report include a detailed (one page) report to the citizens of the

yearly expenditures of the forthwith Hampton Municipal Development Authority which received about \$40,000. in public monies. Such a report is required by State Statute under House Bill 407 passed in 1973.

MOSQUITO CONTROL

The Ad Hoc Mosquito Control Committee herewith presents three alternative plans for your consideration in the hope that one of the plans will be chosen for inclusion in the 1975 Town Budget. We have reviewed N.H. RSA-437-A on the purpose of a Mosquito Control District: "For preserving and promoting the public health and welfare by providing for the control of mosquitoes. Permanent control of mosquitoes will be the primary aim," declares the statute.

Mosquitoes breed in stagnant water, fresh and salt. They go through four stages: egg, larva, pupa and adult. The first three take place in water while an adult is an active, flying insect. Only the female bites and feeds on the blood of man and animals. After feeding, the female usually lays her eggs on the stagnant water surface, or on the ground nearby where flooding may occur.

Briefly, there are three approaches to mosquito abatement:

1. **TEMPORARY MEASURES:** Insecticide application with a material with low toxicity for human beings and other mammals. The goal is to suppress the adult mosquito population between June through Labor Day when they're excessive, a nuisance in a town, and a potential public health problem. Spraying can be done with a mist blower, helicopter or plane. It's called **ADULTICIDING**. It should be noted that such aerial spraying or mist blowing with a chemical permitted by the N.H. Pesticides Control Board doesn't affect the reproduction ability of adult mosquitoes. They can still breed if not killed by the spray. So with Adulticiding the mosquito problem continues on and on.

PRE-HATCH SPRAYING OR DUSTING can also be done in late winter with a back pack in January through April. This can be followed by spraying for mosquito larvae on previously identified breeding areas. Spraying for mosquito larvae in April through August is to control the larvae so they don't develop into adults. This is called

LARVICIDING, and is preferable to Adulticiding. LARVICIDING is a start in tackling the cause of the mosquito nuisance rather than spraying everything whether a breeding site or not.

2. PERMANENT MEASURES: REDUCTION IN BREEDING SITES BY IMPROVED DRAINAGE

A. BREEDING SITE REDUCTION (or elimination) by OPENING OF PLUGGED, EXISTENT DITCHES IN THE SALT MARSHES.

B. IMPROVEMENT OF DRAINAGE IN STAGNANT PONDS (only if identified as mosquito breeding site)

C. OPENING OF DRAINAGE DITCHES AND CULVERTS (if plugged)

D. PRIVATE STOCKING OF FISH IN PONDS ON PRIVATE PROPERTY

3. RESEARCH is still in process on:

A. BIOLOGICAL CONTROLS - by using mosquito eating fish for larvae and pupae control in fresh water ponds. Surface feeding fish are needed. In salt water there are predators if the ditches were open. Mother Nature will help if given a chance, says Robert Spencer, Supt. of Essex County Mosquito Control Project.

B. JUVENILE HORMONES are chemicals that, when sprayed on mosquito larvae cause them to remain in the larval stage until they die. (No eggs)

C. ATTRACTANTS are chemicals that attract mosquitoes to a sticky trap, where they are immobilized and die.

D. TURBELLARIAN FLATWORMS that eat mosquito larvae are being studied by Ivan McDaniel, Entomologist at University of Maine.

E. BACTERIA, *Bacillus sphaericus*, that attack mosquito larvae are being studied by Dr. Samuel Singer of Western Illinois University.

All researchers need more time. So Hampton and other towns must consider No. 1 and 2 approaches to Mosquito Control.

HAMPTON MOSQUITO ABATEMENT ALTERNATIVES

PLAN A: Cost - \$3,000 (projected estimate)

\$2,500 for *Adulticide Spraying* as temporary measure that unfortunately doesn't tackle the cause of the problem. Between July 4 and Labor Day spraying could be done in residential and beach areas. A town-owned truck with operative, mist blowing equipment and public works department personnel could spray. A permit to use a specific chemical formulation would be needed from the N.H. Pesticides Control Board, Room 201, State House Annex, Concord, N.H. \$500 for labor, travel, dip net, collection jars, and topographic map of Hampton to start to locate and mark the mosquito breeding areas. This would be a start on a Permanent Measure. The results should be announced to the public.

PLAN B: Cost - \$6,000 (projected estimate)

\$2,500 for *Adulticide Spraying* (temporary measure)
- See Plan A for details.

\$3,400 for *Mosquito Breeding Area Survey and Map Identification* - after dip netting and larvae collection. The stagnant waters, fresh and salt should be numbered on the map. The findings should be publicized to both citizens and officials. The part-time job would be for an estimated 100 days at \$30 per day for labor and travel to complete the survey.

\$100 for *Consultant-Entomologist* - to advise the Ad Hoc Mosquito Control Committee on possible lines of procedure and priorities with available funds.

PLAN C: Cost - \$10,000 (projected estimate)

\$2,500 for *Adulticide Spraying* (temporary measure)
- See Plan A for details

\$1,000 for 1 *Part-time Supervisor and Materials*. Such a Supervisor should hold a N.H. Pesticides Applicator's License, and be qualified in Mosquito Entomology. A public information report will be necessary monthly during employment.

\$1,000 for *Back Pack Equipment and Labor and Materials* - for treating larvae breeding sites, fresh and salt, during January through April. Catch basins should

be treated also by permission of N.H. Pesticides Control Board in Concord, N.H.

\$2,100 for *Opening of Existent Salt Marsh Ditches* - by contracting for mechanized, wide track equipment. In Essex Co. in Massachusetts Bombardier equipment by Timberlane Machines, 10 N. Main St. in Lancaster, N.H. is used. Ditches will need maintenance on systematic basis in the future. About 11,000 feet can be done in a day in some terrains.

\$3,400 for *Mosquito Breeding Area Survey and Map Identification* - see Plan B above for details.

In view of the Hampton Mosquito Control Committee's findings we decided to offer the three preceding plans: A, B, and C for your consideration. We would also like to suggest:

1. The need for a Town Ordinance banning the discarding of old tires on the surface of the ground on private and public property as they are potential mosquito breeding sites.

2. The need for a Town Ordinance on Washing Machine Effluent Discharge (or Septic Tank) so as to avoid stagnant water on the surface of the ground and the mosquito breeding potential.

3. The need for a Town Ordinance in regard to Swimming Pool Drainage at the end of the summer season, October until June, to prevent mosquito breeding potential.

4. The need for the Board of Selectmen to request the N.H. Highway Department to reduce stagnant water areas caused by the Exeter-Hampton Expressway engineering, in the Town of Hampton.

The Mosquito Control Committee will try to keep up to date on any new developments. Two members attended the 1974 Northeastern Mosquito Control Association meeting in Bedford, N.H. on Oct. 29, 30, and 31. The area includes New York and New England. We saw the latest portable and large mechanized equipment, and heard national authorities on Mosquito Control, research, pesticides, application techniques, reports of experiences of other states, U.S.D.A. Environmental Protection Agency, beekeepers, and horse and dog owners concerned about encephalitis and heart worm.

PROPOSAL FOR HAMPTON, N.H.

YEAR AROUND MOSQUITO PROJECT ACTIVITIES (if desired and funded by voters)	CALENDAR YEAR											
	J	F	M	A	M	J	J	A	S	O	N	D
Identification and Mapping of Breeding Areas				✓	✓	✓						
Application for Pesticide Spraying Permit				✓								
Spraying for Adult Mosquitoes(mist)						✓						
Larviciding and Adulticiding of Catch Basins					✓	✓		✓				
Culvert Inspections and Obstruction Removal			✓	✓	✓			✓	✓	✓	✓	✓
Preparation for next year's program				✓		✓		✓	✓	✓		
Opening of existent ditches with Wide Track equipment				✓	✓			✓	✓	✓	✓	✓
Equipment overhaul and servicing	✓	✓										
Pre-hatch dust application by back pack	✓	✓		✓								

The effect of Plan C (\$10,000 estimate) on the tax rate would be \$0.10. Our Committee will try to further public education efforts to understand the importance of permanent measures versus temporary when public money is involved.

Helen W. Hayden, Selectman
 Kenneth W. Malcolm
 Ruth G. Stimson, Chr.
 Ad Hoc Hampton Mosquito Control Committee

LANE MEMORIAL LIBRARY REPORT

Economy through cooperative efforts continues to be the key factor in library policy for 1974-1975. This is the only way in which we can stretch our library dollar to continue present services. It does not leave any margin for the inauguration of new services, and it does mean that book and other media purchases will be somewhat curtailed. It is not news to any consumer that prices are higher. This is true in library purchases also...paper being the prime item. Books sometimes have increased twice in price from time of order to date of delivery. Periodicals are up approximately 25%. This increased cost of operating is occurring at a time when librarians are experiencing a new trend in the use of the public library. The public demand for good non-fiction is outstripping its request for inexpensive (\$6.95) fiction. Today's library patron wants to be informed, not entertained. The fiction that is most in demand is of the \$10.95 + variety. This same trend extends to the reference room facilities, in that use has greatly enlarged both in numbers and in the scope of materials requested. Every cent of our media budget plus the fine money is essential to maintain our present standards in our children's books, fiction, non-fiction, reference and large-print books; plus periodicals adult films, filmstrips, art prints, cassettes, and records.

Cooperative efforts to stretch our library dollar include the continued administration of the Lane Memorial Book Cooperative which this year includes Hampton, North Hampton, South Hampton, Hampton Falls, Rye, Kensington, Stratham and Epping. We pool our orders which are then shipped to the Lane Library for distribution with a 37% postage-free discount. We continue to direct order from two publishers for an even better discount on their publications. We continue to administer the Lane Memorial Film Cooperative whereby we pool and share purchases to greater increase our resources for film programs. This venture includes the towns of

Hampton, North Hampton, Rye, Stratham, Epping, Wilton, Bedford, and the I.M.C. at Hampton which includes the schools in Union #21. The librarians of Bedford, Hampton and Rye pooled their orders on framed art prints delivered to one destination thereby obtaining a bonus print and free freight. In 1974 we became a part of Project Aesop, a Federally funded project administered by Mrs. Frances Wiggin of the Bedford Public Library. This project included a grant of \$8000 for the purchase of audio-visual equipment, 16 mm films and filmstrips at the pre-school level for the use of the libraries in Bedford, Amherst, Milford, Wilton, Brookline, Candia, Hampton, North Hampton, South Hampton, Hampton Falls, Rye, Kensington, and Stratham. The libraries at Bedford and Hampton serve as storage depots and distribution centers for materials. These are efforts instigated by local librarians for the sole purpose of squeezing the maximum benefit out of the library dollar.

At the State level there is the Library Development System of which we are a duly qualified member, devised to offer better library services across the state. Through this system we borrow films from the film cooperative of Maine, N.H. and Vermont, known as North Country Libraries. We utilize the facilities of the Bookmobile from the N.H. State Library District Office in Exeter, and the services of Mrs. Judith Kimball, Bookmobile Supervisor, and Mrs. Rachel Sanborn, District Consultant. We issue statewide library cards for qualifying patrons to use in other libraries throughout the state and we honor the statewide card presented by out-of-towns patrons. We utilize interlibrary loan and the service center system. The theory of this system is that small libraries such as Hampton would purchase both popular and reference materials of a general nature and geared to volume requests in a subject area. Service centers would purchase more specialized and in-depth materials which patrons of a smaller library could use with a statewide card. Beyond this point there is the State Library and its excellent reference service augmented by a system of interlibrary loan with the ma-

for city and college libraries. No library the size of Hampton could ever hope to have all the materials that patrons might request on its shelves; but we do belong to a system which permits access to those materials for our patrons.

As librarian, I wish to express the appreciation of the trustees and staff to those individuals and organizations who have donated materials and periodical subscriptions to our collection; to the Ocean-side Grange for their annual gift in honor of Mrs. Margaret Noyes; to the Hampton Mother's Club for its gift of money for purchase of spoken word materials, and to the Hampton Garden Club for their floral contributions. A very special note of appreciation is due Mrs. Shela Snow and the Friends of the Library organization for all of their gifts of time and money to the library operation. They have the reputation of being one of the most active groups in the state of N.H.; and are certainly a credit to Hampton.

RECREATION DEPARTMENT

Recreation is a powerful and greatly needed force that is used by many people in today's society. This is created by a great increase in the amount of leisure time resulting from shorter working hours, automation, faster tempo and complexity of daily living, the lengthened life span and earlier retirement, and the ever-increasing free time for youths. This situation has created a challenging scene wherein recreation programs and facilities are becoming more essential in our daily lives.

Your Recreation Department will strive to meet this ever-increasing challenge to provide the most complete programs, activities, and facilities and at the least possible cost to the taxpayers. During 1974, all four seasons contained many programs and special events that were met with a tremendous response from the public.

Probably the most popular activities in 1974 were the tennis and fall swimming programs. Tennis for the second straight year seems to have been the most popular activity with over 500 people taking part in organized lessons, indoors and out. This was the first summer of monitored tennis courts at Tuck Field to provide Hampton resident priority. Also, the fourth tennis court was completed this past spring. Even with these innovations, the town will need additional tennis courts in the very near future due to the large tennis boom. The standard of population per tennis court in a municipality states that Hampton should have 10 courts to adequately meet community needs. There were also 80 entries in the annual single tournament in August. The fall swimming program was a family program consisting of all age groups and was also very popular.

As usual, the summer programs were met with great response. The playground program is run for an 8 week period, Monday thru Friday, from 9:00 a.m. to 4:30 p.m. In 1974 there were 432 children - an increase of 132 over 1973. Along with the daily activities such as softball and

tennis, there were many other activities such as Arts and Crafts, Pet show, Music, Peanut hunt, Bike rodeo, Little red wagon, Junior olympics, and field trips to Red Sox games, Canobie Lake Park, Benson's Animal Farm, Boston Sea Aquarium, and Kingston State Park. Other summer programs were guitar lessons, sewing classes, softball, sailing classes, and a gymnastic program for Junior High Schoolers from Monday through Friday in which 60 students participated.

Two special programs which were expanded in 1974 were the annual Halloween program and the Easter Egg Hunt. The Halloween program consisted of a Horribles Parade, costume judging party, cartoons, and a window painting contest. There were 55 participants in the window painting as compared to 18 in 1973. The Easter Hunt was also expanded in 1974, as over 500 pre-school and elementary students participated.

Other programs sponsored by the Recreation Department in 1974 were: Dance Classes, Arts and Crafts for students, Guitar Lessons for students and adults, Sewing classes, Yoga classes for students and adults, Flag football for boys, Intramural Field Hockey for girls, Gym Hockey for boys, Intramural Basketball for girls and boys, Volleyball for adults and students, Gymnastics, Baton lessons, Men's Basketball League, Physical Fitness Classes for adults and students, Swimming Program for all citizens, First Aid Classes, Movies, Vacation Programs for students, Table Tennis Club, Gym Hockey, Magic and Puppet Shows, Creative writing, B-B Gun Safety Course and competition, Men's and Women's Golf Lessons, Archery Club for students, and Senior Citizens Activities (which includes club meetings, trips, special events, bowling, educational classes, and the federally funded Crafts-Reation Program).

However, for Hampton to continue its well-rounded varied program, help is needed in two very important aspects: volunteer service and land facilities. With an increase in programs, many more volunteers are needed to fill the increasing number of leadership roles. Any and

all volunteers with skills in various fields are greatly needed. Hampton is also lacking in recreational park space. At this time, the accepted standard ratio of recreation space per population is 1 acre / 100 people. This figure assumes and already takes into account school properties. Thus, Hampton, with a population of approximately 10,000 should have 100 acres of recreational space to adequately meet the population needs. At the present time, we have approximately only 20 acres of recreational park space! If expansion of this gross deficiency is to be done, it must be started now before all the land is utilized for residential and commercial purposes. This expansion is mostly needed in the western section of town where very little park space exists.

As before, I would like to thank the many civic organizations, Educators, Town Departments, Business establishments and individuals for their help and support.

Respectfully submitted,
Neal R. Socha
Recreation Director

AMERICAN REVOLUTION BICENTENNIAL CELEBRATION COMMITTEE OF HAMPTON

Your Committee was moderately active during this the first year of the Bicentennial Era. The year 1974 started with the Board of Selectmen, attired in Colonial dress, reaffirming the Tea Act Resolves originally drafted and adopted by the freemen of Hampton in January and February 1774, the weeks following the "Boston Tea Party." The framed and "sealed" Resolves proclamation was placed on display in the Lane Memorial Library through the summer. The copy now hangs, together with a photo of the signing ceremony, in the Town Office.

For the Fort William & Mary raids parade in New Castle in October, the Committee sponsored a float consisting of the Selectmen recreating their Resolves signing ceremony. That all-day celebration on October 12 commemorated the 200th anniversary of the first overt military act of the Revolution - the Patriots' gunpowder raids on the King's fortress - and the precipitative event: Paul Revere's ride to Portsmouth (through Hampton) the previous day. Also to commemorate those events, the Committee issued a souvenir bottle with the town seal on the second side. The very successful bottle was limited to 211 copies (plus three retained for archival use by the manufacturer, Clevenger Brothers Glass Works of southern N.J.) They were purchased by persons in the three-state area on a first come, first served basis.

Additionally, the Fort William & Mary-Paul Revere design was recreated on a pewter wall plaque, the third design in our annual series of at least five designs. The three designs, together with a medallion with the Committee's logo (featuring the town seal) and a pewter plate with the N.H. Marine Memorial at the Beach, are on display at the Town Office, 136 Winnacunnet Rd., and King's Jewelry Store, 21 High St. Order forms for these Hampton-related items are available at both locations.

The Committee became active in the regional Old

Norfolk County Bi-State Bicentennial Confederation which is formed of representatives from local groups in a dozen N.H.-Mass. border communities once (in the 1600s) under the political jurisdiction of the Massachusetts Bay Colony's Norfolk County. The group meets informally to exchange information and ideas on Bicentennial activities. The Hampton Committee hosted the September meeting at Winnacunnet High School. A joint celebration event may come out of those meetings.

In July the Huddersfield, England, Youth Brass Ensemble gave concerts at the Sea Shell. The event was co-sponsored by the City of Manchester Bicentennial Committee.

During 1974 the Committee voted to purchase Bicentennial posters and copies of the N.H.A.R.B.C. Fort William & Mary historic booklet for distribution to the Lane Library, the school libraries and one of the local historical societies. We also answered historical queries received from N.H. and out-of-state historians and writers. A display was set up at the adjourned annual town meeting in March. A transcript record of the town's 335th anniversary program of October 14, 1973, was placed in the town's records and a copy was forwarded to the Congregational Society. Individual members of the Committee continue to photographically record (color slides and pictures as well as 8 mm movies) our major events.

In addition to the commemorative type of events held or planned, the Committee hopes to have at least one event of celebration, a "Bicentennial Day" - perhaps a parade and Colonial ball for our nation's 200th birthday. Through searches of town records and cemeteries we also hope to permanently record the names of townsmen who served in the Revolution of the N.H. Line of the Continental Army. Similar listings are presently recorded in stone or metal for the Civil War, World Wars I and II and the Korean War at various locations in the center of town. The 174 townsmen (out of 176) who signed the 1776 Test Papers (supporting the American cause) may be similar-

ly listed in a prominent location (such as a Liberty, Bicentennial or Patriots' Park).

The Committee has already gained approval of the Selectmen to plant a Liberty Tree, funded by the Dunfey Family, at the developing park of the former Coast Guard Station site.

A unique elementary school booklet, "How Hampton Citizens Lived in Colonial Times," will be distributed to the Hampton middle-school grades in 1975. The Hampton School Board has voted to fund the publication in the District proposed budget for 1975-76. The highly illustrated booklet will be tied to actual Hampton residents (blacksmiths, ministers, merchants, etc.) who resided here at the time. It is being put together by Rosemary E. Bachelor, Machias, Me., a descendant of Rev. Stephen Bachiler, the Founding Father of Hampton.

Other proposed projects include: an ecumenical service; designating the older buildings by historical markers; becoming a Bicentennial Community through the Federal A.R.B.A.; marking the graves of Revolutionary War soldiers; issuing a second bottle, a plaque for 1975 (Lexington-Concord, Bunker Hill), and possibly a medal (Hampton-born Revolutionary leaders); designating a "Bicentennial" street, park or landmark; beautification; marking and putting in a walkway at the Bound Rock site; reprinting sections of Dow's "History of Hampton" which pertain to the Revolution.

When the Committee began its work, a public hearing was held to generate ideas from the citizenry. We have also asked for suggestions through press releases. We continue to seek ideas for appropriate Bicentennial projects. Several people have volunteered to work on such projects. Volunteers and those with further suggestions should contact any member of the Committee.

The Committee thanks town and school officials and all others who have assisted in the work of the Committee during the year. A special thanks to the news

media which has been especially helpful in getting information to the public.

Harold E. Fernald, Jr., Chairman
Arthur J. Moody, Vice Chairman
Rep. Edna pearl F. Parr, Clerk
Richard L. Montgomery, Treasurer
Margaret S. Lawrence, Historian

MEETING HOUSE GREEN MEMORIAL AND HISTORICAL ASSOCIATION INC.

Annual report to the town of Hampton:

The annual meeting of the Meeting House Green Memorial and Historical Association, Inc. (aka The Hampton Historical Society) was held on October 12, and the following officers were elected to serve:

President, Samuel A. Towle

Vice-President, Roland W. Paige

Recording Secretary, Gertrude F. Palmer

Treasurer, J. Wesley Caldwell

Historian, Diana LaMontagne

Corresponding Secretary, John M. Holman

Historian, Emeritus, Harold E. Fernald

The appointed members of the Executive Board consists of Stanwood S. Brown, Allen Knight, Connie Holman, Carrie Higgins and Susan Tremblay. John H. Holman was reappointed as Museum Curator.

Membership in the Association for 1974 consisted of 378 dues paying members, 18 life members and 6 honorary life members. Monthly meetings were held October through May at the Winnacunnet High School with the annual open house at the Tuck Memorial Museum held on the last Saturday evening in June from 7 to 9 p.m. with Terry Silver as Welcoming Hostess.

During the summer of 1974, the Tuck Museum was open every day from 1 to 4 p.m. during the months of July and August with 29 Museum Volunteer Aides on duty to assist the visitors. 1205 visitors toured the facility during these 2 months. Marion Freeman, the Custodian, was the Aide Coordinator.

The One-room district school house received a new ceiling and a partial interior paint job, through the generosity of Stan Brown, Sam Towle and J. Leavitt Harvey. Completion of the renovations are expected in 1975.

A Hampton Grist mill stone was donated and in-

stalled as a stepping stone to the entrance to the Museum by Homer Johnson. Assisting in the installation were Richard Cahoon and Bernard Dunbrack.

The "Separation of the Towns" map was repaired and moved to a location adjacent to the Museum entrance by Loring K. Mills. Miss Vicki St. Germain, an art student at W.H.S., completely hand-painted the map in colors with Lee Langley, art teacher, acting as an advisor to the project.

Publicity for the Tuck Museum was obtained through the cooperation of the local news-media and local radio stations, as well as through posters and brochures.

Donations to the Museum continue to be received by the Curator and are too numerous to mention here.

A display table from the Tuck Museum was set up at Fort William and Mary in New Castle on October 12 at part of their celebration. Attending the exhibit were Gertrude F. Palmer, Caroline Higgins and Allen Knight.

Samuel A. Towle, President

REPORT OF THE PLANNING BOARD

During the past year the Planning Board has been busy on a variety of fronts; reviewing site plans, consideration of land sub-divisions, reviewing the Ordinance and generally doing our best to live up to the spirit of the town's Zoning Ordinance: "to preserve and improve the attractiveness of the Town of Hampton as a resort community and to continue its desirability as a place in which to live and do business"

Last March the Town adopted an amendment to its Ordinance requiring detailed review of plans for all construction excepting single family residences. This program of review is now serving to protect the community from construction of projects which could, in the future, create added burdens in the areas of safety, public works and fire hazard.

The Planning Board has been working on review of the Ordinance and zoning map to better serve Hampton with the aim of coordinating this town's growth with the growth pressures being felt on the entire Rockingham County area.

For the first time the Board has added an additional Public Hearing in its schedule leading up to proposed changes in the Ordinance, hoping to hear greater response from the townspeople; a response which we can say has been gratefully received.

We on the Planning Board welcome citizen comment and hope that our efforts will lead towards the continuation of Hampton as one of the finest places in which to live, work and vacation.

Respectfully submitted,
HOWARD C. PAGE, Chairman

REPORT OF BICYCLE SAFETY COMMITTEE

After numerous meetings of the Bicycle Safety Committee, the following ideas prevailed:

1. That since the Board of Selectmen enacted an ordinance under RSA 250:19, effective June 17, 1974, we would eliminate any discussion on this.
2. That the majority of the special article that was defeated at the 1974 Town Meeting is already covered in the laws of New Hampshire and thereby enforceable.
3. That a study be made on the feasibility of having two bicycle racks installed in the center of Town. One was recommended to be placed in Marelli's Square and the second one installed near the High Street Parking Lot in the location of Palmer's Drug Store. This was included in the 1975 Budget Request, but the exact location as to their placement has not been determined as yet.

It was strongly felt that since the Police Department would be required to work with, and enforce, the Bicycle Licensing Ordinance, more attention will automatically be given to bicycle riders. Special attention will be given to the control of bicycles on the sidewalks in the center of Town and to those persons riding, during the hours of darkness, without the proper lighting equipment.

Special attention was to be given to the three and four-wheeled, self-propelled vehicles but, since the company that was responsible for the so-called, three-wheeled, PPV closed because of bankruptcy, we decided that we would see what this Summer would bring us. In the meantime, the Police Department will continue to work with the rental agencies in soliciting their cooperation.

Since we have already instituted bicycle safety talks in the local schools, we feel that this has had a good effect; however, the parents of these young people should participate in, and encourage as much as they can, the safe driving habits of their youngsters.

**HAMPTON BEACH VILLAGE DISTRICT
CERTIFICATE OF AUDIT**

This is to certify that I have examined and audited the accounts and records of the Hampton Beach Village District for the fiscal year ended December 31, 1974.

My examination was made in accordance with generally accepted auditing standard practices and, accordingly, included tests of the accounting records and other auditing procedures as were considered necessary in the circumstances.

In my opinion, the accompanying balance sheet and statements of sources of revenues and expenditures reflect fairly the financial position of the Hampton Beach Village District at December 31, 1974, and the results of its operation for the year then ended, in conformity with generally accepted accounting principles applicable to governmental entities, applied on a basis consistent with that of the preceding fiscal year.

Respectfully submitted,
FRANK A. BRIGGS
East Kingston, N.H.

DIVISION OF MUNICIPAL
ACCOUNTING
FREDERICK E. LAPLANTE
DIRECTOR

February 5, 1975

The Board of Selectmen
Town Office
136 Winnacunnet Road
Hampton, New Hampshire 03842

Attention: Mrs. Helen W. Hayden, Chairmen

Gentlemen:

In accordance with the vote of the Town, an audit and examination of the accounts and records of the Town of Hampton for the fiscal years ended December 31, 1972, and December 31, 1973, was recently made by this Division.

The auditors' report and findings are currently awaiting final review by the Director in keeping with our established policy. Consequently, we are unable to submit a report of this audit prior to the publication of the Town's 1974 annual report.

We regret the inconvenience which this may cause. However, we fully expect that our report will be finalized and forwarded to your Board on or before February 28th next.

Very truly yours,

Frederick E. Laplante
Frederick E. Laplante
Director
DIVISION OF MUNICIPAL ACCOUNTING
DEPARTMENT OF REVENUE ADMINISTRATION

HAMPTON MUNICIPAL DEVELOPMENT AUTHORITY AUDIT
(Marsh Reclamation Authority)

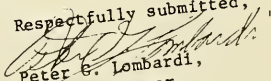

On May 22, 1973, the New Hampshire General Court adopted House Bill 407 entitled "An Act to Abolish The Town of Hampton Municipal Development Authority". Section 143:2 of the Act stated: "All funds received by The Town of Hampton Municipal Development Authority shall be accounted for and a written statement of account shall be rendered to the Selectmen not later than November 30, 1973. After deducting the costs of the accounting, the balance of said funds shall be transferred to the Treasury of The Town of Hampton."

My staff and I began the search for the books and financial records of the Authority as early as March of 1973 in anticipation of House Bill 407 being adopted by the General Court. Failing to locate any of the financial records in the Town Office I tried to locate members of the Authority. The task was not easy as the Authority had, for all practical purposes, been defunct by nearly eight years and some of the members had passed away and others had moved away. Those members that I was able to locate could not shed any light as to the whereabouts of the records.

The last audit of the Authority's books was conducted by the New Hampshire State Tax Commission for the fiscal year ended December 31, 1971. That audit and all of the previous audits did not indicate any irregularities.

After nearly a year of exhaustive research and following consultation with Town Counsel, I concluded that to continue the search any longer would be fruitless. Thereupon, I recommended to the Board of Selectmen that the Authority's checking account be immediately closed and the balance of funds be deposited into the General Fund of the Town. The Board concurred with my recommendation and on July 17, 1974 a check in the amount of \$1,066.37 was drawn against the account of the Authority and deposited into the Town's General Fund, officially closing the account of The Hampton Municipal Development Authority.

Respectfully submitted,

Peter G. Lombardi,
Town Manager
