Hampton Board of Selectmen 2001

Front: James A. Workman, Vice Chairman, William H. Sullivan, Chairman, Brian Warburton;
Back Row: Virginia B. Bridle, Bonnie B. Searle

⌘BOARD OF SELECTMEN ⌘

As the Chairman of the Board of Selectmen for the year 2001, it gives me a great deal of pleasure to present this report to you, the stockholders in the "corporation" known as the Town of Hampton, New Hampshire. That is exactly the way in which the company operates. You the voters go to the annual town meeting and tell us how you want the town to operate during the coming year. The Board of Selectmen then establish the policies and parameters and our very able Town Manager, his department heads and their employees carry out the task of providing a wide range of public service and public safety products to the town.

Perhaps the major issue to confront the board during the year 2001 was that of the state mandated education property tax which forces Hampton, along with many other so called "donor" towns, to send taxpayers dollars to the State of New Hampshire which are then distributed to other communities across the state that do not have the higher property values. We cannot do what was done wrong two hundred years ago when a similar situation occurred and that would be to dump tea in Hampton Harbor. But what we can do is to remain active in the Coalition of Communities fighting this unfair mandate and the Board believes that this represents the wishes of a majority of the residents of Hampton.

During 2001 we were able to lift the town-wide moratorium on new connections to the municipal wastewater collection system. This good news for some homeowners and developers was made possible by improvements made in the piping system and at the treatment plant over the past few years. One small section of the Kings Highway area is all that remains under a sewer moratorium. The Drakeside Road wastewater addition came to a conclusion when the town reached an agreement with the developer regarding the installation of a wastewater pipe in Drakeside Road and the expansion of the Hampton Woods development. This addition to the municipal system will not only benefit Hampton Woods, but also residents of Drakeside Road and possibly homeowners west of Interstate 95 in the future.

We suffered through a major winter storm on March 5th and 6th that deposited a total of 29" of snow on Hampton and another 10" a few days later. Thanks to our Department of Public Works, aided by local contractors, our streets were passable for public safety vehicles at all times and within 24 hours, all our roads were open to the motoring public. The Federal Emergency Management Agency reimbursed the town \$65,459 for snow removal costs.

After a thorough and exhaustive search by the staff, the missing town clock was located and is back within the confines of Hampton. This clock adorned the tower of the Odd Fellows building on Lafayette Road until a fire destroyed that structure ten years ago and is one of only a handful of similar clocks in existence.

The town and the Hampton Beach Village District set into motion negotiations to relieve the HBVD from it's responsibilities in the area of fire protection at Hampton Beach and place the fire department completely under the administration of the town, both in terms of budgetary and operational matters.

As required by law, the Boards of Selectmen from Hampton, Hampton Falls, Exeter and Seabrook visited their respective boundaries last winter and certified that monumentation did in fact exist marking those boundaries.

Thru the combined efforts of the Town of Hampton, the State of New Hampshire, and the Hampton Beach Area Chamber of Commerce and interested business people and citizens, the Cecil Group was hired to complete a "Master Plan" for the improvement and development of Hampton Beach. The committee, chaired by Selectman James Workman and the planners did an outstanding job of completing their task. This is not something that will occur overnight, but could be a benchmark for the beach in the future.

A longtime Hampton resident and businessman, Mr. Leo Pacheco donated to the town a 2.5 acre parcel of land off of Winnacunnet Road in memory of his late wife, Nancy Wright Pacheco. This generous gift was accepted by the town and will be kept as open space with possibly a picnic area or playground for the children.

On the weekend after Labor Day, another successful Seafood Festival was held at Hampton Beach. This annual event, which is sponsored by the Chamber of Commerce with the assistance of many businesses, organizations and volunteers, including the Town of Hampton, draws hundred of thousands of visitors each year and has become a cornerstone for activities in Hampton each year.

Unfortunately, two days after the Seafood Festival, on the morning of September 11th, everyone's life was affected and in some way changed forever by the events at the World Trade Center and the Pentagon. Please pray for the families of the 346 firefighters, the 78 police officers and the thousands of civilians who died in the worst terrorist attack ever to occur on United States soil. We will prevail!

To our town employees, thank you. To our boards, commissions and volunteers, thank you. And to the residents and voters of Hampton, thank you.

May God bless the United States of America.

Sincerely,

William H. Sullivan, Chairman
Board of Selectmen

Viewing the bound of Hampton/Exeter/Stratham during the perambulation on February 17, 2001.
L to R: Hampton Selectman Skip Sullivan, John Hangen, Hampton Public Works Director, John Brown,
Exeter Public Works Director, Hampton Selectman Jim Workman

⌘ TOWN MANAGER'S REPORT ⌘

It is impossible to speak of 2001 without thinking first of September 11. The sight of two airplanes being deliberately flown into the twin towers of the World Trade Center has become one of those defining moments in our history. It will be etched for a lifetime in the memories of every citizen who saw it and many others who will see it as a vivid reminder of the face of evil in the taking of thousands of innocent lives to serve a warped sense of religious fanaticism. It will also serve as a permanent reminder of heroism in the form of firefighters and police officers who rushed into the buildings to save lives, and lost their own in the process. Heroism was displayed in the lives of common citizens who took control of a hijacked airplane and saw to it that it crashed into the ground in rural Pennsylvania to avoid more serious damage to lives and property. And heroism continues to be shown in our military in their efforts to make a world a place safe from terrorism – a tall order in an unstable world. .

With so much in recent days to give us pause for reflection, it is sometimes difficult to remember the bright promise that saw in the year as it began in January with a Presidential election that wouldn't end.

After four successive mild winters, the winter of 2000 – 2001 reminded us of what it really means to be winter in New England. An abundance of snow and several weeks of below freezing temperatures added to the misery of rising heating fuel and electric costs. January was a busy month with preparations for the deliberative session and the longest Presidential Election in generations. Our vocabulary was enriched with such terms as pregnant and hanging chads, and citizens who had paid no attention to the Electoral College since high school civics were reminded that winning a majority of the popular vote meant nothing without the Electoral majority.

Just as winter was supposed to be ending, a 29-inch snowfall on March 5 & 6 shut down offices, businesses, and roads for two days and created a base for the ten additional inches that fell three days later. With overtime, materials, and contractors it was a \$100,000 snowfall.

Town Meeting of 2001 produced the lightest voter turnout since the adoption of the Official Ballot system, but the voters were generous on a light ballot, braving the snow banks a week after the storm. The voters rejected a proposed charter

for the town, but approved a second new fire truck in two years, funded improvements to the uptown fire station. They also voted funding for participation in Project Impact and a FEMA flood mitigation project.

Construction began on the long awaited Highland Avenue project to improve the approach to the beach. Route 1 construction was slowed by utility delays but got back on track in the fall. The police station that was delayed by legal action over the requirements for bonding was finally put back on track by a Supreme Court decision that upheld the 60% rule only to be delayed further with appeals to the federal court system. As this report is being prepared we are seeking banks that are willing to lend money on notes based on a legal opinion that the federal case will have no impact on the Town's project.

Winter ended abruptly in April with temperatures soaring to summer heat levels and one of the driest Aprils on record.

The Hampton Beach Master Plan committee worked through the summer with a fall completion and presentation to the Planning Board. The Planning Board approved and adopted the plan in November.

Deputy Fire Chief Tony Chouinard retired after 30 years with the fire department. In a reorganization of the department, two new deputies were named before the year ended. Steve Benotti became Deputy Chief for Operations, and Chris Silver became Deputy Chief of Safety and Training. In the spring, the new fire engine approved at the 2000 Town Meeting was delivered to the Town and a second new engine approved by the 2001 Town Meeting was placed on order for a spring 2002 delivery.

Spring and summer was personally busy for me. My older daughter married in April, and my younger daughter, who married last spring, presented me with a granddaughter in June.

The summer tourist season ended as it has for the past 10 years – with the crowds and excitement of the Seafood Festival. As an event that grows every year and attracts people from across the nation, it was again blessed with beautiful weather and happy people enjoying seafood, crafts, and the fine company of each other.

And then came September 11, 2001. The nation watched in horror as one of the World Trade Center twin towers burned from the results of an airplane crashing into it, only to witness a

second airliner deliberately attack the second tower. The Pentagon was next, and the nation knew that they were witnessing an attack upon our home soil.

In the aftermath of September 11, the stock market began a roller coaster ride. America experienced an awakening of patriotic pride. Flags appeared everywhere. The world drew together to support us in our time of tragedy. And America's military was called upon to defend not only our nation, but the security of freedom loving people around the world. As President Bush stated, "this is the first (and hopefully the only) war of the 21st Century." Next came anthrax and more uncertainty.

Through it all, the spirit of the American people rebounded and stood to prove the greatness of our nation that stems from the very

diversity that others seek to destroy. The times present us with the opportunity to build a future on the long-standing beliefs of our nation in freedom and equality, or the possibility to founder on the path of destruction and hatred that we as a nation are fighting to end.

Hampton continues to experience growth and an optimistic vision of the future. Plans to implement the new Hampton Beach Master Plan are beginning and private investment groups are expressing interest in the area. Yes, there are challenges that remain for us. There are questions of funding the state's education system that threaten to divide the state. There are questions of a weakening economy and uncertainty about homeland security. Through it all, we can find certainty in our faith and in our common desire for peace and prosperity.

My grace is sufficient for you
11 Corinthians 12:9

Respectfully,

James S. Barrington
Town Manager

**TOWN OF HAMPTON
ANNUAL TOWN MEETING
FEBRUARY 3, 2001
RESULTS OF BALLOTING
MARCH 13, 2001**

At 8:40 AM, Moderator Paul Lessard opened the February 3, 2001 First Session of the Hampton Town Meeting in the Winnacunnet High School Community Auditorium. Reverend Carroll Moore, Pastor of the United Methodist Church delivered the invocation. The Pledge of Allegiance was led by WWII Veteran William Pray and Cadet 2nd Lt. Jared Muraco of the Winnacunnet Marine JROTC. "America the Beautiful" was sung by four Hampton Academy Junior High Students, Maria Martinez, Edilia Martinez, Jennifer Lugo, and Christine Marti, accompanied on the piano by music teacher Sheila Nudd.

Mr. Lessard then introduced the following town officials: Chairman of the Budget Committee, James Tierney; Town Counsel, John McEachern; James Barrington, Town Manager; Administrative Assistant, Karen Anderson; Board of Selectmen; Brian C. Warburton, Chairman, William Sullivan, Selectman; Bonnie Searle, Selectman; Virginia Bridle, Selectman; Jim Workman, Selectman; Arleen Andreozzi, Town Clerk; Dawna Duhamel, Director of Accounting; Dyana Lassonde, Director of Parks and Recreation and Jennifer Kimball, Town Planner.

After the rules of this meeting were clearly outlined by the Moderator, Selectman Warburton moved to waive the reading of the warrant in its entirety. Seconded by James Barrington. The motion passed and Moderator Lessard stated he would read each article in its turn. Since articles two through ten are zoning articles and cannot be acted on at the First Session, it was voted to begin discussion with Article eleven. *(for the sake of consistency the articles are reported in numerical order)*

Hampton voters met on March 13, 2001 at Marston School to elect officers and to vote on all the articles. Moderator Lessard opened the polls at 7:00 AM and they closed at 8:00 PM. Arleen Andreozzi moved to waive the reading of the warrant. The motion was seconded by Dennis Kilroy and agreed to by all present. The number of voters at the polls was 2228 and the number of absentee votes counted was 381 making a total of 2608 votes cast at the election. The number of registered voters in Hampton is 13,327 making it a 19% voter turnout.

ARTICLE 1

To choose by non-partisan ballot: One (1) Selectmen for Three Years; One (1) Town Clerk for Three Years; One (1) Trustee of the Trust Funds for Three Years; One (1) Library Trustee for Three Years; One (1) Library Trustee for One Year; Two (2) Planning Board Members for Three Years; One (1) Cemetery Trustee for Three Years; Four (4) Municipal Budget Committee Members for Three Years; Two (2) Municipal Budget Committee Members for Two Years; One (1) Municipal Budget Committee Member for One Year; One (1) Zoning Board of Adjustment Member for Three Years.

ARTICLE 11

To see if the Town of Hampton will vote to raise and appropriate a sum not to exceed \$5,900,000 for the construction of a Police Facility on public property at Brown Avenue and all related activities necessary for said construction. Necessary funds to be raised through the issuance of bonds or notes in an amount not to exceed \$5,900,000 under and in compliance with provisions of the Municipal Finance Act pursuant to RSA Chapter 33, Municipal Finance Act, as amended; and to authorize the Board of Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other actions as may be necessary to effect the issuance, negotiations, sale, and delivery of such bonds or notes as shall be in the best interest of the Town of Hampton; and to simultaneously rescind any authority which may have been granted by Article 8 of the 2000 Town Meeting which gave a majority affirmative vote in excess of 3/5 but not in excess of 2/3. (3/5 vote required)

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Moved by Virginia Bridle

Seconded by William Sullivan

Police Chief William Wrenn moved to **substitute Article 11 with the following:**

To see if the Town of Hampton will vote to raise and appropriate an additional sum of \$900,000 to be combined with the prior approved bond (Article 8 of the 2000 Town Meeting) for completing the construction of a new Police Facility on public property located on Brown Avenue Ext. and to fund all activities related to the construction and occupancy of the new facility. These additional funds are made necessary as a result of construction cost increases during the delay caused by litigation to determine the constitutionality of the law under which the bonds were approved. The additional funds so raised and appropriated shall be obtained through the issuance of bonds or notes in an amount not to exceed \$900,000 under and in compliance with provisions of RSA Chapter 33, Municipal Finance Act, as amended and to authorize the Board of Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interest of the Town of Hampton (3/5 vote required).

Seconded by Jim Tierney.

Chief Wrenn spoke to the amendment stating that the police facility article last year passed by 62%, however a laws suit was filed in Exeter opposing the change from a 66% approval rate down to 60%. While the litigation was pending the cost to build the police station increased. This additional money is needed to complete the building.

Ray Hutchinson rose with questions regarding the site location of the new facility, whether the old building would be used during construction, and whether the cost of relocating into the new building included in the article. Chief Wrenn stated that it is in exactly the same location and they will continue to use the existing building during construction. He stated that the cost of moving into the new building has been figured into the cost. The demolition cost will be on a future budget.

The amendment passed and Article 11 will go on the ballot as amended.

ARTICLE 13

To see if the Town of Hampton will vote to raise and appropriate a sum not to exceed \$363,395 for the purchase of a pumper truck for the Hampton Fire Department and all related activities necessary for the design, construction, acquisition, and transportation of said truck. If approved, the said truck shall not be placed on order until the acceptance, operational evaluation, and certification is satisfactory and approved by the Fire Chief for the newly delivered pumper presently on order by authorization of the 2000 Town Meeting vote.

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Moved by William Sullivan

Seconded by Brian Warburton

Fire Chief Henry Lipe offered to **amend Article 13 by substituting the following:**

To see if the Town of Hampton will vote to raise and appropriate a sum not to exceed \$1,113,395 for the purchase of a pumper truck and an aerial ladder truck for the Hampton Fire Department and all related activities necessary for the design, construction, acquisition, and transportation of said trucks. The \$363,395 local funds shall serve as the required ten percent local match for grant funding of up to \$750,000 from the Firefighter Investment and Response Enhancement Act (FIRE) through the Federal Emergency Management Agency (FEMA) for purchasing a pumper truck and an aerial ladder truck for the sum of \$1,113,395. If the Town does not receive the grant, the \$363,395 shall be used for the purchase of a pumper truck for the Hampton Fire Department and all related activities necessary for the design, construction acquisition of said truck.

Seconded by Brian Warburton.

Chief Lipe addressed the article stating that in a recent test of aerial ladders, Hampton's two ladders failed the test. Selectman Bonnie Searle questioned why we are paying for a truck for the beach. Chief Lipe stated that the Town of Hampton is responsible for the protection of the entire town. Selectmen Sullivan reiterated the statement saying we are one Town with one police department and one fire department.

Ray Hutchinson questioned the wording of the article and he feels the town could lose the pumper if the article is not approved. Arthur Moody rose on a point of order declaring that the aerial truck was not on the warrant and the meeting was not warned. He added that RSA 39 states that nothing may be added to the warrant at this time. Attorney McEachern stated that the amendment is legal. Mr. Moody quoted Attorney Bernie Waugh, New Hampshire Municipal Association "the subject must be distinctly stated in the warrant. The Moderator consulted with counsel, and Attorney McEachern stated again that the article is legal.

The Lipe Amendment passed. It was voted to put Article 13 on the ballot as amended.

Brian Warburton motioned to restrict reconsideration of Article 13. William Sullivan seconded. The motion passed.

ARTICLE 19

To see if the Town of Hampton will vote to raise \$110,050 and appropriate a sum not to exceed \$860,050 for the installation of a diesel exhaust emissions system, new emergency generator, and other health and safety renovations of Fire Station number 2 located at 140 Winnacunnet Road. The \$110,050 local funds shall serve as the required ten percent local match for grant funding of up to \$750,000 from the Firefighter Investment and Response Enhancement (FIRE) Act through the Federal Emergency Management Agency (FEMA) for the purpose of a fire station expansion and renovation of offices, living quarters, and/or apparatus space. If the Town receives the grant, the total amount of the project shall not exceed the sum of \$860,050. If the Town does not receive the grant, the \$110,050 shall be used for the installation of a diesel exhaust emissions system, new emergency generator, and other health and safety renovations of Fire Station number 2 located at 140 Winnacunnet Road.

Recommended by the Board of Selectmen
Recommended by the Budget Committee

Moved by James Workman
Seconded by Brian Warburton

Chief Lipe moved to **amend the article by substituting the following:**

To see if the Town of Hampton will vote to raise and appropriate a sum not to exceed \$110,050 for the installation of a diesel exhaust emissions system, new emergency generator, and other health and safety renovations of Fire Station Number 2, located at 140 Winnacunnet Road.

Chief Lipe stated that the ladder truck in the original article was addressed in Article 13. He further explained the condition of the current emissions system and showed a photo of how the new system will look. Ray Hutchinson questioned what would happen to the money if the grant was not received. Chief Lipe answered that the money could not be used for another purpose. Mr. Moody stated that a new system was just put in by a Selectmen's article in 1991. Chief Lipe explained technologies dealing with removal of carcinogens have improved since 1992 and in the interest of safety and health he is looking to upgrade the system.

The Lipe amendment passed. Article 18 will be on the ballot as amended.

No 767

The article passed.

ARTICLE 20

To see if the Town of Hampton will vote to appropriate only \$75,000.00 from the special revenue fund (made up of 20% of the gross lease and rental from Town's parking areas located within Hampton Beach Village District) for the purpose allocated by Warrant Article #41 (1996). The purpose of these funds is to install lighting on Highland Ave. and any contingencies which may be related to the Highland Ave. project. Any funds not used in the Highland Ave. project will be spent on engineering costs on Ashworth Ave. This is a non-lapsing article under RSA 32:7 VI, and shall not lapse until 2005. This Warrant Article will not affect the Town's tax rate it is simply to allocate where the funds shall be spent. (By petition)

Recommended by the Board of Selectmen
Recommended by the Budget Committee

Moved by Virginia Bridle
Seconded by William Sullivan

Mr. Reniere spoke on the article. He said that the project started four years ago, and costs have increased over the years. The beach commissioners have agreed to fund the project this way, this completing the project, and making Highland Avenue a more attractive "gateway to the beach". Mr. O'Neill spoke on the raising cost over the past years resulting in a shortfall for the Highland Avenue project.

A motion to restrict reconsideration on articles 18, 19 and 20 was moved by Selectman Warburton and seconded by Selectman Sullivan. So approved.

The article passed.

ARTICLE 21

Shall the Town raise \$50,000 and appropriate \$200,000 to fund Project Impact: Building a Disaster Resistant Community? The Federal Emergency Management Agency will contribute \$150,000 as part of a Project Impact Grant for a total project cost of \$200,000. This grant will be used to create an all-hazard mitigation plan, develop Project Impact partnerships for longevity of the project, assess Hampton's risks for natural disasters, prioritize the Town's needs based on the risk assessment, and develop programs to mitigate these risks and needs. The Town's departmental staff labor and any equipment costs used to complete this project can be used to offset the Town's expense. This "Project Impact Community" designation has been received by the Town of Hampton from FEMA, and implementation is dependent upon the local match (cash and/or in-kind).

Recommended by the Board of Selectmen
Recommended by the Budget Committee

Moved by Brian Warburton
Seconded by James Workman

Mr. Barrington stated that Hampton was at high risk for flooding and FEMA recognized the area as eligible for grants. The purpose of Project Impact is to identify and address the needs.

Moved to go on the ballot by Brian Warburton and seconded by James Workman. So approved.

Article 21 will be on the ballot as written.

ARTICLE 23

Shall the Town raise \$33,466 and appropriate \$133,866 to fund flood mitigation projects that will eliminate or reduce repetitive losses caused by flooding as outlined in the Town's Flood Mitigation Plan? The Federal Emergency Management Agency will contribute \$100,400 as part of a Flood Mitigation Assistance Project Grant for a total project cost of \$133,866. This grant will target two of the listed project areas: Area #13 (The Island Area) and Area #15 (Plaice Cove Area). The project will include two phases: an engineering study to perform a detailed flood risk assessment and provide a series of recommendations to reduce the impacts of floods, and project construction, which will be based on the results of the engineering study. This appropriation is contingent upon receipt of the grant award. The Town's departmental staff labor and any equipment costs used to complete this project can be used to offset the Town's expense.

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Moved by James Workman

Seconded by William Sullivan

Mr. Barrington explained this is part of Project Impact and is made up of 25% local funds and 75% Federal grants. Its purpose is to study local conditions and make recommendation to solve flooding problems. It was moved and seconded to put Article 23 on the ballot as written. So voted.

A motion to restrict reconsideration of Articles 21, 22 and 23 was made by Brian Warburton and seconded by James Workman. The motion passed.

At this time Moderator Lessard asked for a motion to recess for lunch. The motion was made by Sharleene Hurst and seconded by Robert Ross. The Moderator declared the meeting recessed at 11:20 PM. At 12:35 Mr. Lessard reconvened the meeting.

Board of Selectmen Chairman Brian Warburton rose to commend outgoing Municipal Budget Committee Chairman, James Tierney for his six years of service to the voters of Hampton.

ARTICLE 32

Shall the municipality approve the new charter recommended by the charter commission?

If this article passes, the five-member Board of Selectmen/Town Manager form of government will be replaced by a nine-member Town Council/Town Manager form of government. The Town Councilors will all be elected at large and will prepare the annual municipal budget and assume all powers and responsibilities of the present Board of Selectmen. The Town Council will also assume the legislative powers of the Town, however, their actions will be subject to the initiative, referendum and recall provisions in the Charter and any bond issues in excess of \$500,000 will continue to require a two-thirds ballot vote of the Town's voters, as is the case under the present form of government. The role of the Town Manager, Town Clerk, Tax Collector, Treasurer, Trustees of the Trust Funds, Library Trustees, Planning Board, Zoning Board of Adjustment, Cemetery Trustees and Supervisors of the Checklist will remain essentially unchanged. The Hampton Municipal Budget Committee will be eliminated and the voters will no longer vote on the Town budget.

Moved by Fred Rice

Seconded by Victor DeMarco

David Lang, member of the Charter Commission questioned the addition of the last line of the article and asked when it was added and by whom. Mr. Rice answered the question stating it was added by the Selectmen at their last meeting.

Fred Rice addressed the article stating that this is the first time the Charter Commission members have had to present the Charter as defined by the commission. He explained, with the use of slides, the structure of town government now operating in New Hampshire. He said with the complexity of town government, it is time for Hampton to operate under a Charter. Ninety percent of the government procedures Hampton now has will stay the same. He further explained how Hampton would operate under the proposed Charter.

Mr. Rice offered to amend the article to delete the last line "The Hampton Municipal Budget Committee will be eliminated and the voters will no longer vote on the town budget; and add "fifteen-member Municipal Budget Committee" after Town Manager in the first line. Delete the words "continue to" after "bond issues in excess of \$500,000 will". Eliminate the phrase "as is the case under the present form of government". Add the word "Moderator" after "the role of the Town Manager".

Seconded by David Lang.

Discussion ensues and when there were no further remarks forthcoming the Moderator called for a vote on the amendment.

The Rice Amendment passed on hand counts of 32 Yes to 20 No. Article 32 now reads as follows:

If this article passes, the five-member Board of Selectmen/Town Manager/fifteen member Municipal Budget Committee form of government will be replaced by a nine-member Town Council/Town Manager form of government. The Town Councilors will all be elected at large and will prepare the annual municipal budget and assume all powers and responsibilities of the present Board of Selectmen. The Town Council will also assume the legislative powers of the Town, however, their actions will be subject to the initiative, referendum and recall provisions in the Charter and any bond issues in excess of \$500,000 will require a two-thirds ballot vote of the Town's voters. The role of the Town Manager, Moderator, Town Clerk, Tax Collector, Treasurer, Trustees of the Trust Funds, Library Trustees, Planning Board, Zoning Board of Adjustment, Cemetery Trustees and Supervisors of the Checklist will remain essentially unchanged.

Mary-Louise Woolsey spoke as a member of the Charter Commission and signer of the Minority Report. She cited the short time frame allowed for the preparation did not give sufficient preparation time or time to present the changes to the people. She feels that it is a dangerous proposal that is fraught with discrepancies that will be very difficult to administer and we will have legal challenges for years to come. She said that no charter should be put in place until the State Legislature removes the time restraints for putting a proposed charter together. Bonnie Searle and Victor DeMarco offered further remarks on the Charter, as did Elizabeth Webb, Alfonso Webb, Gerald Dignam, Armando Andreozzi, David Lang, Kevin Lonergan and Edward Buck.

A motion to end discussion on the article was made by Edward Buck and seconded by Virginia Bridle. The motion carried. A motion to restrict reconsideration on Article 32 was made by Brian Warburton and seconded by Edward Buck. The motion passed.

Brian Warburton moved to further restrict reconsideration on Article 31. William Sullivan seconded the motion. The motion passed and Moderator Lessard declared both articles restricted to further consideration at this meeting.

Yes 1109

No 1362

The article failed.

ARTICLE 33

Shall we modify the elderly exemptions from property tax in the Town of Hampton, based on assessed value, for qualified taxpayers, to be as follows: for a person 65 years of age up to 75 years, \$50,000; for a person 75 years of age up to 80 years, \$70,000; for a person 80 years of age or older \$90,000? To qualify, the person must have been a New Hampshire resident for at least 5 years, own the real estate individually or jointly, or if the real estate is owned by such person's spouse, they must have been married for at least 5 years. In addition, the taxpayer must have a net income of not more than \$21,000 or, if married, a combined net income of less than \$30,000; and own net assets not in excess of \$60,000 excluding the value of the person's residence.

Moved by Bonnie Searle

Seconded by Brian Warburton

Bonnie Searle addressed the article saying it is time to consider the exemption for elderly residents who are eligible. She stated the last time the exemption was addressed was 1991 and property values have increased since then.

David Lang offered to amend Article 33 to include the primary residence only. Mrs. Searle explained that with assets limited to \$60,000 it would seem that no other residence could be owned. Mr. Lang withdrew the amendment.

Mrs. Searle made a motion to end discussion on Article 33. Seconded by Virginia Bridle. No opposition was noted and the Moderator stated that Article 33 would be on the ballot as written.

The article passed.

ARTICLE 34

To see if the Town of Hampton will vote to amend Town Ordinance Article 5 of Chapter 2 of the Codes of Ordinances for the Town of Hampton by 1) replacing former Section 2:502 (e) with a new Section 2:502 (e) to read as follows:

“Dogs are not permitted on Town Beaches, in the water, or on Town Parks with the exception that properly leashed dogs may be permitted on Town Parks, as long as they are properly controlled, and do not constitute a nuisance. Provided further, however, no dogs are permitted at or within one hundred feet (100’) of activities in which an excess of five hundred (500) persons are expected, or, in fact are, in attendance. In this regard, even properly leashed dogs are not permitted to attend unless the dog is providing support for a blind person (seeing eye dog). Attendance of such animals, at such events where a large number of people are expected to congregate shall constitute a public nuisance. Proof of the number of persons expected or attending shall be based upon reports from either the Fire Department or the Police Department.”

And by increasing the fine pursuant to Section 2:503 to read as follows: Sec. 2:503 Penalty “Any person violating any of the provisions of the by-law shall be guilty of a misdemeanor and upon conviction thereof shall be liable to a penalty of not less than One Hundred and 00/100 (\$100.00) Dollars nor more than Two Hundred Fifty and 00/100 (\$250.00) Dollars for each offense.”

Moved by William Sullivan
Seconded by William Wrenn

Mr. Sullivan moved to amend the article by adding after no dogs, “reptiles or exotic animals.” Seconded by Brian Warburton. The Sullivan amendment passed.

Richard Reniere offered to amend the article further by deleting “in this regard, even properly leashed dogs are not permitted to attend unless the dog is providing support for a blind person (seeing eye dog). Attendance of such animal at such events where a large number of people are expected to congregate shall constitute a public nuisance. Insert “service dogs as defined under the American with Disabilities Act of 1990 are exempted from this ordinance.” After some discussion, Mr. Reniere changed “dogs” to read “service animals”. The Reniere amendment passed.

Charlene Carliell moved to amend Article 34 by deleting the word “events” and substituting the word “activities” and further restore the deleted sentence “Attendance of such animals at such event where a large number of people are expected to congregate shall constitute a public nuisance.” Seconded by John McEachern. The Carliell amendment passed.

The article as amended reads as follows:

To see if the Town of Hampton will vote to amend Town Ordinance Article 5 of Chapter 2 of the Code of Ordinances for the Town of Hampton by 1) Replacing former Section 2:502(e) with a new Section 2:502(e) to read as follows:

“Dogs are not permitted on Town Beaches, in the water, or on Town Parks with the exception that properly leashed dogs may be permitted on Town Parks as long as they are properly controlled, and do not constitute a nuisance. Provided further, however, that no dogs, reptiles or exotic animals are permitted at or

within one hundred feet (100') of activities in which an excess of five hundred persons are expected, animals as defined under the American with Disabilities Act of 1990 are exempt from this ordinance. Attendance of such animals, at such activities where a large number of people are expected to congregate shall constitute a public nuisance. Proof of the number of persons expected or attending shall be based upon reports from either the Fire Department or the Police Department".

And by increasing the fine pursuant to Section 2:503 to read as follows: Section 2:503 Penalty: "Any person violating any of the provisions of the by-law shall be guilty of a violation and upon conviction thereof shall be liable to a penalty of not less than One Hundred and 00/100 (\$100.00) Dollars nor more than Two Hundred Fifty and 00/100 (\$250.00) Dollars for each offense.

There were no further amendments and Article 34 will go on the ballot as amended.

A motion to restrict reconsideration of Articles 33 and 34 was made by Brian Warburton and seconded by James Workman. So voted.

No 1471

The article failed.

ARTICLE 36

To see if the Town will vote to authorize the Board of Selectmen to enter into and finalize agreements for maintaining the area on and around Marelli Park gazebo and in connection therewith to obtain easements from any private property owners who may have an interest in real property located in said area, under such terms and conditions as the Selectmen determine are in the best interest of the Town of Hampton.

Moved by William Sullivan
Seconded by Brian Warburton

Fred Rice explained the article. The area in question was shown on a map. He stated that the town agreed to maintain the road in return for an easement through the property. Gerald McConnell moved to end debate on the article, seconded by Edward Buck. The motion was approved.

A motion to restrict reconsideration of Articles 35 and 36 was made by James Workman and seconded by Brian Warburton. The motion passed.

ARTICLE 37

Shall the Town vote to rescind \$457,329 of the authorization of the March 14, 1995 Town Meeting (Article 13) for the Board of Selectmen to issue bonds or notes in borrowing a sum not to exceed \$4,986,000 for expenses related to closure of the municipal landfill, a project that has been completed without the need of said \$457,329?

Moved by James Workman
Seconded by Virginia Bridle

James Barrington, Town Manager explained Articles 37, 38 and 39 as housekeeping articles. They are removing the authority to borrow or issue notes on those completed projects. These projects were finished without the need for the entire amounts authorized. There was no further discussion and Article 37 will be on the ballot as written.

The article passed.

ARTICLE 40

On petition of Ansell W. Palmer and twenty five or more registered voters of the Town of Hampton, to see if the Town will vote to authorize the transfer of a certain two acres of land adjacent to the James House on Towle Farm Road as shown on a plan prepared by Millette, Sprague, and Colwell, Inc. titled Lot Line Relocation Plan dated Jan. 4, 2001 for the James House Association, Inc., a not for profit organization formed for the sole purpose of preserving and maintaining the 1720s James House. The land being conveyed by this article shall be subject to a condition that it revert to the Town in the event that it ceases to be maintained as a historical site as is the condition with the present James House Association, Inc.'s property. The preparation of the necessary deed and plan and their recording at the Rockingham County Registry of Deeds for this land transfer will be handled by the James House Association, Inc. at no cost to the Town of Hampton. (By petition)

Recommended by the Board of Selectmen

Moved by James Workman

Seconded by William Sullivan

Mr. Ansell Palmer presented the article explaining this would increase the size of the James House property from one acre to three acres to accommodate school functions, activities and parking in the area. He gave a brief history of the organization stating that the James House Association bought the property and the following year the Town purchased the adjoining land, which is about 15 acres.

Edward Buck moved to end discussion. Seconded by Brian Warburton. The motion passed and the Moderator stated that the article would go on the ballot as written.

James Workman moved to restrict reconsideration of Article 40. Seconded by Brian Warburton. Approved.

No 403

The article passed.

ARTICLE 41

On petition of Wendell C. Ring and at least twenty-four (24) other legal voters of the Town of Hampton, to see if the Town will vote to convey a certain strip of undeveloped land to Wendell C. Ring. Said strip of land is located between the existing land of Wendell C. Ring, 130 High Street (Map #161, Lot #9) and land of the Hampton Cemetery (Map 145,) having twenty-four (24') feet of frontage (+ or -) on High Street with a depth of one hundred eighty (180') feet (+ or -) containing approximately four thousand four hundred twenty-eight (4,428) square feet (+ or -). This strip of land has been maintained and used by the Ring family as their driveway for over seventy (70) years. This transaction to be completed at no cost to the Town of Hampton. (By petition)

Recommended by the Board of Selectmen

Moved by Brian Warburton

Seconded by Virginia Bridle

Mr. Ring presented his article. He described the location and stated that his grandfather bought the land in 1919. He explained that there was a gravel pit in the back and the driveway was the access route to the back cemetery land. That ceased to be used as an access route when the cemetery put up a fence. At that time they blocked the access. The Ring family has been maintaining the area since 1945.

Christopher Connolly moved to end further discussion. Seconded by Edward Buck. The article was moved to the ballot as written.

Yes 578

No 1719

The article passed.

ARTICLE 43

On a petition of Philip W. Serowik and 24 or more other legal voters of the Town of Hampton; to see if the Town will vote to remove deed restriction number 4, relating to the erection of structures from 915 Ocean Boulevard, Tax Map 168, Lot 20 in order to allow the demolition of a six unit motel plus a single family home and replace both structures with a single structure containing three dwelling units, upon approval from the Town of Hampton Board of Adjustment and the Planning Board as needed. Further to authorize and direct the Selectmen to execute, deliver and record notice of this vote at the Rockingham County Registry of Deeds. This lot was formerly leased by the Town and the restriction to be removed was imposed pursuant to Section 5 of the Warrant of the Special Town Meeting held on May 11, 1982. (By petition)

Moved by Brian Warburton

Seconded by James Workman

Craig Salomon, attorney for the petitioner explained the article. The deed restrictions state that this motel can continue forever, but any new structure shall be limited to a single-family unit. This article seeks to remove the restriction so the owners can appear before the planning board and submit a plan for approval. Attorney Salomon offered to amend the article to add to the end “That the execution, delivery and recording of the notice be at no cost to the town.” Seconded by James Workman. The Salomon amendment passed.

The article was moved to the ballot as written. A motion to restrict reconsideration on Article 43 was made by Craig Salomon and seconded by Edward Buck. The motion passed.

Michael O'Neil	664*
Pat Baker	251
John Regan (write in)	2
James Barrington (write in)	1

*denotes winner

⌘ ASSESSOR'S ANNUAL REPORT ⌘

The year 2000 overall assessment ratio changed from 80 percent to 68 percent in 2001. Hampton property values have continued to grow over the last year at an average rate of change of 15%. The Assessor's Office will be conducting an update of property assessments for the 2002 tax year. It is anticipated that the majority of property values will increase between 25% to 35% depending on the sales data analyzed on a neighborhood by neighborhood basis.

There have been many changes made in the property taxation laws and administrative rules due to a Supreme Court ruling in 2000. As a result of these changes, cities and towns will be required to have their assessments certified every four years. Hampton's first certification year will be 2003. As a result, it is anticipated that we will have another update of values in the year 2003. Plans are in the process for a total re-measure and re-list of Hampton properties for the 2007 certification year.

GIS MAPPING

Our GIS software has now been networked so that other departments can use it. Public Works will be hooked in soon and is working on adding drainage data.

TAX RATE STATISTICS

An increase or decrease in the amount of \$138,825 in expenditures can change the tax rate 10¢.

An increase or decrease of \$5,751,166 in assessed values can change the tax rate 10¢.

LEASED LAND UPDATE

The Town still has 55 lots of leased land. There were 2 sales in 2001 and a few new leases drawn over the year. All sales are paid in full by certified check only and are at 100% of market value. You can look at the Trustees of Trust Funds' Report to see the revenues from the sale of leased land. The interest from the trust funds is used to offset the tax rate.

Robert A. Estey, Assessor, CAE, CNHA
Angela L. Boucher, Deputy Assessor, CNHA
Arlene Mowry, Assessors' Assistant

⌘ BUILDING DEPARTMENT – CODE ENFORCEMENT ⌘

As we prepare to close out 2001 and our second year of operation using the many procedural changes that my staff and I have implemented, it is exciting to see how much some of these changes have helped the public with the permitting process, inspection procedures, tracking of information and record keeping.

The continued strong economy through most of this year has kept the permitting and inspection process on a record pace as we continue working on new and better ways to help serve the community, and you more efficiently.

With the addition this year of Robert Sperry as the new Assistant Building Inspector, we round out our existing expertise as Master Electricians, Construction Supervisor with his experience as a Master Plumber. His background, as well as that of the rest of the staff has allowed us to offer a wealth of knowledge in all the major trades to the community as well as contractors.

Kevin Schultz, Building Inspector
Robert Sperry, Asst. Building Inspector
Robert Charette, Code Enforcement Officer
Eleanor Montague, Secretary

2001 Statistics

Permits Issued:	1,476
Inspections Performed:	3,167
Certificates Of Occupancy:	166 issued for 358 rental units
Construction Value:	\$18,952,489
Fees Generated:	\$110,686

Looking back on 2001 and the historic events that have taken place, it is nice to know that we are in a position to help and serve the community.

GOD BLESS AMERICA!

Respectfully submitted,

Kevin Schultz,
Building Inspector/Department Head

⌘ REPORT OF THE FIRE & RESCUE SERVICE ⌘

A year of change can be reported by your providers of fire, rescue, and emergency medical services in 2001. We had personnel retiring, promoted and hired in our organization. Thanks to the citizens passing the operating budget last March, I can report that we have been able to continue to revitalize our equipment by purchasing many new items to improve our quality of fire and emergency medical service for the residents of Hampton.

Acquiring the new pumper and new equipment was a major focal point this year. The first of two new fire engines was delivered in June and is now located at the Winnacunnet Road firehouse. SMEAL FIRE APPARATUS, which is located in Snyder, Nebraska, built the truck. We also expect delivery of the second pumper by SMEAL in March of 2002. We also began our improvements to the Winnacunnet Road firehouse by installing a vehicle exhaust emissions system and new emergency generator. In addition, we are continuing our efforts for other improvements to the station into 2002.

I have always believed that firefighter safety should be top priority and is a full-time job. The new position of Deputy Chief of Safety / Training was created from the old EMS Officers position to bolster our emphasis on a total force training concept and firefighter safety compliance issues. The new challenges we face now with biological and chemical responses, increased operational call volume and regulatory compliance issues, the position is certainly warranted. The support given by the Board of Selectmen for its implementation was timely and appreciated.

New Firefighters Buck Frost, Jim Squires, Bill Paine, Nathan Denio, and Matt Eaton were all hired this year as our newest full-time firefighters. The openings were a result of the retirements of Deputy Chief Tony Chouinard and Firefighter Jeff Baillargeon, various promotions, and a new position that was approved. Deputy Chief Chouinard gave the town over 31 years of dedicated service and Firefighter Baillargeon retired after 18 years of service. We wish them and their families well as they transition into new endeavors. New promotions included Deputy Chief of Operations Steve Benotti and Deputy Chief of Safety and Training Chris Silver, Captain Rusty Bridle, Lieutenants John Stevens and Bill Kennedy.

The storms of March are now a distant memory as all of us have coped and adjusted operationally with the events of September 11 and subsequent terrorist activities. Our lives and careers have changed forever as we will never forget the compassion, professionalism, and heroism that the 346 FDNY Firefighters displayed as they gave their lives so valiantly so others could live. Hampton firefighters and officers have continually traveled to New York City to attend firefighter funerals on their off time as a display of respect to the firefighter's families and to support the brotherhood of the fire service. Operationally, this has been the busiest year on record for us as we have responded to over 4,200 calls. Business has never been busier for us. This is a sure sign of Hampton growth, which has increased our operational demands.

On behalf of all the Firefighters, Fire Alarm Operators, Officers, and staff of Hampton Fire / Rescue, I want to extend my sincere thanks for all of the community support that you have given us this year.

Respectfully submitted,
Hank Lipe
Fire Chief

⌘ REPORT OF THE POLICE DEPARTMENT ⌘

Full-Time Law Enforcement Officers	34
Part-Time Law Enforcement Officers	70
Full-Time Civilian Personnel	9
Part-Time Civilian Personnel	<u>3</u>
Authorized Department Personnel	116

A mission and value statement guides the employees of the Hampton Police Department in the performance of their duties. Those statements further emphasize our commitment to the philosophy of Community Policing and read as follows:

MISSION STATEMENT

The mission of the Hampton Police Department is to enhance the quality of life for all persons who live, work and visit our community by:

- Fostering partnerships within our community to promote safe, secure neighborhoods;
- Maintaining order and peace, while affording dignity and respect to every person;
- Safeguarding individual rights; and,
- Preventing crime while aggressively working to solve those crimes which occur.

We strive to accomplish this mission through the delivery of quality police services; and the pursuit of excellence and dedication in the performance of those services.

VALUES STATEMENT

All employees of the Hampton Police Department will be guided by the following shared values:

A. Human Life

We value human life and dignity above all else. Therefore, we give first priority to any situation that threatens life. We utilize the proper levels of force and only when necessary. We treat all persons in a dignified and courteous manner, and exhibit understanding of ethnic and cultural diversity, both in our professional and personal endeavors. We will remain constantly aware of the need for compassion, caring, and common sense in dealing with people.

B. Integrity

We believe integrity is the basis for public trust. Therefore, we are committed to the highest performance standards, ethical conduct, and truthfulness in all relationships. We hold ourselves accountable for our actions and take pride in a professional level of service to all.

C. Excellence

We strive for personal and professional excellence. Therefore, we strive to do our best in all situations and to provide quality service in a courteous, efficient and accessible manner. We vigorously enforce local, state and federal laws; and, are committed to the defense of the Constitutions of the United States and the State of New Hampshire. We promote community and employee interaction through problem solving partnerships. We empower our employees at all levels to engage in problem identification and problem solving activities. We strive for professional performance through continual training, education, and commitment to our duties. We will not tolerate misconduct by an employee and we will treat our fellow employees and our work environment with dignity and respect.

The tragic events of September 11, 2001 have changed our country forever. The loss of so many of our fellow citizens in those cowardly and despicable attacks will remain with all of us forever. The loss of so many police officers, fire fighters, and rescue workers who were doing their duty on that fateful day reminds us all of the dangers that face our officers' everyday.

PERSONNEL:

The members of the Hampton Police Department suffered a great loss this year, Officer David Kalil, a special police officer with over 15 years of dedicated service to the town, passed away after a valiant battle with cancer. Officer Kalil was a long time dedicated member of our motorcycle patrol, we will all miss David.

Several changes in the area of personnel occurred this year; Lieutenant Paul McGann retired from police service in August. Lt. McGann served with the Department for 6 years his retirement created several other position changes. Sergeant Richard Sawyer was promoted to fill the open Lieutenant's position in September. Detective Daniel Gidley was promoted to Sergeant in December and Officer Chris Gilroy was hired in December as a full time officer. Officer Gilroy is a native of Massachusetts and is currently living in Dover, New Hampshire. Chris was hired as a part-time officer in April of 2000.

Communication Specialist Fred Ruonala retired from his full-time position after 24 years of service to our town, Fred will remain on the department as a part-time dispatcher. Two other full-time Communication Specialists also left this year, Kimberly Tasker and Kimberly Sullivan; we wish them well in the future. Joining the department in the communications area are Allison Downing, a resident of Salem, NH. Allison was hired in July, after serving as a part-time dispatcher. In August, Rhonda Stevens a resident of Portsmouth, NH was hired to the position of Communications Specialist Supervisor. Rhonda has been a member of the department since 1997 serving as both a full-time and part-time dispatcher.

DEPARTMENT OPERATIONS:

Since September 11, 2001, we have focused a great deal of time on emergency planning and preparation. Working closely with the other Town Departments, we are reviewing all emergency plans and are working hard on the Local Emergency Planning Committee.

Our Officers have remained busy investigating suspicious packages and reports of suspicious substances. We continue to remain on alert to suspicious activity in our community. In addition, Officers have been assisting the Seabrook Police Department in providing additional security at the Seabrook Station Power Plant since October.

We will continue to be on alert and train our officers to respond to the ever changing world we live in.

The department remained very active serving our community this year. Officers responded to 20,787 calls for service in the community. Over 6,436 vehicles were stopped as a result of our traffic safety program. 2,077 people were arrested. Over 1,547 incident reports were filed and investigated resulting in 4,272 separate offenses being reported to the police. The department investigated 520 accidents during the past year. Officers issued 3,703 parking tickets resulting in \$61,067 in revenues collected.

During the summer and busy pre season the New Hampshire State Police continued to assist the Hampton Police Department by assigning Troopers to create an added presence at the beach, and the Rockingham County Sheriff's Department provided assistance on the busy 4th of July weekend. A special note of thanks to the Department of Safety Commissioner Richard Flynn, State Police Colonel Gary Sloper and Rockingham County Sheriff Daniel Linehan for their continued support and cooperation.

CONCLUSION:

On behalf of the members of our Department, I would like to extend our sincere appreciation to the Town Manager, James Barrington, and the Board of Selectman, all Town Committees, and Town Departments for their help, cooperation, and continued support throughout the year. We also wish to thank the business community and the people of the Town of Hampton for their continued generosity and gracious support.

Finally, I wish to thank the families of our employees for the sacrifices they make every day due to the nature of this job, and I commend all our members for their professionalism, dedication and hard work towards providing the Town of Hampton with the best law enforcement services.

Respectfully submitted,
William L. Wrenn
Chief of Police

⌘ DEPARTMENT OF PUBLIC WORKS ⌘

Personnel: Full-time	41
Part-time	22
TOTAL	63

The year 2001 provided many challenges for your Public Works Department, which included an unusual amount of snow, especially in March that recorded a 29" event. The good news about this huge and unusual snow storm is that we have been reimbursed for our expenses by as much as 85%. Fortunately, we were not hit with damaging coastal flooding or unusually heavy rains during the year. Our crews worked hard to meet the seasonal maintenance responsibilities for roads, sewer and drains, vehicles, solid waste collection and disposal. We strive to deliver a high level of service that we feel contributes substantially to the quality life style that Hampton residents enjoy.

Sidewalks

A new sidewalk was installed on the north side of Exeter Road from Stowcroft Drive to Falcone Circle. New underdrains were installed along the High St. sidewalk and the metal plates were removed to improve walking safety. Repairs were made to sidewalks on Mill Road, High Street, Moulton Road, and Winnacunnet Road. Handicapped access ramps were installed at the new gazebo at Marelli Square.

Sewers and Drains

The sewer and drain crew is responsible for keeping the storm water drainage system and the sewer system flowing. In accomplishing this feat in 2001 they cleaned 10,819' of sewer line, 2,167' of drain line, and 322 catch basins. They installed 488' of new drain line; responded to 32 plugged sewer lines of which 14 were the responsibility of the Town. Sections of sewer and drain lines were inspected with the video camera and cleaned and repaired as needed. Debris was cleaned off catch basin covers to prevent and/or alleviate flooding; and a myriad of other tasks was performed as maintenance required. Additionally, there were 51 new entrances into our sanitary sewer system requiring 107 inspections; 65 permits were issued for new sewer connections; and 455 locations were made for contractors, utility companies and the public. Drainage improvement projects were completed on Warner Lane, Watson's Lane and the intersection of Morningside Drive and Leavitt Road.

Snow

As mentioned above, snowfall during 2001 was more intense than the past several years. Twelve storms deposited a total of 90 inches of snow requiring plowing, snow removal, sanding and salting. The cost of "fighting a snow storm" in 2001 was approximately \$1,770 per inch. This doesn't include follow up sanding/salting and spot treatment for daily melting. The month of March proved to be one of the busiest in recent history in the snow-fighting arena. Between the 5th and 6th of March, 29" of snow fell, followed by 6" on the seventh and 8" on the ninth of March. Our crews were pushed to their limits but managed as always to provide exemplary services to the Town.

The Town Office in the aftermath of the March snow storm.

Treatment Plant

Almost \$2 million of construction work on Phase I of the treatment plant upgrade is complete. The new equipment increased the capacity of the plant allowing the Town to remove the sewer moratorium in January. The improvements facilitate more efficient plant operation and help reduce off site odors. Phase II of the plant upgrade project, beginning June 2002 will increase the capacity of the plant, as we will be installing a new secondary clarifier tank. The average flow received at the treatment plant was 2.03 million gallons per day for an annual total of 741 million gallons of wastewater, 2.3 million gallons of which was septage. We processed 3,000 tons of biosolids (sludge) and removed an additional 60 tons of grit.

Highway Maintenance

The resurfacing program was broken into two segments this year to try to avoid delaying school bus traffic as well as relieving peak volume hours on major arteries. This was very successful and will continue to be our operational procedure in the future. Prior to resurfacing, Mill Road was widened to allow for 11' travel lanes from High Street to Mace Road. This involved excavating unsuitable material in the east shoulder, replacing it with select base material and applying a 2" base course of ¾" bituminous concrete. Phase one of the resurfacing program included portions of High Street, Mill Road, and Park Avenue. These were completed prior to the opening of school. Phase two was delayed by weather and scheduling conflicts but was completed prior to winter setting in. This phase included overlay of Roberts Drive, Warner Lane, Donna's Lane, Rosa Road, Ridgeview Terrace, and Beach Plum Way. A shim was applied to Drakeside Road, Sweetbrier Lane, Pineknoll Road, Oakdale Street, Gentian Road and part of the town lot at Cusack Rd.

A repair was made at the intersection of Edgewood Drive and Winnacunnet Road to try to relieve the puddling and icing condition in the winter. With less than minimum pitch at this location, this was a difficult task to accomplish. Hopefully this solves the problem in that area.

In the aftermath of the storm of 2001, Public Works held a roadside pick up for limbs to provide relief to residents for the extensive damage done. A chipper was rented which significantly reduced the bulk of the debris. This task was very labor intensive and involved many man-hours. We also performed the spring and fall roadside collection of leaves and soft yard waste, which are composted.

Public Works also assisted the Recreation Department in the construction of a new facility at the Ashworth Avenue parking lot, running sewer and water to the location. Once the trenches had settled, the hot top was repaired. Later the department was required to assemble the "KIT" of the actual building that had been purchased by the Recreation Department. The Eaton Park parking lot was completed with the final application of bituminous concrete as well as the lay out and striping of the parking spaces.

The department was given the task of removing the solar lights from the center of town. This involved cutting the poles off at sidewalk level, repairing the sidewalk and removing the batteries.

Solid Waste and Recycling

It was an exciting year for the Transfer Station for a number of reasons. Mr. Leon "Bo" Abbott was added to the full time staff. What began as a small program to recycle computer components has taken off and become a model for other communities in the State. Our staff worked with the Governor's Recycling Program, the Lane Library and the Hampton Garden Club to offer backyard-composting bins to the public. In May, we expanded our hours of operation and the public has certainly taken advantage of the additional hours. In November, we celebrated America Recycles Day with an open house.

In terms of commodities, we've had a mixed year. Overall, our rubbish disposal has increased by 1000 tons (10%), while our curbside recycling of glass, cans, plastics, cardboard and mixed paper has decreased by 4%. However, the curbside decrease was offset by a 28% increase for these items recycled from the Transfer Station roll-off containers. Taken as a whole, our recycling efforts remained about the same as for 2000.

We saw a 9% reduction in the disposal of construction and demolition materials (wood, sheetrock, shingles, etc.). Scrap metal recycling was down by 20%, while metal recycling is now costing us for disposal since metal markets are depressed.

Our compost program is continual. We have plenty of composted material for residents to pick up for free. In 2002 we will be hosting a training seminar for large scale composting operations that will be conducted by Town employees and administered through the N.H. Dept. of Environmental Services.

Reconstruction: Rte. 1 (Lafayette Rd). & Highland Avenue

On Lafayette Road underground utilities are complete except for the short section between Scott Rd. and Robbins Auto Parts. Other work remaining to be performed includes; installation of sidewalks on both sides of the road, finish top coat of asphalt paving, road markings, signage, traffic lights at Kershaw Ave., landscaping and some drainage.

Construction remaining on Highland Avenue includes: storm water drainage system, some service connections to the structures, installation of sidewalks on both sides of the road, finish asphalt paving, road markings, signage and the new street lighting.

We'll all welcome the completion and opening of both of these long awaited projects.

From the entire Public Works Department, we look forward to continuing our work for all the members of our community. Thank you for all your support and suggestions for improvements.

Respectfully submitted,

John R. Hangen
Director of Public Works

The crew from Severino Construction did an excellent job installing the box culvert on Highland Avenue.

⌘ HAMPTON PARKS & RECREATION DEPARTMENT ⌘

The year 2001 was a very fun-filled and joyful year for the Hampton Recreation and Parks Department. To begin, I would like to introduce our full-time staff. We have Shirley Doheny, Recreation Secretary, as the smiling face behind the desk when you come to sign up for programs. Rene' Boudreau, Program Coordinator and Dyana Lassonde, Director of Recreation & Parks can often be seen at special events, programs and meetings and of course Darren Patch, Parks Coordinator is the guy you will see at Tuck Field and around town sprucing up the parks and play areas. We also have Vic DeMarco running the town parking lots on the beach during the summer, as well as approximately 60 part-time seasonal staff members and numerous volunteers.

We are especially excited about two programs that were started last year that have just taken off this year. First, was the 2nd Annual Hampton Community Challenge Road Race. Many thanks to Lynn Blume, Patty McKenzie, Sara Casassa, Jan Mellow, Jill Gosselin, Bill Teschek, HCIC and all the other volunteers for their efforts in making the road race a huge success this year. We had many sponsors that I would also like to thank. The road race is a fundraiser for the recreation department and this year the monies raised were going towards the After School Club programs. Many thanks go out to the following sponsors: New Traditions James M. Taylor Division, Hampton Elementary PTA, The Inn of Hampton & Conference Center, Fisher Scientific International Inc., Mortgage Partners, Hampton Police Association, Professional Firefighters of Hampton Local-2664, Prudential Rush Realtors, Rockingham Foot Care Association, Adlantic Advertising & Design, Hampton Center Hardware, Hampton Internal Medicine, Exeter & Hampton Electric Co., Waldron Engineering, Inc., Labels, Inc., Tobey & Merrill Insurance, William H. Bird Real Estate, Beachside Bookkeeping, Parson's Electric Co., Hampton Natural Foods, and the Wok Express. We changed the race route to start and end at the Winnacunnet High School and we also offered the race in the fall as opposed to the very busy spring. We had a wonderful day of weather and many residents came out for the 5K race and the Fun Runs.

Secondly, many thanks to Tim Andersen for heading up the NFL Flag Football League again this year as well as all the other coaches and volunteers. The program doubled in size and could not have been so successful without the volunteer coaches and all the people that helped keeping the clock and distributing the equipment each week. Thank you to all of you, as well as the sponsors that donated to the "SuperBowl" event at the end of the season. These sponsors included the L Street Café, O'Leary's Grille, Sandy Lally Real Estate, Chris' Cards and Comics and Adlantic Advertising and Design. Thanks goes out to Brian Mills, one of our coaches that set up an end of the season trip for all the teams to go to watch the UNH vs. UMaine football game at the University. Fun was had by all at both programs and the college game and we look forward to next year's events.

I would also like to thank the HYA and Timberland for heading up two projects that were completed this year for the Tuck Field area. More dugouts were built down at Tuck Field and there was a memorial erected at the site of Field One. The new name of Field One is Don Butler Diamond. This was erected in memory of Don Butler who was a long time coach and commissioner for the HYA and a long time member of the Hampton Recreation Advisory Council. Don had contributed so much to the Town of Hampton over the years in the name of recreation and especially youth sports. We at the recreation and parks department could not have done all this without these two organizations and are very grateful for their support and partnerships.

There were a number of new and positive things that happened for the community through the recreation & parks department this year. First we added a few new programs and special events. During the summer months, Rene' and the staff at Pioneers Surf and Skate Shop ran a Skate Jam at the skateboard park and the kids were able to show off their talents on the half pipe that was built last year. We also partnered up with the Special Olympics of New Hampshire and had "the King and His Court" visit us all the way from California. This professional softball team of 4 has been touring the country and wowing audiences for over 40 years. Thanks to Diane and Jim Wheeler we were able to make the contacts to get them here. We had a fine team from Hampton challenge the team and a lot of fun was had by all who participated or came down to watch the game. We also brought back surfing lessons and archery this past summer. As fall arrived we were able to add more programs. These included: Yoga, the Baby Depot, French lessons, Punt Pass & Kick and Shorin-ryu Karate. All have been very positive additions to our already extensive number of fun programs.

I also wanted to mention another positive activity that happened in our community this year that was not based out of our department but is recreational. Back on July 26, 2000 Hampton's Ralph Fatello set out on a yearlong quest to raise awareness about diabetes and to keep the memory of his father Gus alive by pledging to surf everyday for one year. Ralph's father Gus was responsible for Ralph taking up surfing in the early sixties. Ralph surfed through colds, bronchitis, back problems, and the region's worst winter in recent years. He never missed a day. The last day was well attended by friends and relatives as well as many local and national media. The fundraiser for the American Diabetes Association collected over \$32,000 by July 26, 2001. Ralph was also chosen to receive an award from the ADA on October 26, 2001 for his efforts in the fundraiser "Catch a Wave for Gus". It is always a pleasure to hear of heart warming and successful stories of people that make recreation an important part of their life.

We ended the year with the Holiday Tree Lighting Ceremony. This year Santa was able to have a break in his busy schedule and he and Mrs. Claus joined us. About 60 people joined in the festivities and merriment and despite the weather, fun was all around us. Special thanks to Jay MacDougal and Jeff Cullinane for providing the super entertainment. Thanks to the Atlantic News for supplying the song books, thanks goes out to Chamber of Commerce for the use of lights to read carols by, thanks to the Cullinane family and the MacDougal family for donating the hot chocolate and ornaments that were handed out to the crowd. Finally thanks goes out to the Hampton Area Lions Club for starting the season off right with candy canes. Right after the Tree Lighting Ceremony the department participated in the Annual Christmas Parade put on by the Chamber of Commerce. Thanks goes out to the Recreation Advisory Council for all the work they did to get our float ready for the parade as well as their participation on parade day. It is a lot of work to put a float together and lots of hard work goes in every year. Special thanks goes out to Jill and Jack Gosselin for heading up that project and Mike and Sharon Plouffe for their continued participation with us each year in the parade.

Lastly I would like to mention that finally the old Tuck Building was demolished and a new one stands in its place. The kids truly enjoyed the new building and it was a joy to beautify the area at Tuck Field through a new building on the site.

Many thanks to the Recreation & Parks Advisory Council, our instructors, the Lane Library, Hampton Schools, PTA, Dept. of Public Works, Police and Fire Departments, Hampton Lions Club, HCIC, Hampton Area Rotary, the Chamber of Commerce, Atlantic News, Hampton Union, Suntree and the HYA for your continued support and assistance.

I hope that you have all had a chance to participate in a program or trip through our department. We always enjoy seeing you and are always eager to meet new people in the community. If you haven't been by our offices, drop by and sign up for something fun. The benefits of parks and recreation are endless and in today's busy society nothing soothes the soul better than a great recreational adventure! On behalf of the Hampton Recreation & Parks Department, we hope to see you in 2002!

Respectfully Submitted,

Dyana Lassonde
Director, Recreation & Parks

Caitlin Wheeler throwing Ann Marie Feigner, of the *King & His Court* a pitch using for the first time their specially designed ball. Catching is Les Shepard, on 1st base is Mike DaBoul and on 2nd base is Brian Maloney.

The new Tuck Building under construction.

HAMPTON'S OLYMPIC TORCH BEARER!

Hampton resident Gerry Farrahar was nominated by her grand-daughter and chosen to be one of the Olympic torch bearers for the 2002 Winter Olympics as a result of the many . Gerry is 77 years old and has logged over 11,500 miles as a member of the Hampton Walkers. Congratulations Gerry!

⌘REPORT OF THE TAX COLLECTOR⌘

It was a busy year in the tax office and continues to be a constant pleasure and privilege to serve you, the taxpayers of Hampton.

How much our lives in this great country have changed this year with the unbelievable and reprehensible tragedy that occurred September 11th at the World Trade Center in New York. With such a devastating occurrence, it is a credit to the American people in this, the greatest country in the world how we gathered together in unity, strength and prayer and offered our support and loyalty to the fire fighters, the families and our government. I realize more than ever, how fortunate and proud I am to be an American, and I appreciate and will never take for granted the freedom and opportunities this great country of ours allows us to enjoy freely. God Bless America!

I extend my sincerest appreciation to Glenna Brown who works part time during the busy property tax seasons. Glenna's efficiency, accuracy, and dedication to detail most assuredly make the tax office operate more smoothly during the busy property tax seasons. The tax office mails approximately 9,000 tax bills semi-annually, totaling 18,000 bills a year. This means 9,000 payments are due in 30 days, and the bulk of these payments arrive from the mortgage companies within one to two days of the due date. Glenna tackles the thousands of tax payments received from mortgage companies, checks each of them for accuracy, totals the amount paid and then these bills are ready to be processed. This is a tremendous task, Glenna is a tireless worker and she is instrumental, at our hectic tax time, in the smooth operation of the tax office. Through it all, she is pleasant and polite to everyone. We are grateful to have Glenna working in the tax office, Jan and I greatly appreciate you. Thank you Glenna!

A special thank you to Deputy Tax Collector Jan Manning who is an absolute delight to work with. Jan is an asset to the tax office in many respects; she is hard working, detail oriented, accurate, efficient, courteous to everyone, she always volunteers to go above and beyond the call of duty and most importantly, she is a very nice person. Thank you Jan, you are greatly appreciated.

It is with extreme sadness, that we marked the passing of our beloved Sylvia Moulton. Sylvia worked in the tax office during tax season since 1997, and graced are lives with her fabulous wit and great sense of humor. There are no words to express our sorrow, our memories of her will live on forever. Heaven will never be the same now that Sylvia has arrived, how blessed they are!

In 2001, this office collected a total of \$33,960,497.21 for property tax, land rent, land use change and tax liens and \$183,544.70 in interest on tax liens and late payments. Tax bills mailed totaled 17,420 for the two billings. Also mailed were 265 certified notices of impending tax lien, 60 certified notices to mortgagees and 48 certified notices of possible deeding.

Liens were executed and recorded against 115 properties, representing \$325,485.09, in unpaid 2000 property tax (1% of the Tax Warrant). By the close of 2001, this office collected 95% of the full year 2001 tax levy.

In closing, I wish a happy and healthy year to everyone and look forward to continuing to serve the great people of Hampton, a wonderful Town in America, in the greatest country in the world!

Sincerely submitted,

Joyce Sheehan
Tax Collector

When you were born, you cried and the world rejoiced.
Sylvia lived her life in such a manner that when she died
The people of the town cried and she rejoiced.

Old Indian Saying

In Loving Memory – Sylvia B. Moulton
2/17/25 – 4/17/01

⌘ TOWN CLERK'S REPORT 2001 ⌘

We will never forget the feeling of terror as we watched that first plane hit the Twin Towers, and learning that it was not by accident. As we were feeling horror for the passengers and the workers in the tower, we watched the second plane hit! News reports told us about other planes and other locations targeted. Our Country was under attack. In those hours, and days that followed, we as a nation watched wherever we were. As the stories unfolded they enveloped each and everyone until we were inextricably united as a nation.

Events and occurrences, such as these, are so out of the realm of our consciousness that we cannot fathom them ever happening. We tend to divide time into that which occurred before the event and that which happened after. This is a report of that year.

Before. January found us very busy as we started preparing for the annual town meeting. We prepare the ballot for printing and issue absentee ballots for our vacationing residents. It is always a challenge trying to prepare and proof ballots, and get them printed for mailing in the short period of time we have after the First Session of Town Meeting. Somehow it always manages to get it done.

We registered 1,186 dogs in Hampton last year and maintained a file on rabies certificates for every other domestic animal receiving inoculations. April is the month to license dogs, with a grace period through May. Boat registrations continue to climb and we had a record year with over 400 boats registered in Hampton. Revenue from boat taxes stays in the town, and we can do registrations for non-residents also.

After. The resignation of one of State Representatives, Ralph Woekel, brought about a Special Primary Election in October and a Special Election in November. We congratulate Mike O'Neil on his victory.

The day-to-day work continues and even with the economic slowdown, we had a record year as the town continues to grow and vehicles need to be registered. This year we registered almost 20,000 vehicles! In the upcoming months I will need to curtail some of our office hours to meet certain required deadlines. Please bear with us during this period. We plan to close at 4:30 PM to begin to process the day's work and continue the processing before hours in the morning. As soon as the situation allows we will be back on our regular schedule.

My thanks to the residents for your kind words and your consideration throughout the year, and my sincere gratitude to Betty Poliquin, Joyce Williams and Davina Larivee for keeping the office running smoothly.

Respectfully submitted,
Arleen E. Andreozzi, Town Clerk

REPORT FOR THE YEAR ENDING DECEMBER, 2001

Dog Licenses	\$ 5,956.00
Vital Records	2,613.00
Motor Vehicle Permits	2,032,643.00
Title Fees	9,610.00
Municipal Agent Fees	47,006.00
Boat Registrations	10,993.15
UCC Transactions	5,737.97
Miscellaneous Fees	<u>6,898.65</u>
Total Hampton Revenue	\$2,121,457.77

State Revenue Collected at Hampton Clerk's Office

Dog Licenses	\$ 2,626.51
Vital Records	8,840.00
State Registrations/Title	634,780.61
Boat Registrations	<u>12,593.00</u>
Total Deposited/Remitted to State	\$658,840.12

⌘ TREASURER'S REPORT 2001 ⌘

Another successful year for the Town of Hampton has come and gone. With the economy doing well, tax collections proved to be excellent again this year.

After negotiations with three banks, the Town was able to secure a \$4,000,000 Line of Credit with Citizen's Bank with a fixed rate of interest of 4.03%. As a result of conservative fiscal planning and responsibility the Town only borrowed \$1,000,000 through the months of April and May. All monies were repaid on July first with an interest expense of \$5,989.03.

The increase in cash flow to the Town of Hampton meant that we were able to invest our tax dollars for a longer period of time. This resulted in a net investment income of \$169,706.00. We hope that this trend will continue into 2002.

I look forward to a great 2003.

Ellen Lavin, CPA
Town Treasurer

Public Works employees John O'Brien and Jim Norton carefully transport the town clock parts to the town office for safe keeping.

WELFARE DEPARTMENT

This year has been a very busy in the Welfare Office with a steady stream of resident applicants in need.

2001 was the first date that New Hampshire would feel the effect of the Welfare Reform Act's five-year limitation on TANF (Temporary Aid for Needy Families, formerly known as AFDC) recipients. Fortunately, Hampton has not seen any increase in need as a result. The key aspect of the State's Welfare Reform Act is that "able bodied individuals must seek employment". RSA 165 requires the town to assist those in need. The Hampton Community Issues Coalition, through their Hobbs House volunteers help direct residents to the many sources of assistance through the State, town and local agencies, and we appreciate the service that they provide.

Our move to the new town office provided space for a food pantry. This has allowed Hampton to distribute USDA Surplus Food, which has significantly reduced the amount of funds expended on emergency food vouchers. Donations of canned goods, personal care items and cleaning supplies are always appreciated. Residents in need are encouraged to take advantage of this provision.

By the end of November, 2001 approximately 400 welfare vouchers were issued at a cost of \$73,000. Approximately one-half of those vouchers were issued to residents facing eviction, foreclosure or homelessness. Utilities and medical payments account for most of the remaining vouchers issued. These figures are consistent with the last few year's assistance.

Hampton residents are extremely grateful for the services made available to them through the welfare office during their time of need and efforts are always being made to repay the town in the form of money or services. Thank you to all the taxpayers for your contribution towards preventing homelessness and hunger in your town, with a special thank you to the resident that brings food and personal care items for our pantry on a regular basis.

Sincerely,

Candice Colby,
Welfare Clerk

⌘ CEMETERY REPORT ⌘

The year 2001 was busy at the cemetery with 87 burials as of 11-30-01. As always we did our best to help each family get through this difficult process. We wish them the best as they try to get on with life after suffering the loss of a loved one

We would like to thank John Hagen, Frank Swift, and all the people at public works who helped after the March storm, with their assistance we were able to keep the cemetery open and all burials were done on schedule

In April we said goodbye to our friend, and longtime gatekeeper/caretaker Wendell Ring who moved from Hampton we miss him, and wish him all the best in his new endeavors, thanks for all the years of great service Wendell.

In September we said goodbye to another friend when Fred Estey retired after many years of great service as caretaker. Fred will be missed for both his dedication to the job, along with his wit and humor, which helped get us through the stressful times

We would like to thank Roger Syphers of Syphers Monument for the repair and restoration work also the tee shirts he so generously donated to the crew. We also thank Criss Alex of Seacoast memorials for repairing the wall at the Ring Swamp cemetery

Unfortunately we were unable to finish fall cleanup, as much of our budget had to be spent on snow removal over the winter. Hampton operates on one of the smallest cemetery budgets in the state, while we take pride in this, it at times is frustrating not being able to give all the care we would like and why we are so grateful to those who donate their time and efforts to our cause

On a final note as I write this on 11-30-01 I have just learned of the passing of Beatle George Harrison, while I am saddened by the loss of a childhood idol, I take comfort in knowing that those who passed in the 9-11 tragedy along with those who passed in Hampton this year are enjoying great music today –John Lennon has his lead guitarist back at his side. God Bless America!

“I have a song I’ll carry it with me and, I’ll sing it loud, if it gets me nowhere I’ll go there proud” –Jim Croce

Respectfully submitted,

Danny J. Kenney, Cemetery Director

⌘ CONSERVATION COMMISSION ⌘

This year our Commissioners, Ralph Fatello, Dan Gangai, Ellen Goethel, Nancy Olney, Bonnie Thimble, Peter Tilton, Jr., along with alternates Dr. Ralph Falk and Fred Palazzolo, and I reviewed and made recommendations on thirteen NHDES wetlands applications (eight fewer than last year), 27 Special Permit applications (an increase of eight over last year), and fourteen Planning Board referrals (an increase of nine). There has been no change in our membership, but as always, we are anxious to welcome anyone interested in helping protect the Town's natural resources.

Again this year, our Commission has been involved in many projects. The new culvert and self-regulating tide gate at the Brown Avenue/Highland Avenue intersection has been installed. This along with the Charles Street marsh restoration and the cleaning of the swale from the marsh to the culvert, was financed with salt marsh restoration money and many grant dollars. The next restoration site will be in Meadow Pond near Gentian Street. This will be accomplished with last year's salt marsh restoration money and more grant money from U.S. Fish and Wildlife, Ducks Unlimited, and others. In the Fall of 2002, we plan to correct the restriction which has contributed to the deterioration of quite a few acres of salt marsh in that area. The Seabrook Station has donated \$10,000 to match the \$30,000 grant from the NRCS to finance this project. Thanks to the Seabrook Station and the NRCS this \$40,000 project will be accomplished at no cost to the town.

Grant money from the Office of State Planning Coastal Program is funding the survey, the wetland permitting, the engineering design and the signage of a new Island Path educational area. With the matching funds donated by Mr. Foss of Foss Manufacturing, Ellen will be able to obtain additional grant money for the construction project. Here again, with these grants and the gift from Mr. Foss, this project will not cost the taxpayers anything. Ellen is planning to have the facility open for school outings in 2003.

The Victory Garden's 40 plots were all cultivated again this year, with the produce from Mike's Place being donated to local soup kitchens. Bonnie wishes to thank Violette's Flower Shop for its donation of the vegetable plants for Mike's Garden. Bonnie is also pleased to report that the six Johnny Appleseed disease resistant elm trees that were planted last year have all survived and are on their way to becoming beautiful, large elm trees as we once had in Hampton.

It has been over two years since we first became involved in the Eel Creek Stabilization Project. It does seem like a terribly long time, but progress has been made. With the engineering studies having been completed, we now have the best alternative plan to stabilize the banks. We also have a rough estimate of the cost of this project – between \$250,000 and \$300,000. This is a lot of money, but we are confident that coupled with the Rockingham County Conservation District, we will find the money to get this project done.

If you own property near the marsh in the vicinity of Bragg Avenue and Riverview Terrace, you are aware of an old deteriorating dock that was deposited there in a storm event many years ago. As this dock breaks apart it pollutes the marsh, and Spring tides deposit much of the debris on abutters properties. This dock poses a threat of harm to young people who frequent the area during the good weather, not realizing the danger there. Abutters have contributed towards the cost of having it removed, and we are in the process of getting the permits, the machinery, and some able men to remove it.

The marking of conservation land, easements, and buffer boundaries is an ongoing project for us. The Playhouse development buffer, the Foss conservation easement, and others have had their boundaries marked with our disks during the year. Our Commission also joined the Office of State Planning Coastal Program in their Fall beach cleanup.

Many have approached us with their concern that open, green space is slowly but surely disappearing in Hampton. Other than the twelve shares areas, the two farms and a few large parcels on the West side of town, there really isn't much left. From a senior student's open space survey, we found that the majority of residents had similar concerns and wanted to do something about it. Since our Commission has a Conservation Land Fund in place, regulated by the State's RSA's, for the specific purpose of land acquisition of development rights (easements), we are going forward with the task of raising the necessary funds to purchase land to keep as green space for all to enjoy. A subcommittee, the *Hampton Green Space Preservation Committee*, has been formed to head this endeavor. We will show that by spending money to acquire open space, we will actually save future tax dollars. Open green space has no need for additional classrooms, water, upgrade of roads and sewer, additional fire and police protection, etc.. The initial

purchase cost is the *only* cost. Our Commission has been able to accomplish much with the tax dollars you have entrusted to us through the years, projects costing up to five times the money given to us, some at absolutely no cost to the town. Here again we are looking ahead to saving future tax dollars while accomplishing our goal, *the preservation of green space*, to help maintain the quality of life to which we are accustomed.

It has been our pleasure to serve in all these conservation efforts. We would not be able to do so without the continued support of the Town's Selectmen, the various Boards and Commissions, the Town Hall personnel, and our devoted secretary, Sue Launi. We are most grateful for their help and continued support, and look forward to another productive year in 2002.

Sincerely,

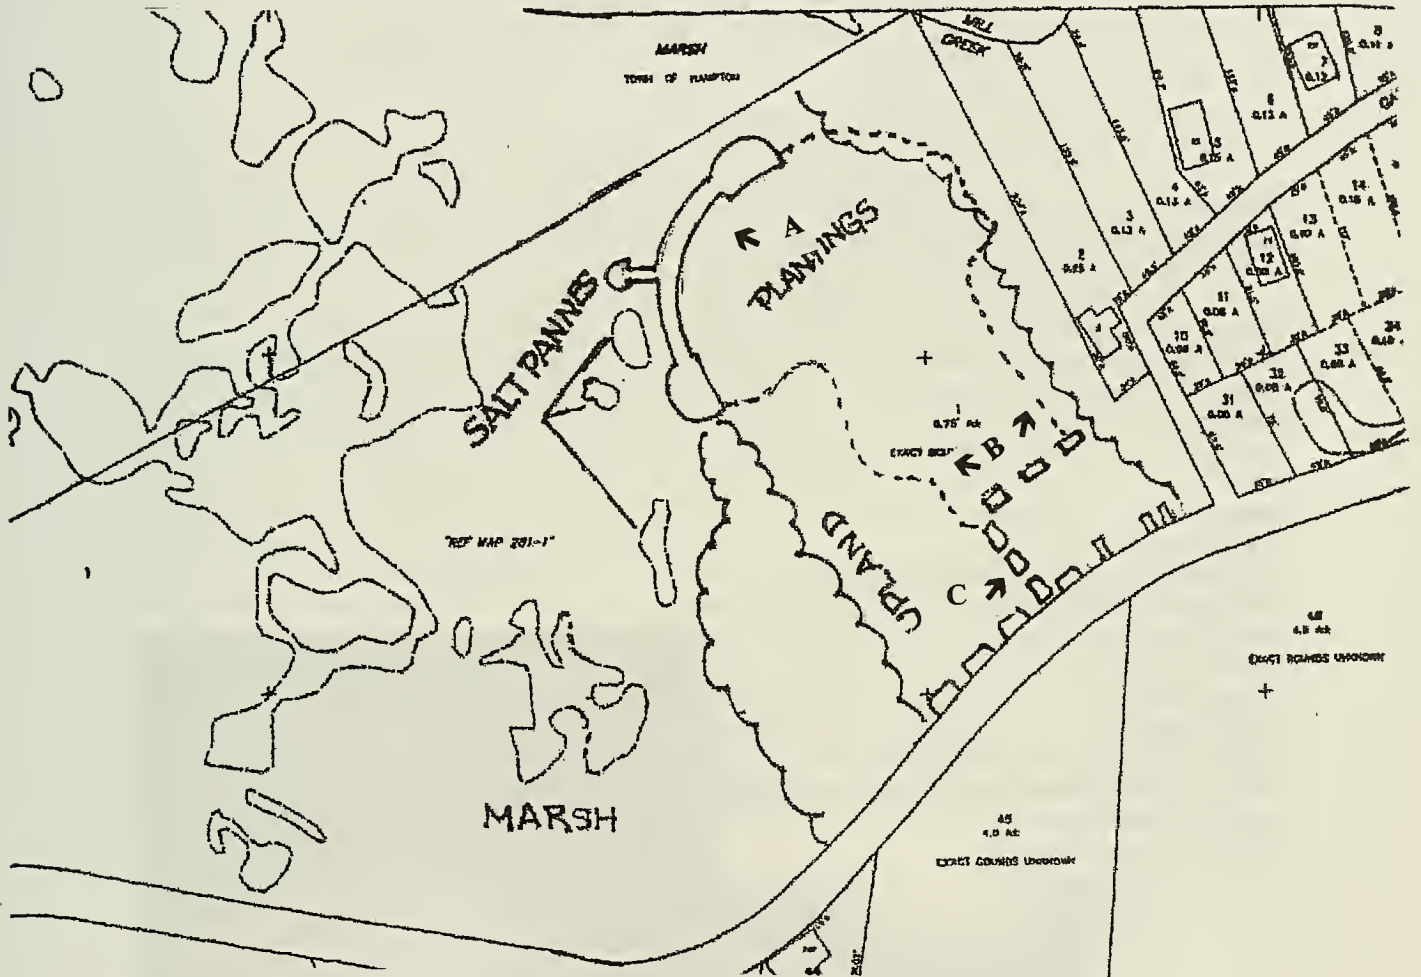

Vivianne Marcotte
Chairperson

The Hampton Conservation Commission was proud to take part in the Coastal Cleanup.
Pictures by Ron Sher

The Island Path Nature Outlook

Located on town land by the Island Path Parking lot, this new education opportunity will consist of a parking area, a gravel path leading to an observation platform where children and adults can see and learn first hand about the amazing marsh. Ellen Goethel is working hard to have this project completed for the 2003 School year. The Conservation Commission appreciates the generosity of Foss Manufacturing and the Office of State Planning in this very worthwhile endeavor.

- B - Walking Paths
- C - Parking Area

⌘REPORT OF THE HERITAGE COMMISSION⌘

The Heritage Commission continued its efforts to stabilize and make necessary repairs on the Godfrey Blacksmith Shop on Barbour Road. Working within the budget, we were able to make repairs to the roof and the floor of the east end, so that a person may now walk across that section.

The Commission presented the second set of preservation awards in May at a Selectmen's Meeting. The honorees this year were as follows:

Heritage Award for Individual Achievement – Irene and Ansell Palmer

Heritage Education Award – The James House Education Committee, Lori Cotter and Joe Chencus, Chairmen

Heritage Preservation Award – Geary Hurd

The Pine Grove Cemetery continued to be an area of interest for the Commission. The guidebook published last year in cooperation with Boy Scout Troop 177 proved to be so popular that it was sold out and has been reprinted. Donations to an "adopt-a-gravestone" project have enabled repairs to be made to some of the damaged monuments. We hope to be able to continue this work.

The Commission reviewed a number of demolition permits for buildings over 50 years old. We feel that this review process has given us a perspective on what buildings are disappearing from the townscape and a chance to study them before demolition, if warranted. The owners of one house generously allowed Commission members to study and to photograph some of the construction details before the house was removed.

Members of the Commission:

Elizabeth Aykroyd, Chairman
Brian Warburton, Selectmen's Representative
Maryanne McAden, Secretary
Stephen MacInnes
Sharon Mullen
Daniel Nersesian
Roger Syphers
Arleen Androozzi, Town Clerk
Bonnie Thimble, Conservation Commission Liaison
Patrick Collins, Alternate
Bruce Nickerson, Alternate
Fred Rice, Alternate

⌘ HAMPTON HIGHWAY SAFETY COMMITTEE ⌘

As technology advances, we cannot help but find that some of our modern conveniences also pose a direct threat to our well being. In its annual message to the Town of Hampton, your Highway Safety Committee issues this warning for drivers with cell phones.

The danger is growing – The prospect of 20 million drivers having the opportunity to place, receive or handle a telephone call while driving is not something easily ignored. This problem has grown during the past 10 years. Now, almost 116 million cell subscribers live in the United States, and 85 percent of these subscribers use their cell phones while on the road. Results of a recent survey, released this spring, shows 87 percent of adult respondents reported that using a cell phone while driving impairs a person's ability to drive safely. What's more, 2 percent of the respondents said they had been in a crash in which one or more of the drivers was using a cell phone, and more than 40 percent, or 2 out of 5, reported experiencing "close calls" or near-misses with a driver who was "on the phone". Last year there were 4,300 vehicle crashes a day attributed to "driver inattention". Crashes caused by cell phone distraction typically fall into this category. The worst part is, that a crash is 9 times more likely to be fatal if the driver is using a cell phone at the time of the crash.

The New England Journal of Medicine has found that the odds of a collision when the driver is using a cell phone are the same odds as when the driver is drunk. And while we tend to support strong penalties for those who are caught driving drunk, these strong repercussions are, for the most part, lacking when we catch those who put others at-risk by using cell phones while driving.

In an open message to Governor Jeanne Shaheen, the Highway Safety Committee has urged her to see that New Hampshire follows the State of New York by considering legislation similar to the bill passed by their legislature on June 26 that would ban driving while using a cell phone. While the use of "hands-free" equipment may remove some of the physical distraction of placing and receiving calls, research shows that it has little effect on the risks involved. Conversation itself is a risky behavior. We must generate the self-restraint necessary to hang up the phone while driving. After all, we survived for many, many years without the ability to use cell phones from our cars, now the question is, can we survive with them. Remember, no one has a right to put others at risk.

This year the Highway Safety Committee was very busy reviewing the existing town highway ordinances to insure that the existing traffic signs are supported by the required ordinance. One neighborhood was discovered to have had several stop signs installed that had not been recommended and were not supported by an ordinance. After a public hearing and several discussions, the Board of Selectmen added the appropriate ordinances. Residents are reminded that RSA 236:6 states that the erection of traffic signs by anyone other than a town designated official, is guilty of a misdemeanor. The Highway Safety Committee carefully reviewed a request to consider making Hackett Lane and Moore Avenue one-way streets and no change was recommended. For safety purposes, several areas were designated for no parking or parking only during specified times.

The Historical Society hosted the profile Automobile League Antique Auto show on the grounds of the Tuck Museum.

⌘HAMPTON HISTORICAL SOCIETY- TUCK MUSEUM⌘

Interested in history? If you are, you live in the right area. Hampton, founded in 1638, was one of the first four towns settled in New Hampshire. Documents dating back to the 1700's, photographs and artifacts relating to Hampton and the surrounding area can be found at the Tuck Museum. The museum is located at 40 Park Avenue, at the entrance to Tuck Field.

The Hampton Historical Society, in addition to operating four museum buildings, offers programs and events throughout the year. In May the Profile Automobile League held an antique auto show on the museum grounds. Each year the museum's summer season is celebrated with a community open house. This year the museum featured a new exhibit "Childhood in Early Hampton". Our Fire Museum was spotlighted in July, and the 1850s one room district schoolhouse held class in August. A traditional potluck dinner with a program on the history of aviation in Hampton was our October annual meeting. In December the holiday season was started with a members' open house given by the board of directors

This summer the museum had over 450 visitors from all over the US and Canada. We offer genealogical assistance and general research along with personalized tours to children's groups and community clubs. School programs reached over 600 students from the local area.

The care and preservation of the collection, educational programs, public outreach and research is done through the support of our 400 members, as we receive no town or outside funds. If you would like to know more about the Hampton Historical Society and Tuck Museum and what we do, you can visit the museum on Wednesdays from 9am to noon or Sunday afternoons from 1-4PM, call 929-0781 to set up an appointment, or e-mail us hhs@nh.ultranet.com. Our programs and events for the coming year cover a variety of topics - clothing, music, wine tasting, witchcraft, cemeteries, and local schools.

Supporting the Tuck Museum and Hampton Historical Society is a way to help save our rich history and keep the museum thriving as a community resource. The museum strives to reflect local interests. Membership is open to anyone interested in Hampton's history, the cost is \$15 for an individual, \$25 per family, and \$5 for those 65 years and older.

⌘ LANE MEMORIAL LIBRARY ⌘

The Lane Memorial Library has successfully navigated 2001, its first full year under the new organization of four departments working together as a team. TEAM means Together Everyone Achieves More. The library's goal for 2001 was improvement of Customer Service. Everyone worked towards that goal with suggestions on ways to improve service. In response to requests for longer circulating videos, staff pulled existing two week videos from the shelves and displayed them on a special rack. Staff initiated a new method of dealing with the great numbers of people wanting to use the computers in the summer, and began a new method of dealing with paper for printing items from a public computer. In response to requests for more hours, a trial period of extending evening hours two nights a week was begun in November. Staff development included various staff attending local, state, and national library meetings; participating in local adult education courses as well as utilizing online sessions, and inviting speakers to monthly staff meetings on topics such as dealing with young adults and wellness. Staff development for 2001 culminated in November with setting additional library goals for 2002.

Adult Services is in charge of the upstairs circulating collection. Its budget buys new books, videos, books on tape, books on CD and music CD's. Jeanne Gamage and her staff of Barbara Chapman, Sandra Kent, Elli Cyr, and Mary Twomey greet you, check your materials in and out, and direct you to computers, bathroom keys, and to the Reference Department for further assistance. Jeanne coordinates with the library departments to schedule programs of interest to all age groups. The year started with her coordinating with the Town Parks and Recreation department for a Winter Camping program. She continued to coordinate with other town groups such as the Garden Club and the Public Works Department to bring several programs on gardening, tool sharpening, pruning and a source of low cost compost bins. Local authors Jerry McConnell, Dusty Bunker, Virginia Taylor, and Emily Moore were scheduled to speak about writing and being published. The art displays by the Seacoast Art Association and the Hampton Academy 6th grade are coordinated through Adult Services. Two new craft projects offered to the public, a cranberry pineapple and paper cutting for the holidays, were extremely popular. Programs are advertised in the local papers and on our web site. The library is open to suggestions for programs of interest to you; call Jeanne at 926-3368.

Children's Services, in charge of all children's and young adult fiction, has broken a record this year! Cindy Stosse's goal, almost from the time she was hired, was to prove that children's circulation could beat adult circulation. Children's circulation reached 51.69% in October! During the year Cindy and her staff of Joanne Mulready and Lynda Miller, with assistance from Mary Twomey, delivered children's story times and special programs such as a Patriotic Party, Worm Races, Pajama Story Times, and the new Children's Birthday Book Club, as well as a repeat of the very popular Polar Express party. Throughout the year Cindy has been examining the collection in Katie's Room (named in honor of former longtime trustee Katie Anderson). She has weeded out worn, dated, little used materials and replaced and upgraded them. Puppets continue to be a popular circulating item along with some new paperback series. It is not unusual to find a contingent of parents camped out in the Children's Room while a child is in story time. A parenting collection offers materials right there so parents don't have to pull little ones along as they check the upstairs collection. A new teacher's section was added to provide assistance for teachers, parents, and care givers. The summer reading program, Octopi Your Mind proved popular and participants were entertained by speakers and performers such as the Sea Shanty Singers. This summer's greatest reading incentive was the raffle prize provided by Walmart, a children's bicycle!

Reference Services underwent another transition this year. Joanne Straight left us for a similar position in New Bern, North Carolina, much to our chagrin. Joanne was a valuable member of the Lane Library staff for over ten years and we hated to see her leave. While we searched for a replacement, interim coverage was provided by remaining department heads, exemplifying the TEAM concept. We are pleased to have hired Stan Olson away from the Reference Desk at PEOPLE Magazine. Stan is originally from Massachusetts so he isn't a stranger to the area. He and Alice Alford are the core of the Reference Department with Bill Teschek taking a shift and Jeanne Gamage and myself covering lunches and sick days. Reference has taken over the responsibility of searching for interlibrary loan materials, so if you need material we don't own, ask the Reference Staff to get the book on loan. (If what you're looking for is new and apt to be popular, see Jeanne Gamage in Adult Services to request that the library buy the item. If the requested item fits into our collection development plan and we decide to purchase it, you will be the first

on the list to receive it with a special bookmark - We bought this book for YOU!) Bill and Alice have been coaching Stan on our newspaper indexing project and all three of them are working in less busy times to try to catch up on that. If you need to find a story that was recently in the local papers, check our web site www.hampton.lib.nh.us for a link to the indexing project. Stan and Bill coordinate efforts to keep our reference page on our web site up to date with current material.

Technical Services is our smallest department consisting of Bill Teschek and Jean Keefe. Bill is our webmaster and technical expert, maintaining 35 computers and the library's web site, while Jean catalogs and processes all the materials obtained by the library. Without these two people, the library would be back in the dark ages where materials would be numbered in the order acquired and kept in strict numerical sequence, regardless of subject. Access to information would be dependent on someone knowing what each book was about and remembering its number! With Bill and Jean's expertise, everything in the library has its unique place and is listed in several ways for people to find it. Books and other materials of similar content are shelved together, making research on any topic easier. Need to fix an appliance? Jean's cataloging will have given the book its unique number, and Bill's technical skills will have linked that record to our automated card catalog so you can find it. Bill offers free classes on computer topics, both before we open in the morning and after we close in the evening. Call Bill at 926-3368 for more information on what courses he offers.

Volunteer Services enables the library to function and enhances services to the public. Regularly scheduled volunteers appear daily to reshelve books, mend materials, sort donations, organize materials, prepare new books for circulation, reshelve new items, place back issues of periodicals and newspapers in storage and help us in many other ways. We couldn't do it without them. Our volunteer extraordinaire, Arlene Farrell, has decided to finally retire after many years of service to the Lane Memorial Library, (the exact number of years she wouldn't admit to, but we know it's more than thirty!) She is also known in the community for her many years of substitute teaching and her ongoing sewing business. She leaves a legacy of service that will be hard to beat, but John Holman is trying. Arlene has longevity, but John has endurance. He spends hours daily putting historical information on our web site, making it the envy of most libraries around the state, if not around the country! If you too would like to make a difference, stop in and see Jeanne Gamage, Head of Adult Services, for a volunteer application.

Respectfully Submitted,
Catherine Redden,
Director

Trustees Report

Mary Lou O'Connor, Chairperson, Barbara Rallis, Treasurer, Sara Cassassa, Secretary, Judith Geller and Lenore Patton assisted by Trustee Alternates Betty Lavallee and Carol Russell serve as your Lane Memorial Library Board of Trustees.

As your trustees, "we represent the community to the library and the library to the community". The Board of Trustees meet with Director Catherine Redden on the second Thursday of each month at 6 p.m. at the Lane Memorial Library. Together we address library policy, budget, building facility, operation and services. In addition to meeting monthly, while recognizing the changing needs of our community, we work on committees in the areas of personnel, building, fund-raising and the Friends of the Library. This year we offer to you extended library hours. Wednesday and Thursday evenings we are open until 9 pm. It is the hope of the board that the library serves to enhance and support the reading and information needs of library patrons of all ages. On behalf of the trustees, we want to thank the town's people of Hampton for the opportunity to serve. We welcome all who are interested in getting involved to join our Friends of the Library group.

Respectfully submitted,
Mary Lou O'Connor, Chairperson

⌘ LEASED LAND REAL ESTATE COMMISSION ⌘

During 2001, the Commission established by Special Act of the State Legislature (Chapter 3, Laws of 1983), approved the cash sales for two of the leased, Town-owned lots of land at the beach. There were no formal public hearings for setting the sales price as both lessees accepted the valuation of the Town Assessor. The two approved sales, with street address, lot size in square feet, zoning district and fair market value (set at time of sale), were:

11 J Street	5,263 sq. ft.	Business Seasonal District	\$76,000
18 Ancient Highway	3,667 sq. ft.	Residence A District	\$155,000

These proceeds are deposited into the Real Estate Trust Fund whose investment income each year reduces the assessed property tax rate. The principal of the fund cannot be spent.

Under the Leased Land Sales Program of 1982, all but 54 of the original 650 lots have been sold to the lessees thereof; all but five of the remaining parcels are in the south beach area.

Under the responsibility of implementing and monitoring the sales program, the Commission during 2001, was not asked to adjudicate any other matter (e.g., boundary disputes, duration of leases). The Commission continued to receive commendable staff support from Deputy Assessor Angela S. Boucher at the Town Office Building.

Glyn P. Eastman, Chairman
Arthur J. Moody, Clerk
Raymond E. Alie

John F. Woodburn

An unknown photographer watches the angry ocean during a March, 2001 storm.

⌘ MOSQUITO CONTROL COMMISSION ⌘

The Hampton Mosquito Control Commission acts as the Town's liaison with our pest control contractor, Municipal Pest Management of York, Maine. The majority of our mosquito control is done through larvaciding, trying to kill mosquitoes while still in the larvae stage. Additional control of adult mosquitoes is done by truck spraying. This method is less effective, yet more expensive. Only insects that actually come in contact with the pesticide are killed; there is no "residual effect". In addition, truck spraying is heavily regulated by the state.

The summer of 2001 was one of the worst many can remember for mosquitoes. After an extremely dry spring, our contractor was very optimistic about our prospects for controlling mosquitoes last summer, but things changed quickly in mid June when we began to experience more normal levels of rainfall. The northeast section of town was particularly hard hit. Restoration of the Little River salt marsh in North Hampton resulted in new mosquito breeding habitats being created. North Hampton has not had a formal mosquito control program for many years, but they did fund some fresh water larvaciding last year. We have written to the North Hampton town officials asking them to consider saltwater larvaciding treatment as well this year, and the Rye Mosquito Commission has made a similar request because mosquitoes are also migrating into Rye from this salt marsh. In late summer, a dead crow was discovered in Hampton that tested positive for West Nile virus. Mosquitoes in Dover and Salem also tested positive.

In an effort to minimize the threat of West Nile virus, we will be introducing a Catch Basin Larvaciding program in Hampton (contingent upon passage of the Town Operating Budget at Town Meeting). This program will test all catch basins in town periodically for evidence of mosquito breeding activity. Those that are found to contain mosquito larvae will be treated with a chemical that temporarily alters the surface tension of the water in the basin, so the larvae drown. We have also increased the amount budgeted for truck spraying. In response to a number of inquiries from residents in newer developments in Town as to whether the developments are included in our contractor's truck spraying routes, we will be displaying maps in the Town Office building during the winter months showing all streets currently being treated. Residents of streets not listed can inform us and the street(s) will be added this season.

If you have any questions or comments concerning mosquito control, please contact one of the Commission members: Jean McGee (926-5350), Warren Leavitt (929-3755), or John Skumin (926-5155); or e-mail to hamptonbugboard@hotmail.com.

Respectfully submitted,

John Skumin, Chairman

Mosquito Life Cycle

⌘ PLANNING BOARD ⌘

The year 2001 was another busy one for the Planning Board. The composition of the Planning Board did not change with the March election. Members Cliff Pratt and Keith Lessard were both re-elected for 3-year terms each. The Board reorganized slightly by electing member Bob Viviano as Vice-Chair, and re-electing Sharleene Hurst the Clerk and the writer elected Chair. The Board also re-appointed Sandy Buck as alternate.

The Board did experience some changes during the year. Long-time Administrative Assistant, Janet Perkins, left her position in May. The Board appreciates her dedication and service to the community. With Janet moving on, the Board was pleased to hire Maryann Brickett of Hampton as its new Administrative Assistant. Maryann brings experience to the Board as she is also currently employed as the Executive Assistant to the Rockingham County Commissioners. During the transition period, Janet stayed on to help provide back up and has also helped in a pinch when the Board asked for assistance.

In addition, the Board had the unfortunate task of accepting the resignation of long-time member, Cliff Pratt in October. Due to changes with his work schedule, Cliff reluctantly had to step down from both the Planning Board and the Rockingham County Planning Commission. The Board wants to thank Cliff for his loyal and dedicated service for the past 8 years.

The Board was pleased to formally adopt the Hampton Beach Area Master Plan as an amendment to the Town's Master Plan in November. The Plan was written by the Boston-based planning firm, The Cecil Group. Steve Cecil, principal, led the 26-member steering committee through a year-and-a-half long process of meetings, hearings, workshops, site walks, public comments, etc. The Planning Board would like to thank the State, Town and many individuals that participated in the planning process. The Board anticipates participating in the initial implementation steps during 2002.

During 2001, the Board approved 9 subdivision applications, adding 11 new lots. The Board also approved 9 minor lot line adjustments and 11 site plans, which included 36 condominium units and 115 apartments. Under Site Plan Review, the Board approved a 554,200 square foot addition to the Foss Manufacturing site, the single-largest project in several years. The Board also heard and reviewed 12 use changes, 20 special permits and 1 condominium conversion. With the help of the full-time Planner, Jennifer Kimball, and the Building Inspector, Kevin Schultz, the Board is able to better monitor these projects after their approval and into the construction phase.

The Planning Board generally meets on the first and third Wednesdays of each month, with additional evenings when warranted. Please contact the Planning Office for more information. We look forward to working with you in 2002.

Respectfully submitted

Thomas J. Gillick, Jr.,
Chairman

⌘ PLANNING OFFICE ⌘

The close of 2001 completes the first full year of the Hampton Planning Office. The Planning Office, formally established in September 2000, with the hiring of Hampton's first full-time planner, houses the Town Planner and Project Impact Coordinator, as well as Planning Board activities. As the Town Planner, I serve as the liaison between the Planning Board and the public, helping landowners understand the regulations for development, and abutters to projects understand potential impacts. In addition, I work with the Town Departments and Town Manager to ensure projects approved by the Planning Board are developed as planned. The Planning Office also works with the various departments and Boards on code and regulation development.

Outside of Planning Board activities, I oversee three grant projects for the Town. The first is a New Hampshire Coastal Program Grant that was used to develop the Hampton Beach Area Master Plan. In November 2001, the Planning Board unanimously adopted the plan as an amendment to the Town's existing Master Plan. The plan is the product of a cooperative effort over the past 1½ years between the Town, the State (DRED) Parks and Recreation Division, the New Hampshire Coastal Program, the Cecil Group, the committee members, the Town department heads, several State agencies, and various elected officials. In addition, the Committee held numerous public meetings and workshops to solicit input from the public-at-large. The next phase of this process is to implement the short-term recommendations of the plan, as well as establish a management entity to oversee the implementation of the plan over the next 50 years.

The second major project on which I am working is a Federal Emergency Management Agency (FEMA) Flood Mitigation Assistance (FMA) grant to reduce the impacts of flooding. The Town's Flood Mitigation Plan identifies key areas that are subject to flooding, and FEMA has identified several properties that are "repetitive loss" structures. These are structures that have had 2 or more flood insurance claims within a ten-year period. One area designated in the Town's plan and identified by FEMA is the "Island Area" located east of Ocean Boulevard and North of the Hampton State Park. By the year's end, the Town will interview engineering firms for potential hire to design plans that minimize the impacts of flooding in this area of Town. Once these plans are developed, the grant monies will be used to fund the construction of one or more projects. This project runs until September 2003. One advantage of this funding source is that the Town may apply for subsequent grants for other projects.

The third project grant which I am overseeing is the Project Impact grant. This is an exciting opportunity for the Town of Hampton. We have received \$150,000 from FEMA to "build a disaster resistant community." The Town has hired Colleen Giordano to spearhead the 2-year project. We are working on developing an All-Hazard Mitigation Plan to build upon the Town's Flood Mitigation Plan. Other hazards such as Fire, Wind, Hazardous Materials, Terrorism, etc. will be covered. The focus of this plan is to identify specific risks to the Town and develop a plan of action to mitigate these risks. In addition, we will develop a Hazard Mitigation Website to keep the Town's residents and visitors aware of and up to date on hazard mitigation and emergency procedures. Another project this grant will cover is drainage work in the Bonair – Acadia – Winnacunnet neighborhood. Some of Colleen's challenges are to sign up community partners to help in this effort, to find additional sources of funding to continue mitigation efforts after the initial 2-year period, and help the public learn about and understand current and future mitigation efforts. The Planning Office is working closely with the Police, Fire and Public Works Departments, as well as the Schools and other community organizations on this multifaceted project.

The Planning Office is looking forward to 2002 and excited to work with the Town on these Mitigation Projects. In addition, I welcome questions and comments regarding planning, development and Town regulations. I want to thank the Board of Selectmen, Town Committees and Departments and especially the Town Manager and Planning Board for making this first year a success.

Respectfully submitted,

Jennifer A. B. Kimball

⌘ PROJECT IMPACT ⌘

The Town of Hampton is proud to have been awarded the opportunity to be a Project Impact community. This recognition has provided us with the funds and support to help Hampton become a “Disaster Resistant” community. As part of this grant program, the town has hired Colleen Giordano as a consultant to coordinate our Project Impact activities and projects. Colleen works closely with our Town Planner, Jennifer Kimball, and will be developing an All-Hazard Mitigation Plan to identify the risks specific to Hampton and develop a plan of action to mitigate the risks. Colleen has developed a webpage that will keep residents and visitors aware of emergency procedures and the ongoing projects. Check her page out at www.town.hampton.nh.us.

Town Planner Jennifer Kimball has welcomed the assistance of the Project Impact Coordinator Colleen Giordano.

⌘ SUPERVISORS OF THE CHECKLIST ⌘

The three Supervisors of the Checklist, Charlotte Preston, Marilyn Henderson & Judy Dubois had a very full schedule during the year 2001. Betty Moore, a former Supervisor, will continue to fill in as a Supervisor during especially busy elections and in the event that one of the Supervisors would be unable to attend a registration session or election. Supervisors of the Checklist maintain the voter checklist for the Town of Hampton, specifically, they hold sessions to register new voters and make any necessary name and address changes. They are present at all elections, registering new voters/changes on site. They inform other towns by mail that voters are now registered in this town and should be deleted from that town's list. They delete all voters who have moved to other towns after notification from the new town, and, after each election, they give credit through computer data entry to the most recent date of vote for each person who has voted. In the case of the past Presidential Election, over 7,000 voter records were updated.

Although, there were no general State or Presidential elections, the year 2001 was the "Purge" year as mandated by the State of New Hampshire. A purge or clean-up of the voter checklist takes place every ten years where names of voters are purged if there has been no activity for a period of two years (the last two years of the decade) and the individual has not voted in a town, general, primary or presidential election within that time frame. There were 3,264 letters hand addressed and sent out informing the addressees of the need to re-register or be removed from the town voter checklist. Almost the same amount was returned by the US Postal Service. Those names were then individually removed from the computer. If you were wondering why, so many non-active voters would still be on the list, there are several reasons as to what causes those names to remain on a checklist until the purge. Towns outside of New England, for the most part, do not notify New England towns of new voters. By law, no voter can be removed from the list unless official notification from another town is received or notification of death. That is why the list is so carefully purged every ten years. Prior to the purge, which began in June of 2001 there were over 13,000 registered voters in the Town of Hampton. On August 31st, the purge of the checklist was completed with a total of 9,165 voters in the Town of Hampton. The grand totals by party were as follows: 2,379 Democrats (25.96%); 2,787 Republicans (30.41%); and Undeclared (43.63%).

There was also an unanticipated election with the sudden resignation of Representative Woekel. As there was more than one candidate per party running for the seat, a primary was held in October of 2001 and the election for State Representative was held one month later.

After the tragic days surrounding September 11th, we hope that no citizen will ever take the right to vote for granted and that they will continuously exercise that right and responsibility. Our goal as Supervisors is to make the voting process as convenient and as pleasurable as possible.

Sincerely,

Charlotte Preston, Chairman
Judy DuBois
Marilyn DuBois Henderson

⌘ TRUSTEES OF THE TRUST FUNDS ⌘

The Board of Trustees is responsible for over \$15.3 million in trust funds and capital reserve funds (CRF). The long-standing investment policy of the Trustees centers the portfolio in bank CD's, U.S. Government notes and bonds, and Federal "Agency" securities. Thus, no funds were lost due to the 2000-2001 equity stock market turbulence. However, the Federal Reserve's continuous lowering of the Federal Funds Rate in 2001 - - - first, in response to a contracting economy, and more aggressively in the aftermath of September 11, 2001 - - - has begun to affect the annual income from investments that mainly reduces the property tax rate. As the Trustees "went out" up to five years on some investments, the significant downward spiral in the interest rates will not be fully realized until those securities mature and reinvestment of the principal amounts occurs. The Trustees are dealing with the lowest interest rates in nearly fifty years as well as the U.S. Treasury Department's announced elimination of certain notes/securities (although those decisions came before September 11th under a budget – surplus situation). For detailed results for all trust funds and CRF's in 2001, see the accompanying financial chart, generated in late January, 2002 after the independent town audit.

The Real Estate Trust Fund's principal amount has grown to \$14 million (cost basis); there are 54 (of the original 650) Town lots to be sold to their lessees and 12 (of over 100) Town mortgages yet to be paid off. Sales, including mortgage payments go into the Real Estate Trust Fund, per Special State Legislation in 1983. Banknorth Investment Management Group, formerly the Stratvest Group continues to handle the management of the RETF (under Trustees' Investment Guidelines of the three-year contract) from their offices at Bank of New Hampshire in Concord.

The Trustees manage the smaller and older trust funds and capital reserve funds. These are: Cemetery Perpetual Care (71 individual trusts); the Cemetery Burial Trust Fund; Lane Memorial Library trusts (except one held and managed by Library Trustees); "Poor" trusts; the "Soup" Campbell Children's Sports Scholarship Fund; Town Computer/MIS/Technology CRF; Town Roads Reconstruction CRF; Hampton Beach Village District/ "Precinct" Capital Expenditures CRF; HBVD Fire Apparatus Replacement CRF.

Arthur J. Moody, Administrative Coordinator

USS HAMPTON (SSN 767) ANNUAL REPORT 2001

The USS HAMPTON (SSN 767), the Town namesake nuclear attack submarine, had an extremely busy year during 2001. USS HAMPTON had been deployed and at sea for over 260 days during the past calendar year.

In January, the USS HAMPTON began a six-month deployment in areas of the North Atlantic Ocean and even north of the Arctic Circle. The HAMPTON conducted independent submarine operations, missions assigned exclusively to submarines because of their stealth and endurance. During the first four months of deployment, HAMPTON ran submerged for all but one week. USS HAMPTON visited ports in Tromso, Norway; Bergen, Norway; Portsmouth, England; and Faslane, Scotland.

Cdr. John L. Lovering, Commanding officer, proudly briefed COMSUBLANT of their deployment following the safe return of the boat to Norfolk, VA. USS HAMPTON received more than 60 awards recognizing their deployment efforts, including 26 medals. Following her return, HAMPTON was assigned Chief of Naval Operations tests to conduct. Another assignment given the HAMPTON, because of her reputation, was to host training activities and conduct demonstrations for future submarine commanding officers.

On December 3rd, the Town of Hampton Selectman signed a Proclamation of support, encouragement and appreciation to the Commander and the crew of the USS HAMPTON. The Proclamation arrived the day of the ship's Christmas party and Cdr. Lovering was able to read it aloud to the crew. He reported "It was a wonderful contribution to a joyous occasion!" Currently, HAMPTON is conducting an upkeep and maintenance period that will last the first few months of 2001. USS HAMPTON continues to earn a superior reputation and is one of best, if not the best, submarine in the Atlantic Fleet.

In these times of unrest, it is good to remember the motto of the USS HAMPTON:

"Those who desire peace prepare for war"

Respectfully submitted,
Edward 'Sandy' Buck, Chairman

These photos by Commander John L. Lovering, USN show the USS HAMPTON (SSN 767) in Haakonsvern, Norway, and a sunrise somewhere in the North Atlantic from the USS HAMPTON periscope. Any one desiring to send well wishes to the Commander and Crew of the USS HAMPTON may do so at the following address:

⌘ ZONING BOARD OF ADJUSTMENT ⌘

Under the broad umbrella of “Planning and Land Use Regulation,” the New Hampshire Legislature has enacted close to four hundred pages of laws, which enable, define and direct the way cities and towns implement local boards and ordinances for virtually every aspect of land use. In most communities, the most visible evidence consists of Planning and Zoning Boards. The Zoning Board of Adjustment is a quasi-judicial body which has three primary roles in its scope of powers granted by the Legislature.

- Hear appeals from property owners seeking a **variance** from the provisions of the local zoning ordinance.
- Hear appeals from property owners seeking a **special exception** as provided in the ordinance.
- Hear appeals from “...any person aggrieved or by any officer, department, board, or bureau of the municipality affected by...any **administrative decision** of the ... Building Inspector).”

A **variance** is needed when a property owner cannot meet specific requirements of the ordinance such as lot size, setbacks, maximum height, etc. A variance is also needed when a particular use is prohibited or not enumerated in Article III, Use Regulations.

Though often confused with a variance, a special exception is quite different. While a variance deals with uses specifically prohibited, a **special exception** addresses uses which are permitted but the citizens have determined should have oversight by the Zoning Board and, in most cases, site plan review by the Planning Board. An example of this sort of use is a sand or gravel pit. Its impact in a business or industrial zone is generally less intrusive than it might be in any other. Since each case is unique, however, the ordinance specifies the special exception process.

Though an appeal of a Planning Board decision may come before the Zoning Board, in most cases an appeal from an **administrative decision** involves the Building Inspector. As an example, the Board may allow a variance for something less than the required sideline setback required by the ordinance. Upon site inspection, assume the Building Inspector discovers the property lines do not accommodate the variance granted and denies a building permit. If his administrative decision is appealed to the Board, it would be upheld because the Board had relied upon erroneous information supplied by the petitioner.

The whole aspect of zoning as it applies to variances in general and the longstanding “unnecessary hardship” provision in particular was drastically changed January 29, 2001, when the NH Supreme Court issued a landmark decision in the case of *Simplex Technologies, Inc. v. Town of Newington*. In a dramatic reversal of its prior positions (supported by very extensive case law), the Court issued the following statement:

“We believe our definition of unnecessary hardship has become too restrictive in light of the constitutional protections by which it must be tempered. In consideration of these protections, therefore, we depart today from the restrictive approach that has defined unnecessary hardship and adopt an approach more considerate of the constitutional right to enjoy property.”

The long-range impact of this decision is still unknown. Zoning boards and land use attorneys are both finding more homework necessary when dealing with this new standard.

The Board has also recently received the draft version of the **Hampton Beach Area Master Plan**. This presents an interesting dilemma: if the plan is adopted and the requisite zoning changes are implemented, much of the current ordinance as it applies to the beach area will change. In the meantime, the Board is already considering a very large project unlike any other we have seen. It will have a substantial impact on the beach area and in many instances, but not all, seems to meet a number of the aims of the new master plan. Under the current ordinance, however, it will require multiple substantive variances in order to be built.

This happens to be case number 79 of the 80 which came before the Board in 2001, making our Board one of the busiest in the state. The Master Plan cites the factual information from our records indicating that "Overall, there appears to be a significant number of variances granted in the project area relative to the amount of denied variances..." Significantly, and precisely to the point, the Plan continues with the observation "This indicates that there has been a mismatch between the properties and uses at the Beach and the regulations that control them." This is part of the dilemma cited in the preceding paragraph.

Finally, any matters which come before the Board are governed by strict statutory time limits. If you have a project requiring action by the Board, we are fortunate to have a capable and user-friendly Building Department staff that can assist you with all the details. We further suggest that you talk with abutters and neighbors so that there are no surprises at the hearing. Attendance at a meeting or watching the proceedings on Channel 22 will help you anticipate the process and questions you may encounter.

Sincerely,
Curtis G. McCrady, Chairman

Police Captain Jamie Sullivan is bundled up and monitoring the frigid temperature at the Penguin Plunge to benefit the Special Olympics, February, 2001.

***WELCOME TO THESE NEW
EMPLOYEES OF THE TOWN OF HAMPTON***

Robert Sperry,

IN RECOGNITION

The Town of Hampton would like to recognize the following Town employees who have retired from Town service this year. The Town of Hampton has been extremely fortunate to have such loyal, dedicated and talented employees. They will be missed both professionally and as friends.

Anthony Chouinard, Deputy Fire Chief
Thirty one years of service

Jeffrey Bailargeon, Firefighter
Seventeen years of service

Deputy Chouinard in command at the 707 Ocean Boulevard fire.

**TOWN OF HAMPTON
NEW HAMPSHIRE**

**TOWN WARRANT
&
TOWN BUDGET**

2002

***As amended at the Deliberative Session of February 2, 2002**

**TOWN OF HAMPTON
STATE OF NEW HAMPSHIRE
2002 TOWN WARRANT**

To the Inhabitants of the Town of Hampton, in the County of Rockingham, and State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to meet at eight-thirty o'clock in the forenoon in the auditorium at Winnacunnet High School on Saturday, February 2, 2002 for the first session on the Annual Town Meeting for the transaction of all business other than voting by official ballot.

In accordance with the action in Article 14 in the 1996 Town Warrant (pursuant to RSA 40:13) the second session of the Annual Meeting to elect officers by official ballot, to vote on questions required by law to be inserted on said official ballot, shall be held on Tuesday, March 12, 2002 at seven o'clock in the forenoon at the Marston School, Marston Way. The polls will not close before eight o'clock in the evening.

ARTICLE 1

To choose by non-partisan ballot: One (1) Moderator for Two Years; Two (2) Selectmen for Three Years; One (1) Treasurer for Three Years; One (1) Supervisor of the Checklist for Six (6) Years; One (1) Trustee of the Trust Funds for Three Years; Two (2) Library Trustees for Three Years; Two (2) Planning Board Members for Three Years; One (1) Planning Board Member for Two (2) Years; One (1) Cemetery Trustee for Three Years; Four (4) Municipal Budget Committee Members for Three Years; Two (2) Zoning Board of Adjustment Members for Three Years.

ARTICLE 2

Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board to amend Article I, Section 1.4 as follows:

The Board of Adjustment shall consist of five members. The members shall be elected in the manner prescribed by RSA 669 as amended. The terms of the members shall be in accordance with RSA 673:3 and RSA 673:5 as amended. Up to ~~three~~ **five (5)** alternate members may be appointed by the Board of Adjustment in accordance with RSA 673:6. In addition to the general powers granted to the Board of Adjustment by RSA 674:33, as amended, the Board may:

ARTICLE 3

Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board to amend Article I, Section 1.6 (Definitions) by adding a definition for Accessory Building to read as follows:

Accessory Building: A non-habitable structure used in a manner as defined under Accessory Use.

ARTICLE 4

Are you in favor of the adoption of Amendment No. 3 as proposed by the Planning Board to amend Article II, Section 2.3.5.A as follows, in order to make it consistent with other Planning Board applications procedures:

A. An application for special permit for activities in the Wetlands Conservation District shall be filed ~~in triplicate with the Building Inspector~~ Town Planner who shall forward one copy to ~~the Chairman of the Planning Board and one to the~~ Hampton Conservation Commission for review and recommendation. The Commission may make field inspections and consult with experts as is appropriate. The Conservation Commission shall report its recommendations to the Planning Board within 40 days of the date on which the application is mailed or otherwise conveyed to the Chairman. Said report shall be submitted in writing at a regular meeting. (Amended March, 1999)

ARTICLE 5

Are you in favor of the adoption of Amendment No. 4 as proposed by the Planning Board to amend Article IV, Table II, Footnote 12 in order to correct an inadvertent contradiction with existing regulations. The front, side and rear setback requirements for lots within the RA and RB will not change and are listed in Table II. The proposed amendment is as follows:

- (12) Seven (7) feet ~~from the lot line or~~ to any other building on the lot in RA and RB Districts.

ARTICLE 6

Are you in favor of the adoption of Amendment No. 5 as proposed by the Planning Board to amend Article IV, Table II, Footnote 14 by deleting the entire footnote, thus making the minimum front setback for all structures in the Business Zone 10-feet from the front property line as indicated in Table II: Dimensional Requirements.

ARTICLE 7

Are you in favor of the adoption of Amendment No. 6 as proposed by the Planning Board to amend Article IV, Table II, Footnote 26 by replacing the existing footnote. The minimum setbacks as listed in Article IV, Table II, Section 4.5.2 will remain 15 feet for the RA zone and 10 feet for the RB zone. The proposed footnote reads as follows:

- (26) The side setback shall be 10 feet for any existing lot of record having less than the required frontage as listed in Article 4.2 in the RA zone. The side setback shall be 7 feet for any existing lot of record having less than the required frontage as listed in Article 4.2 in the RB zone.

ARTICLE 8

Are you in favor of the adoption of Amendment No. 7 as proposed by the Planning Board to amend Article IV, Table II, Footnote 28 by deleting the last sentence in order to correct an inadvertent contradiction with existing regulations. The proposed amendment is as follows:

- (28) Any accessory building being 100 square feet or less in size and not greater than 12 feet in height shall meet a minimum setback of four feet on both sides and rear of the property line in all zones, but must maintain the minimum required front property line setback in the zone said accessory building is being located. ~~A maximum of two auxiliary buildings may be installed and/or erected on any one lot.~~ (Adopted March, 2001)

ARTICLE 9

Are you in favor of the adoption of Amendment No. 8 as proposed by the Planning Board to amend Article V, Section 5.5.7 (Political Signs) to conform with the State RSA's. The proposed amendment is as follows:

5.5.7 Political Signs: Political signs are allowed in all zones subject to the following:

For State primaries and elections:

- a) Placement and Removal shall conform with RSA 664:17.
- b) The earliest date on which political advertising may be posted or displayed shall be the last Friday in July prior to a state primary.
- c) All political advertising shall be removed by the candidate no later than the second Friday following the election unless the election is a primary and the advertising concerns a candidate who is a winner in the primary.

For all other elections:

- ad) Political signs shall not be erected sooner than 15 days prior to the election for which they pertain.
- be) All signs shall be removed within 24 hours following the election.

ARTICLE 10

Are you in favor of the adoption of Amendment No. 9 as proposed by the Planning Board to amend Article X, Section 10.6: Growth Management Ordinance by repealing the entire ordinance.

The Growth Management Ordinance was adopted in 1996 as a stopgap measure to slow the timing of growth in Hampton due to unusual circumstances and lack of adequate public services. In Hampton, the following remedies have occurred: the town wide sewer moratorium was lifted in 2001 after increasing the capacity at the waste water treatment facilities, and completion of reconstruction, improvements and additions to the Hampton Schools. Future infrastructure needs created by normal growth of the Town will be addressed through other legal avenues, and if unusual circumstances again develop, the Town may consider further growth restrictions.

ARTICLE 11

Are you in favor of the adoption of Amendment No. 10 as proposed by the Planning Board to adopt an Impact Fee Ordinance that would require a fee be levied upon development, including subdivision, building construction or other land use change, in order to help meet the needs created by that development for the construction or improvement of capital facilities owned or operated by the town, as permitted by RSA 674:21?

The methodology and fee structure will be developed by the Planning Board, and may only be adopted after a public hearing. No fees, other than assessments for off-site roadway and utility improvements, shall be assessed until the Planning Board has adopted this methodology and fee structure. The complete text of proposed ordinance follows:

IMPACT FEE ORDINANCE TOWN OF HAMPTON, NEW HAMPSHIRE

SECTION 1. PURPOSE

- 1.1 This ordinance is enacted pursuant to RSA 674:16 and 674:21, and in order to: Promote public health, safety, convenience, welfare, and prosperity; Ensure that adequate and appropriate facilities are available to individuals who may come to be located in the Town of Hampton; Prevent scattered or premature development of land as would involve danger or injury to health, safety, or prosperity by reason of the lack of water supply, drainage, transportation, schools, fire protection, or other public services, or necessitate the excessive expenditure of public funds for the supply of such services; Provide for the harmonious development of the municipality and its environs; Ensure the proper arrangement and coordination of streets; and, ensure streets of sufficient width to accommodate existing and prospective traffic.

SECTION 2. AUTHORITY

- 2.1 The Planning Board may, as a condition of approval of any subdivision or site plan, and when consistent with applicable Board regulations, require an applicant to pay an impact fee for the applicant's fair share of off-site improvements to public facilities affected by the development.
- 2.2 Nothing in this section shall be construed to limit the existing authority of the Planning Board to disapprove proposed development which is scattered or premature, or which would require an excessive expenditure of public funds, or which would otherwise violate applicable ordinances and regulations. The adoption of this ordinance shall expressly authorize the Planning Board to require off-site work to be performed by the applicant in lieu of or in addition to paying an impact fee and nothing in this section shall limit the Board's authority to impose other types of conditions of approval. Nothing in this section shall be construed to affect types of fees governed by other statutes, town ordinances or regulations.

SECTION 3. FINDINGS

In review of the impact of growth relative to the existing and planned capital facility capacity available to the Town of Hampton for its municipal and school needs, the Town of Hampton hereby finds that:

- 3.1 As documented by the Master Plan and the Capital Improvements Program of the Town of Hampton, recent and anticipated growth rates in public enrollment and associated improvements and costs would necessitate an excessive expenditure of public funds in order to maintain adequate municipal and school facility standards and to promote and protect the public health, safety and welfare.
- 3.2 The imposition of impact fees is one of the methods available to ensure that public expenditures are not excessive and that new development will bear a proportionate share of the capital costs necessary to accommodate such development.
- 3.3 The impact fee methodology shall be reasonable, rational and proportional method for the assessment of growth-related facility costs to new development.
- 3.4 An impact fee ordinance for public capital facilities is consistent with the goals and objectives of the Master Plan and Capital Improvements Program for the Town of Hampton.

SECTION 4. ASSESSMENT METHODOLOGY AND COLLECTION

- 4.1 The amount of the impact fee shall be a proportional share of municipal capital improvement costs which is reasonably related to the capital needs created by the development, and to the benefits accruing to the development from the capital improvements financed by the fee.
- 4.2 Upgrading of existing facilities and infrastructures, the need for which is not created by new development, shall not be paid for by impact fees.
- 4.3 The Impact Fee Assessment Schedule shall be calculated and adopted by the Planning Board after a public hearing. The Impact Fee Assessment Schedule shall be reviewed annually by the Planning Board. Such review may result in recommended adjustments in one or more of the fees based on the most recent data as may be available including, but not limited to, current construction cost information or capital improvement plans or programs, property assessment data, demographic data, US Census information, and other sources. Based on its review, the Board may consider the adoption of an updated or amended impact fee methodology, or may modify the schedule to correct errors or inconsistencies identified in the review process. No change in the methodology or in the impact fee schedules shall become effective until it shall have been the subject of a public hearing before the Planning Board, noticed in accordance with RSA 675:7.
- 4.4 Impact fees shall be assessed to new development to compensate the Town of Hampton for the proportional share of capital facilities generated by new development in the Town of Hampton, including Town owned or operated facilities to be constructed, or which were constructed in anticipation of new development.
- 4.5 Impact fees shall be collected upon issuance of a building permit.
- 4.6 A person may request, in writing, from the Planning Board a full or partial waiver of impact fees for any residential units or non-residential development that was approved for construction prior to the effective date of this article.

SECTION 5. ADMINISTRATION

- 5.1 **Accounting:** In accord with RSA 673:16, II and RSA 674:21, V(c), impact fees shall be accounted for separately, shall be segregated from the Town's general fund, may be spent upon order of the Board of Selectmen, and shall be used solely for the capital improvements for which it was collected, or to recoup the cost of capital improvements made in anticipation of the needs which the fee was collected to meet.
- 5.2 **Assessment:** All impact fees imposed pursuant to this section shall be assessed prior to, or as a condition for, the issuance of a building permit or other appropriate permission to proceed with development, as determined by the Planning Board.

- 5.3 **Security:** In the interim between assessment and collection, the Planning Board may require developers to post bonds, issue letters of credit, accept liens, or otherwise provide suitable measures of security so as to guarantee future payment of assessed impact fees.
- 5.4 **Collection:** Impact fees shall be collected as a condition for the issuance of a building permit. Nothing in this section shall prevent the Planning Board and the assessed party from establishing an alternate, mutually acceptable schedule of payment.
- 5.5 **Refund:** Any portion of an impact fee which has not become encumbered or otherwise legally bound to be spent for the purpose for which it was collected, shall be refunded, with any accrued interest, to the assessed party or successor in interest:

When the subdivision or site plan approval expires under the respective rules of the Planning Board, or under the terms of the decision, without having become vested under RSA 674:39, and without any extension being granted by the Planning Board; **OR**

When such approval is revoked under RSA 676:4-a; **OR**

Six years after its collection, or, if any extension of approval is granted by the Planning Board, six years after such extension is granted; **OR**

Six years after its collection, whenever the calculation of an impact fee has been predicated upon some portion of capital improvement costs being borne by the Town, and the Legislative Body of the Town has failed to appropriate the Town's share of the capital improvement costs.

Section 6. Appeals

In accord with RSA 676:5, III, appeals of the decision of the Planning Board in administering this ordinance may be made to Superior Court, as provided in RSA 677:15.

SECTION 7. DEFINITIONS

IMPACT FEE: A fee or assessment imposed upon development, including subdivision, building construction or other land use change, in order to help meet the needs occasioned by that development for the construction or improvement of capital facilities owned or operated by the municipality, including and limited to water treatment and distribution facilities; wastewater treatment and disposal facilities; sanitary sewers; storm water, drainage and flood control facilities; public road systems and rights-of-way; municipal office facilities; public school facilities; the municipality's proportional share of capital facilities of a cooperative or regional school district of which the municipality is a member; public safety facilities; solid waste collection, transfer, recycling, processing and disposal facilities; public library facilities; and public recreational facilities not including public open space.

NEW DEVELOPMENT: An activity which results in:

- a. The subdivision of land that creates additional building lots; or
- b. The creation of a new dwelling unit or units; or
- c. The conversion of a lawfully existing use which would result in a net increase in the number of dwelling units; or
- d. A non-residential development or conversion of property that results in a net increase in the gross floor area of a non-residential use.

SECTION 8. EFFECTIVE DATE

This ordinance was adopted by the Legislative Body of the Town of Hampton, acting at its duly warned annual meeting on March 12, 2002.

ARTICLE 12

Are you in favor of the adoption of Amendment No. 11 as proposed by the petition of 25 or more voters of the Town of Hampton to amend the Zoning Ordinance/Map (Article II, Section 2.1) for the Town of Hampton to rezone from Business Seasonal (BS) district to Residence A (RA) district, all the properties located within the area bounded as follows:

Beginning at the point of intersection of the centerline of Winnacunnet Road and of a southerly projection of the centerline of Kings Highway, thence northerly by the said projection of and the centerline of Kings Highway to the centerline of First Street, thence easterly by the centerline of First Street to the centerline of Ocean Boulevard, thence easterly to the Atlantic Ocean shoreline, thence southerly along the Atlantic Ocean shoreline to a point due east of the intersection of the centerlines of Ocean Boulevard and Winnacunnet Road, thence due west to said intersection, thence northerly by the centerline of Winnacunnet Road to the point of beginning. To be in the same RA district as those properties east of the center of Kings Highway, located to the north of First Street and to the south of High Street.

Not Recommended by the Planning Board

ARTICLE 13

On petition of Vivianne G. Marcotte for the Conservation Commission and twenty-five or more registered voters of the Town of Hampton, to see if the Town will raise and appropriate the sum of Three Million (\$3,000,000) Dollars for the acquisition of conservation easements and/or open space land (including any buildings or structures incidental to such land in the best interests of the Town, as the Selectmen deem appropriate, and to authorize the issuance of bonds or notes in accordance with the Municipal Budget Act (RSA Ch. 33) and to authorize the Selectmen to act on behalf of the Town in connection with such acquisitions of conservation easements or other open space land, and to further authorize the Selectmen to issue and negotiate such bonds or notes and determine the rates of interest thereon. No bonds or notes shall be issued with a term maturity of less than fifteen years, and the authority conferred by the passage of this Article is non-lapsing until its purpose is accomplished in accordance with RSA 32:7, III, VI.

The purchase of land with funds appropriated pursuant to this article shall be permitted only if all the procedural requirements for the purchase of land spelled out in RSA 41:14-a are satisfied.

The passage of this Article requires a 3/5 vote. (By petition)

Not recommended by the Board of Selectmen

Recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 14

To see if the Town of Hampton will vote to raise and appropriate a sum not to exceed \$1,324,000 as a supplemental appropriation for the construction of a Police Facility on public property at Brown Avenue and all related activities necessary for said construction. Necessary funds to be raised through the issuance of bonds or notes in an amount not to exceed \$1,324,000 under and in compliance with provisions of the Municipal Finance Act pursuant to RSA Chapter 33, Municipal Finance Act, as amended; and to authorize the Board of Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other actions as may be necessary to effect the issuance, negotiations, sale, and delivery of such bonds or notes as shall be in the best interest of the Town of Hampton. (3/5 vote required)

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 15

Shall the Town of Hampton raise and appropriate as an operating budget, not including appropriations by special warrant articles, the amount set forth in the budget posted with the warrant, for the purposes set forth therein, totaling \$18,585,840? Should this article be defeated, the operating budget shall be \$18,139,936.00 which is the same as last year, with certain adjustments required by previous action of the Town Meeting or by law or the governing body may hold one special meeting, in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only.

NOTE: Warrant Article 15 (Operating Budget Article) does not include special warrant articles 13, 14, 16, 17, 20, 24, 27, 28, 29, 30, 31, 32, 33, 34 and Individual Articles 18, 19, 21, 22, 23, 25, and 26.

Recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 16

Shall the Town raise and appropriate \$350,000 to contribute to the Road Improvement Capital Reserve Fund established by Article 16 of the 1998 Town Meeting pursuant to the provisions of RSA 35:1? The balance in the fund as of December 31, 2001 is approximately \$800,000 plus interest.

Recommended by the Board of Selectmen
Recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 17

On petition of Vivianne G. Marcotte for the Conservation Commission and at least twenty-five registered voters of the Town of Hampton: to raise and appropriate the sum of three hundred thousand (\$300,000) dollars, to be added to the Conservation Land Fund for the purpose of purchasing conservation land and, or conservation easements as authorized by RSA 36-A.

Recommended by the Board of Selectmen
Recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 18

Shall the Town raise and appropriate a sum not to exceed \$200,000 for Ashworth Avenue sewer reconstruction work?

Recommended by the Board of Selectmen
Recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 19

To see if the Town of Hampton will vote to raise and appropriate a sum not to exceed \$100,000 for the purchase of a Street Sweeper and all related activities necessary for the design, construction, acquisition, and transportation of said equipment.

Recommended by the Board of Selectmen
Recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 20

On petition of twenty-five registered voters to request that the Town of Hampton raise and appropriate the sum of \$68,000 for the demolition and replacement of the old "Cave Building" at Tuck field. This building is recommended by and will be used by the Hampton Youth Association, Little Warriors Football Organization and the Hampton Recreation and Parks Advisory Council and Department. (By Petition)

Not recommended by the Board of Selectmen

Not recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 21

To see if the Town of Hampton will vote to raise a sum not to exceed \$62,500 and appropriate a sum not to exceed \$125,000 for the purchase of a Ambulance for the Hampton Fire Department and all related activities necessary for the design, construction, acquisition, and transportation of said ambulance. Half of the purchase price is to be funded from General Fund tax appropriations and half is to be funded by an appropriation from the EMS Special Revenue Fund.

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 22

To see if the Town of Hampton will vote to authorize the Selectmen to enter into a three year lease/*purchase* agreement for the purpose of lease/*purchasing* a Rescue Boat for the Hampton Fire Department and all related activities necessary for the design, construction, acquisition, and transportation of said boat, and to raise and appropriate the sum of \$50,972 for the first year's payment for that purpose. This lease/*purchase* agreement contains an escape clause.

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 23

Shall the Town of Hampton raise and appropriate a sum of \$45,000 to fund a contracted "Spring Cleanup" program?

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 24

On petition of twenty-five registered voters to request that the Town of Hampton raise and appropriate the sum of \$30,000 to add an irrigation system to Tuck Field. The area that would be enhanced would be the soccer field, football field, Little League Field 3 and the Tuck Softball field. This irrigation system is recommended by the Hampton Recreation and Parks Advisory Council and the Hampton Youth Association.

Not recommended by the Board of Selectmen

Not recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 25

To see if the Town of Hampton will vote to raise and appropriate a sum not to exceed \$25,000 for the purchase of a 32-hp 4 wheel drive diesel tractor with bucket loader, hydrostatic transmission and turf tires for the Hampton Parks and Recreation Department. This tractor will replace a 1989 John Deere tractor, which is out of commission at this time but is an essential piece for equipment for the parks department.

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 26

Shall the Town raise \$25,000 and appropriate a sum not to exceed \$100,000 to fund initial implementation steps of the Hampton Beach Area Master Plan (adopted November 7, 2001)? The initial implementation steps include: obtaining specialized technical assistance for setting up a long-term stewardship entity, conducting a specialized traffic and circulation study to indicate appropriate areas for improvements, designing said improvements, finding additional or alternate funding sources. Any outside funds (grants, in-kind service, etc.) that the Town may obtain will be used to off-set the Town's costs. All or some of the \$25,000 Town portion may serve as the required local match for grant(s) funding received through Federal, State, or other means.

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 27

On petition of Michael E. Roy, 391 Ocean Boulevard, Hampton, NH and at least twenty-five or more registered voters of the Town of Hampton: To see if the Town will vote to support the Hampton Christmas parade and related activities and raise and appropriate the sum of \$3,500.00 to help defray the expense of the 2002 event. Said funds to be paid to the Hampton Area Chamber of Commerce. (By petition)

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 28

Shall the town appropriate only the sum of \$500,000 from revenues generated from the Hampton Emergency Medical Services Fund, a Special Revenue Fund created by Article 15 of the 2000 Town Meeting from funds generated from ambulance and emergency medical services calls for providing, improving, and/or enhancing ambulance and emergency medical services? Adoption of this article will have no effect on the town's tax rate.

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 29

Shall the Town appropriate only a sum not to exceed \$350,000 from the Road Improvement Capital Reserve Fund to make improvements on Little River Road, Barbour Road, Naves Road, Middle Street, Curtis Street, Beatrice Street, and Yeaton Street to include street repairs, reconstruction and all associated materials and labor necessary to the work to also include drainage system maintenance, upgrades and improvements

Recommended by the Board of Selectmen

Recommended by the Budget Committee

Recommended by the Deliberative Session

ARTICLE 30

Shall the town appropriate only the sum of \$250,000 from the Hampton Recreation Fund, a Special Revenue Fund created by Article 19 of the 2000 Town Meeting from revenues generated from recreation department programs and activities, to fund programs and activities through the recreation and parks department? Adoption of this article will have no effect on the town's tax rate.

Recommended by the Board of Selectmen
Recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 31

Shall the town appropriate only the sum of \$250,000 from revenues generated from the Hampton Private Detail Fund, a Special Revenue Fund created by Article 17 of the 2000 Town Meeting from funds generated by police and fire department private details to fund police and fire department private details? Adoption of this article will have no effect on the town's tax rate.

Recommended by the Board of Selectmen
Recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 32

Shall the town appropriate only the sum of \$70,000 from revenues generated from the Hampton Cable TV Local Origination Fund, a Special Revenue Fund created by Article 21 of the 2000 Town Meeting from funds generated from the Cable TV local origination franchise agreement funds for the purpose of upgrading, expanding, and enhancing the development of the local origination channel? Adoption of this article will have no effect on the town's tax rate.

Recommended by the Board of Selectmen
Recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 33

Shall the Town of Hampton appropriate only \$25,100 to be deposited in the Cemetery Burial Trust Fund, the interest from which will be withdrawn annually and deposited in the Town's General Fund as an offset to the amount appropriated for the maintenance of the cemeteries. This appropriation will not affect the 2002 tax rate.

Recommended by the Board of Selectmen
Recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 34

On petition of Duane Windemiller and 31 registered voters of the Town of Hampton: To see if the Town of Hampton will vote to appropriate only \$75,000 from the special revenue fund (made up of 20% of the gross lease and rental from town's parking areas located within Hampton Beach Village District) for the purpose allocated by warrant article #41 (1996). The purpose of these funds is for the design and construction of sidewalks and lighting on Ashworth Avenue. This is a non-lapsing article under RSA 32:7 VI, and shall not lapse until 2005. This warrant article will not effect the town's tax rate, it is simply to allocate where the funds shall be spent. (By petition)

Recommended by the Board of Selectmen
Recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 35

Shall we modify the elderly exemptions from property tax in the Town of Hampton, based on assessed value, for qualified taxpayers, to be as follows: for a person 65 years of age up to 75 years, \$50,000; for a person 75 years of age up to 80 years, \$70,000; for a person 80 years of age or older \$90,000? To qualify, the person must have been a New Hampshire resident for at least 5 years, own the real estate individually or jointly, or if the real estate is owned by such person's spouse, they must have been married for at least 5 years. In addition, the taxpayer must have a net income of not more than \$26,000 or, if married, a combined net income of less than \$43,000; and own net assets not in excess of \$95,000 excluding the value of the person's residence.

Recommended by Board of Selectmen
Recommended by the Deliberative Session

ARTICLE 36

Shall the Town of Hampton impose a one-time connection fee of \$200 for a new installation of a master fire alarm box and impose an annual fee of \$125 for maintaining a master fire alarm box, which is connected to the Hampton Municipal Fire Alarm System? The Board of Selectmen shall be authorized to adjust the rates annually based upon the recommendation of the Fire Chief.

Recommended by the Deliberative Session

ARTICLE 37

On petition of Ellen Goethel for the Conservation Commission and at least twenty-five registered voters of the Town of Hampton to amend Article 28, approved at the 1994 Town Meeting, by deleting the phrase "up to an annual maximum of \$10,000" so that the authorization will read as follows: The Town of Hampton will vote to allocate 100% of the Current Use Penalty fees collected by the Town to be deposited in the Conservation Land Fund for use in purchasing conservation land. (By petition)

Not recommended by the Board of Selectmen
Not recommended by the Budget Committee
Recommended by the Deliberative Session

ARTICLE 38

On petition of Vivianne G. Marcotte for the Conservation Commission and twenty-five or more registered voters, to see if the Town will vote to adopt the provisions of RSA 41:14(a) "Acquisition or Sale of Land, Buildings, or Both".

- I. If adopted, the Selectmen shall have the authority to acquire or sell land, buildings, or both; provided however, they shall first submit any such proposed acquisition or sale to the planning board and to the conservation commission, where a board and commission or both exist, they shall hold two (2) public hearings at least ten (10) but not more than fourteen (14) days apart on the proposed acquisition or sale; provided, however, upon the written petition of fifty registered voters presented to the selectmen, prior to the selectmen's vote, according to the provisions of RSA 39:3, the proposed acquisition or sale shall be inserted as an article in the warrant for the Town Meeting. The selectmen's vote shall take place no sooner than ten (10) days nor later than fourteen (14) days after the second public hearing is held.
- II. The provisions of this section shall not apply to the sale of, and the selectmen shall have no authority to sell:
 - a) Town-owned conservation land which is managed and controlled by the Conservation Commission under the provisions of RSA 36-A.
 - b) Any part of a town forest established under RSA 31:110 and managed under RSA 31:112
 - c) Any real estate that has been given, devised, or bequeathed to the town for charitable or community purposes. (By petition)

Prior legislation relating to the sale of town-owned leased land under the Leased Land Sales Program shall not be abrogated.

Recommended by the Deliberative Session.

ARTICLE 39

To see if the Town will vote to authorize the construction, repair, enlargement, and/or improvement of a sea wall on Town property seaward of the Zappala property at 51 Campton Street in the Sun Valley section of Hampton at no expense or liability to the town.

Recommended by Board of Selectmen
Recommended by the Deliberative Session

ARTICLE 40

To see if the Town will vote to sell and transfer certain real estate owned by the Town, bounded southerly by land of Janetos, easterly by Park Avenue, northerly by the 1 Park Avenue property, and westerly by Route 1 for such consideration as the Selectmen may determine advisable.

Recommended by Board of Selectmen
Recommended by the Deliberative Session

ARTICLE 41

To see if the Town will vote to sell and transfer *all it's right, title and interest to a* certain real estate owned by the Town consisting of a strip of land bounded on the north by land of Barn Realty and on the south by High Street running the length of the land owned by Barn Realty to the land of the State of New Hampshire and consisting of that land lying between the boundary of Barn Realty to the southerly side of a sidewalk to be constructed along High Street and Ocean Boulevard, for such consideration as the Selectmen may determine appropriate. *This transaction to be at no cost to the town.*

Recommended by Board of Selectmen
Recommended by the Deliberative Session

ARTICLE 42

To see if the Town will vote to authorize the Board of Selectmen to enter into a lease/*purchase* agreement for the purpose of lease/*purchasing* a vehicle for the building department, funding for said lease/*purchase* is included in the budget?

Recommended by the Deliberative Session

ARTICLE 43

Shall the Town authorize the Board of Selectmen to enter into a multi-year agreement, not to exceed 15 years, to lease a portion of Town property at the Public Works compound to Aurora Communications, LLC, and their successors, heirs, and assigns for the purpose of erecting, maintaining, and operating a wireless communications antennae tower? Such agreement will be subject to such terms and conditions negotiated by the Board of Selectmen to be in the best interests of the town.

Recommended by the Deliberative Session

ARTICLE 44

Shall the Town of Hampton vote to authorize the Board of Selectmen to enter into a lease with the Hampton Beach Village District for the present fire station and such land that may be necessary to continue fire service at the beach under such terms as the Board of Selectmen may deem in the best interest of the Town of Hampton, including a long term lease in the event the town desires to construct a new fire station in the future.

Recommended by the Deliberative Session

ARTICLE 45

To see if the Town will vote to abandon all right, title & interest in 3 certain parcels of land. Said landlocked parcels of undeveloped land adjacent to Spring Marsh, shown on tax map #235 to the west of lots 18, 19, & 20. Said parcels to be deeded as "Lot A" to Karen Codd & Paul C. Breen, "Lot B" to Bette A. Bridle & Russell D. Bridle, and "Lot C" to Robert W. Bridle Trust (As shown on "Lot Line Adjustment Plan", KEM Land Survey, Inc. May 15, 2001) for the sole purpose of becoming part of the abutting properties and not for the creation of a new building lot or lots. This land has been fenced in and used by the said abutters for over 50 years as their yards. These transactions are to be completed at no cost to the town. (By petition)

Recommended by the Deliberative Session

ARTICLE 46

On petition of Katherine A. Street and at least 25 other registered voters, to see if the Town will vote pursuant to NH RSA 231:43 to discontinue completely that portion of the public street known as Briar Road which runs from north to south between North Shore Road and the intersection of Briar Road and Cranberry Lane. The portion of Briar Road to be discontinued is more particularly described as follows: Beginning at a point in the northerly sideline of North Shore Road, said point being the southwesterly corner of land now or formerly of one Mellion, thence running south 78°48' West by said North Shore Road 40.14 feet to the westerly sideline of said Briar Road; thence turning and running North 16°03' West 296.82 feet to the Southerly side of Briar Road, thence turning and running in a southwesterly direction 40'± to the northwesterly corner of land now or formerly of one Driscoll; thence turning and running south 16°03' East 240.03 feet to a granite bound; thence continuing south 16°03' East 50.00 feet to North Shore Road and the point of beginning.

Reference is also made to a plan of land entitled: "Plan of Streets North Beach Highlands, Hampton, N.H. dated October 1978 by John W. Durgin Associates, Inc. being recorded in the Rockingham County Registry of Deeds as Plan #D-8478 1 of 2. (By petition)

Not Recommended by the Deliberative Session

ARTICLE 47

On petition of Katherine A. Street and at least 25 other registered voters, to see if the Town will vote to authorize the Board of Selectmen to convey that portion of the public street known as Briar Road, which has been discontinued completely by the affirmative vote of Article 46, said Article and the description contained therein are by reference incorporated herein and made a part hereof, to such abutters and upon such terms and conditions and for such consideration as shall be in the best interests of the Town. This transaction to be completed at no cost to the Town of Hampton and only after the expiration of six (6) months from the date of Town has voted said discontinuance. (By petition) *Not Recommended by the Deliberative Session and one direct abutter was not notified.*

ARTICLE 48

Are you in favor of allowing Adopt-A-Spot sponsors to erect signs, which are not provided by the Town, at the adopted spot insofar as the signs (a) meet all the requirements of the Town Ordinances, (b) are no larger than ~~2-5~~ feet ~~by 3~~ feet, *those offered by the Town.* (c) are well maintained by such Adopt-A-Spot sponsor, and (d) are provided by the Adopt-A-Spot sponsor at no cost to the Town? (By petition)

Not Recommended by the Deliberative Session

ARTICLE 49

On petition of twenty-five registered voters of the Town of Hampton: To request that the town vote that it shall be unlawful to park on the north or south side of Atlantic Avenue, Hampton Beach, unless a permit has been issued. (Resident parking permit only) Also no recreational vehicles allowed. (By petition)

The Town Clerk's Office was festively decorated for Halloween. Bookkeeper Joyce Williams prepares to hand out the "treats"!

RESIDENT STICKERS

Section 2:104 Permits

- (a) Any legal resident of the Town of Hampton or real property owner shall be entitled to obtain from the Selectmen without charge, a permit to use said public dump (or town parking lots).

If you are a non-resident, property owner you will be required to show a copy of your property tax bill and car registration to the Transfer Station Attendant to receive a Transfer Station sticker or to the Town Clerk in order to receive a resident parking sticker.

If you drive a "company car" that is not registered in your name or in Hampton you will be required to show a copy of your property tax bill or other proof of residency and verification of your employment with the company shown on the vehicle registration (i.e. business card, pay stub or letter from employer).

Resident stickers are to be displayed on the front windshield, lower left hand corner and must be affixed to the window. Please watch the expiration date on the stickers.

Resident stickers are valid for parking in the Church Street lot (adjacent to the water tower), in the designated row at the High Street lot (across from Kennedy's) and at Joe Billy Brown Park.

Mr. James Barrington, Town Manager
Town of Hampton
100 Winnacunnet Road
Hampton, NH 03842

Dear Mr. Barrington:

Enclosed herewith is the completed annual State of New Hampshire Financial Report (MS-5) for the year ended December 31, 2001.

Before submitting the report to the Department of Revenue Administration, please supply and insert the following information on the form.

- A. Page 10, Part IV - *General Fund*, A. Fixed Asset Group of Accounts. The information needed for this report is similar to previous years and is self-explanatory as to requirements.
- B. Page 12, Part V - *Reconciliations*, B. Reconciliation of Tax Anticipation Notes.
- C. Page 18, Part IX - *Supplemental Information Worksheet*, A. All Funds (Additional). Complete as applicable to your community.
- D. Page 19, Part X - *Certification*. Please date and sign.

We have provided you with three copies; one copy for the Department of Revenue Administration, and two copies for the Town files. Please be sure to insert the above requested information on all three copies.

Should you have any questions, please do not hesitate to contact me.

Very truly yours,

Plodzik & Sanderson

Interest on water debt	19I				

Part IX SUPPLEMENTAL INFORMATION WORKSHEET (Continued)

D. SALARIES AND WAGES

Report here the total salaries and wages paid to all employees of your city before deductions for social security, retirement, etc. Include also salaries and wages paid to employees of any utility owned and operated by your government, as well as salaries and wages of city employees charged to construction projects. These amounts may be taken from the W3 form filed by your government for the year ended December 31.

Total wages paid
Z00
\$7,955,262

E. CASH AND INVESTMENTS HELD AT END OF FISCAL YEAR

Report separately for each of the three types of funds listed below, the total amount of cash on hand and on deposit and investments in Federal Government, Federal agency, State and local government, and non-governmental securities. Report all investments at par value. Include in the sinking fund total any mortgages and notes receivable held as offsets to housing and industrial financing loans. Exclude accounts receivable, value of real property, and all non-security assets.

Type of fund (a)	Amount at end of fiscal year Omit cents (b)
Bond funds - Unexpended proceeds from sale of bond issues held pending disbursement	W31 155,638
All other funds except employee retirement funds	W61 26,780,658
CENSUS USE ONLY	
	W01

Part X CERTIFICATION

This is to certify that the information contained in this report was taken from official records and is complete to the best of our knowledge and belief.

Signatures of a majority of the governing body:

GENERAL INSTRUCTIONS

Three copies of this report are sent to each municipality. Selectmen, treasurer and tax collector are expected to cooperate in making out this report. When completed, one copy should be returned to the Department of Revenue Administration and one copy should be placed in your municipal records. The third copy is for use in preparing the annual printed report for the voters.

Please be sure you have completed Part IX, items A-E.

WHEN TO FILE: (R.S.A. 21-J)

- * For cities/towns reporting on a calendar year basis, this report must be filed on or before April 1.
- * For cities/towns reporting on an optional fiscal year basis (year ending June 30), this report must be filed on or before September 1.

Industrial revenue	19T	24T	34T		44T
All other debt	19X 10,332,959	29X	39X 857,726	41X 9,475,233	44X
Education	19H	29F	39F	41F	44F
Interest on water debt	19I				

Part IX SUPPLEMENTAL INFORMATION WORKSHEET (Continued)

D. SALARIES AND WAGES

Report here the total salaries and wages paid to all employees of your city before deductions for social security, retirement, etc. Include also salaries and wages paid to employees of any utility owned and operated by your government, as well as salaries and wages of city employees charged to construction projects. These amounts may be taken from the W3 form filed by your government for the year ended December 31.

Total wages paid
Z00
\$7,955,262

E. CASH AND INVESTMENTS HELD AT END OF FISCAL YEAR

Report separately for each of the three types of funds listed below, the total amount of cash on hand and on deposit and investments in Federal Government, Federal agency, State and local government, and non-governmental securities. Report all investments at par value. Include in the sinking fund total any mortgages and notes receivable held as offsets to housing and industrial financing loans. Exclude accounts receivable, value of real property, and all non-security assets.

Type of fund (a)	Amount at end of fiscal year <i>Omit cents</i> (b)
Bond funds - Unexpended proceeds from sale of bond issues held pending disbursement	W31 155,638
All other funds except employee retirement funds	W61 26,780,658
CENSUS USE ONLY	W01

Part X CERTIFICATION

This is to certify that the information contained in this report was taken from official records and is complete to the best of our knowledge and belief.

Signatures of a majority of the governing body:

GENERAL INSTRUCTIONS

Three copies of this report are sent to each municipality. Selectmen, treasurer and tax collector are expected to cooperate in making out this report. When completed, one copy should be returned to the Department of Revenue Administration and one copy should be placed in your municipal records. The third copy is for use in preparing the annual printed report for the voters.

Please be sure you have completed Part IX, items A-E.

WHEN TO FILE: (R.S.A. 21-J)

- * For cities/towns reporting on a calendar year basis, this report must be filed on or before April 1.
- * For cities/towns reporting on an optional fiscal year basis (year ending June 30), this report must be filed on or before September 1.

WHERE TO FILE

Department of Revenue Administration

All other debt	19X 10,332,959	29X	39X 857,726	41X 9,475,233	44X
Education	19H	29F	39F	41F	44F
Interest on water debt	19I				

Part IX SUPPLEMENTAL INFORMATION WORKSHEET (Continued)

D. SALARIES AND WAGES

Report here the total salaries and wages paid to all employees of your city before deductions for social security, retirement, etc. Include also salaries and wages paid to employees of any utility owned and operated by your government, as well as salaries and wages of city employees charged to construction projects. These amounts may be taken from the W3 form filed by your government for the year ended December 31.

Total wages paid
200
\$7,955,262

E. CASH AND INVESTMENTS HELD AT END OF FISCAL YEAR

Report separately for each of the three types of funds listed below, the total amount of cash on hand and on deposit and investments in Federal Government, Federal agency, State and local government, and non-governmental securities. Report all investments at par value. Include in the sinking fund total any mortgages and notes receivable held as offsets to housing and industrial financing loans. Exclude accounts receivable, value of real property, and all non-security assets.

Type of fund (a)	Amount at end of fiscal year Omit cents (b)
Bond funds - Unexpended proceeds from sale of bond issues held pending disbursement	W31 155,638
All other funds except employee retirement funds	W61 26,780,658
	W01

CENSUS USE ONLY

Part X CERTIFICATION

This is to certify that the information contained in this report was taken from official records and is complete to the best of our knowledge and belief.

Signatures of a majority of the governing body:

GENERAL INSTRUCTIONS

Three copies of this report are sent to each municipality. Selectmen, treasurer and tax collector are expected to cooperate in making out this report. When completed, one copy should be returned to the Department of Revenue Administration and one copy should be placed in your municipal records. The third copy is for use in preparing the annual printed report for the voters.

Please be sure you have completed Part IX, items A-E.

WHEN TO FILE: (R.S.A. 21-J)

- * For cities/towns reporting on a calendar year basis, this report must be filed on or before April 1.
- * For cities/towns reporting on an optional fiscal year basis (year ending June 30), this report must be filed on or before September 1.

**INDEPENDENT AUDITOR'S COMMUNICATION OF
REPORTABLE CONDITIONS AND OTHER MATTERS**

The Board of Commissioners
Hampton Beach Village District
Hampton, New Hampshire 03842

We have audited the financial statements of the Hampton Beach Village District, New Hampshire for the fiscal year ended December 31, 2001, in accordance with State of New Hampshire RSA. 71-A:19. Included in the examination and audit were the accounts and records of the Board of Commissioners, Treasurer, and Trustee of Trust Funds.

As a part of our examination, we reviewed and tested the District's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards, the purpose of such evaluation is to establish a basis for reliance thereon in determining the nature, timing, and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements.

The objective of internal accounting controls is to provide reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a system of internal accounting control should not exceed the benefits derived, and also recognizes that the evaluation of the factors necessarily requires the use of estimates and judgements by District officials.

In connection with our audit report dated February 5, 2002, we noted the following:

A. General Fixed Asset Accounting

We are recommending that the Village District commissioners conduct an inventory of all fixed assets, including land, buildings, fire equipment owned, furniture owned and playground equipment. The fixed asset inventory, after being valued, can then serve as a control of the assets. At the present time control is informal and insufficient.

In addition, the Village District, in order to conform with GASBS 34, will be required to present information on all infrastructure fixed assets subsequent to June 15, 2003, in its annual audit reports.

This report is intended solely for the information and use of management and others within the administration. This restriction is not intended to limit distribution of this report, which is a matter of public record.

In closing, I compliment and thank the Commissioners and staff of the Hampton Beach Village District for their competent assistance during the course of the audit.

INDEPENDENT AUDITOR'S REPORT

The Board of Commissioners
Hampton Beach Village District
Hampton, New Hampshire 03842

We have audited the accompanying general purpose financial statements of the Hampton Beach Village District as of December 31, 2001, and for the year then ended. These financial statements are the responsibility of the Hampton Beach Village District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

As described more fully in Note 1, the general purpose financial statements referred to above omit the general fixed asset account group, which should be included to conform with generally accepted accounting principles. This omission results in an incomplete presentation of the financial statements. The amount that should be recorded in the general fixed asset account group is not known.

In our opinion, except for the omission of the information discussed in the preceding paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of Hampton Beach Village District as of December 31, 2001, and the results of its operations, changes in their fund balances and cash flows for the year then ended in conformity with generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The supplementary schedules are presented for the purpose of additional analysis and are not a required part of the combined financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

**HAMPTON BEACH VILLAGE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2001**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

Hampton Beach Village District is a municipal corporation organized and designated as a District under the laws of the State of New Hampshire. The District is governed by an elected three member board of commissioners. The purpose of the District is to provide general government services, certain public safety services and culture and recreation benefits for Hampton Beach Village District. The District is located within the Town of Hampton, New Hampshire.

Types and Purposes of Funds

General funds are intended to provide recurring general services. They are controlled by a budget approved by the voters. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid general/operation expenditures, fixed charges, and capital costs not paid through other funds.

Capital Projects Funds are used to account for financial assets obtained and used for the acquisition or improvement of major capital facilities. The District's Capital Projects Funds include the following:

1. The General Capital Improvements Fund consists of moneys voted in 1981 for capital improvements as the result of the sale of the saltwater protective system. The original voted amount was \$75,000. As of December 31, 2001, the balance of the fund was \$11,119.25 including interest. Interest for 2001 was \$610.58.
2. The Fire Equipment Capital Fund voted in March of 1995 and March of 1996 for the purpose of purchasing major fire equipment in subsequent years. As of December 31, 2001, the balance of the fund was \$14,077.38, including interest. Interest for 2001 was \$649.36.

Basis of Accounting

The accounting policies of the Hampton Beach Village District conform to generally accepted accounting principles for local governmental units except as indicated hereinafter.

Governmental funds utilize the modified accrual basis whereby revenues are recorded when measurable and available. Expenditures are recorded when the liability is incurred (accrual basis) except:

- A. Disbursements for inventory items (materials and supplies) are considered expenditures at the time of purchase.
- B. Prepaid expenses are not normally recorded.

General Fixed Asset Account Group

Property, plant and equipment acquired or constructed for general governmental services are recorded as expenditures in the fund making the expenditure. Funds used to acquire general fixed assets and/or debt service payments on borrowing in connection therewith are accounted for as expenditures in the year payments are made. This represents a departure from generally accepted accounting principles which require that fixed assets be capitalized and accounted for in a separate fixed asset group of accounts.

**HAMPTON BEACH VILLAGE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2001**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Total Columns on Combined Statements - Overview

Total columns on the Combined Statements - Overview are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Inter-fund elimination's have not been made in the aggregation of this data.

2. BUDGETS AND BUDGETARY ACCOUNTING

Significant General Budget Policies

The District follows a formal budgetary procedure in accordance with various legal requirements governing the District's operations.

At an annual District meeting the District adopts a budget for the current year for the General Fund.

Project-length budgets are adopted for the Capital Projects Fund when major capital facility expenditures are planned. The governing commissioners may transfer appropriations between exempt operating expenditures as they deem necessary, but not between exempt and non-exempt categories. All annual budget appropriations lapse at year end unless encumbered.

State statutes require annual balanced budgets but allow entities to use prior years unreserved fund balances as revenues to balance the current years appropriations. For the year ended December 31, 2001, no unreserved fund balances were applied.

Encumbrances

Encumbrance accounting is used for the general fund and capital projects funds. Encumbrances are recorded when purchase orders, contracts, and continuing appropriations are issued or voted, but are not considered expenditures until liabilities for payments are incurred. Encumbrances are reported as a reservation of fund balance on the balance sheet. Encumbrances do not lapse at year end but are carried forward as a reserved balance until liquidated.

Reconciliation of Precinct Budget to GAAP Basis of Accounting

Amounts included as budgetary expenditures in the "Combined Statement of Revenues, Expenditures and Changes in Fund Balances-Budget and Actual (GAAP Basis) General Fund" (Exhibit C) are presented on the basis budgeted by the District and include encumbrances for various expenditures. This amount differs from those reported in conformity with generally accepted accounting principles (Exhibit B) as follows:

	Encumbered Balance <u>12/31/2001</u>	Encumbrance Paid For In <u>2001</u>	Encumbrance Adjustment As Of <u>12/31/2001</u>	Encumbered Balance <u>12/31/2001</u>
General Government	\$ 7,000.00	\$ (7,000.00)	\$ 2,500.00	\$ 2,500.00
Public Safety	6,000.00	(6,000.00)	6,580.00	6,580.00
Culture and Recreation	-	-	3,000.00	3,000.00
Capital Projects	-	-	30,000.00	30,000.00
	<hr/>	<hr/>	<hr/>	<hr/>
Total	<u>\$ 13,000.00</u>	<u>\$ (13,000.00)</u>	<u>\$ 42,080.00</u>	<u>\$ 42,080.00</u>

**HAMPTON BEACH VILLAGE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2001**

3. CASH AND SAVINGS ACCOUNTS

The District Treasurer is required by State statute to have custody of all moneys belonging to the District and shall pay out the same only upon orders of the commissioners. The District Treasurer shall deposit all such moneys in solvent banks in the state or in participation units in the public deposit investment pool established pursuant to RSA 383.22. Funds may be deposited in banks outside the state if such banks pledge and deliver to the state treasurer as collateral security for such deposits in value at least equal to the amount of the deposit in each case.

Whenever the District Treasurer has an excess of funds which are not immediately needed for the purpose of expenditure, State statutes require the Treasurer, with the approval of the commissioners, invest the same in obligations of the United States government, in savings bank deposits of banks incorporated under the laws of the State of New Hampshire or in certificates of deposits of banks incorporated under the laws of the State of New Hampshire or in national banks located within this state or the Commonwealth of Massachusetts. Any person who directly or indirectly receives any such funds or moneys for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the District. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

For financial planning purposes, cash and equivalents include amounts in demand deposits and money market funds, as well as certificates of deposit and short-term investments with original maturities of 90 days or less.

As of December 31, 2001, savings and checking account balances in the amount of \$299,777.62 were in accounts secured by the Federal Depository Insurance Corporation.

4. PROPERTY TAXES

The property tax year is from April 1st to March 31st and all property taxes are assessed on the property valuation taken in April of that year. The property tax rate is established in the fall by the State Department of Revenue Administration after the review and approval. The property taxes are collected by the Town of Hampton and paid over to the District, upon request, at various times during the year. The responsibility of tax collection and property tax liens is vested in the Town of Hampton.

Taxes raised by the District are assessed using different rates for non-exempt property and exempt property. Non-exempt property taxes are based on total budgeted appropriations, including appropriations for culture and recreation allocated to the District's activities.

Exempt property taxes exclude the appropriations for culture and recreation and are assessed only on the budgeted appropriations of general government and public safety.

For 2001, the total tax assessment consisted of:

	<u>Valuation</u>	<u>Rate</u>	<u>Assessed Tax</u>
Non-exempt	\$215,309,000	\$1.21/\$1,000	\$ 260,524
Exempt	\$257,724,300	\$.57/\$1,000	146,903
Total			<u>\$ 407,427</u>

HAMPTON BEACH VILLAGE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2001

5. RISK MANAGEMENT

The District is exposed to various risk of loss related to torts, thefts of, damages to, and destruction of assets, errors and omissions, injuries to employees; and natural disasters. The District is insured under various policies as of 12/31/01, covering the following:

<u>Policy</u>	<u>Coverage</u>
